Mythical Lovers Divine Desires:

Mythical Lovers, Divine Desires Sarah Bartlett, 1998 This collection reveals sixteen of the world's most evocative tales of passion including the classic legend of doomed love Tristan and Iseult Orpheus and Eurydice Shiva and Parvati an epic Indian drama and The Herdsman and the Weaver Girl a Chinese myth of love among the stars **Like Being Alive Twice** Dharini Bhaskar, 2024-03-29 Is there a moment so pliant that we can nudge it towards any future we desire Sometimes I believe that there is such a moment In a lifetime once In an unnamed nation that's about to rupture Priyamvada Poppy a Hindu and Tariq a Muslim are in love In a few hours Tariq intends to propose Poppy intends to say yes Both assume that they'll fend off political blowback For surely their privilege will protect them But will it Will Poppy and Tariq sustain a love so wholesome so cosseted that it remains impervious to a dystopian state Or will the two be rent apart by chance and circumstance What will their lives look like as they plunge into a brave new future together or apart Written in alternating chapters Like Being Alive Twice trails fact and possibility the tale as it was and the tale as it could have been if only arranging and rearranging tweaking and nudging hoping to find a lasting peace in one or the other story hoping above all else that such peace will prevail over murderous times Politically urgent stylistically intrepid and relentless in its commitment to scrutinizing love loss and the language of privilege Like Being Alive Twice tells of the frantic pursuit of life piled upon life even as a bloodied world closes in *The Myth of Sisyphus* Elliott M. Simon, 2007 The myth of Sisyphus symbolizes the archetypal process of becoming without the consolation of absolute achievement It is both a poignant reflection of the human condition and a prominent framing text for classical medieval and renaissance theories of human perfectibility In this unique reading of the myth through classical philosophies pagan and Christian religious doctrines and medieval and renaissance literature we see Sisyphus the most cunning of human beings attempting to transcend his imperfections empowered by his imagination to renew his faith in the infinite potentialities of human excellence **BOOK JACKET** *The Seven Big Myths about Marriage* Christopher Kaczor, Jennifer Kaczor, 2014-01-23 This work explores some of the most interesting and vexing problems in contemporary life Appealing to reason rather than religious authority the book tackles the most controversial and talked about positions of the Catholic Church on contraception on marriage on reproductive technologies on cohabitation and on divorce arguing for the reasonableness of the Church's views on these issues The book's interdisciplinary approach following the precedent of Thomas Aquinas looks to human happiness and fulfillment properly understood in seeking the answers to questions about how to live It aims to show to skeptical readers that what the Catholic Church teaches about controversial issues is rationally justified by considering evidence from psychology sociology and philosophy The foundation of Kaczor's approach is happiness We all want to be happy Every day in whatever we do we seek this goal But what exactly is happiness And how can we find it The saints and psychologists agree there can be no real happiness without authentic love erotic love friendship love and self giving love agape From this

foundation of happiness Kaczor explores the nature of marriage and the love they promise to each other which is agape a selfgiving love that is the choice to do good for the other He also examines alternatives to covenant marriage such as polygamy and same-sex marriage as well as cohabitation Finally the book explores the value of children To make sense of Catholic teaching on contraception he says that we must first reconsider the value of fertility and having children Only in this perspective can one begin to understand what the Church teaches

Platonic Love from Antiquity to the Renaissance Carl S  an O'Brien, John Dillon, 2022-09-01 Platonic love is a concept that has profoundly shaped Western literature philosophy and intellectual history for centuries First developed in the Symposium and the Phaedrus it was taken up by subsequent thinkers in antiquity entered the theological debates of the Middle Ages and played a key role in the reception of Neoplatonism and the etiquette of romantic relationships during the Italian Renaissance In this wide ranging reference work a leading team of international specialists examines the Platonic distinction between higher and lower forms of eros the role of the higher form in the ascent of the soul and the concept of Beauty They also treat the possibilities for friendship and interpersonal love in a Platonic framework as well as the relationship between love rhetoric and wisdom Subsequent developments are explored in Plutarch Plotinus Augustine Pseudo Dionysius Eriugena Aquinas Ficino della Mirandola Castiglione and the contra amorem tradition

Love, Desire and Transcendence in French Literature Paul Gifford, 2016-12-05 European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford's book allows this considerable contemporary phenomenon to be observed steadily and whole with strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato's Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche's declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Val  ry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French literature but to all those interested in the cultural upheavals of the twentieth century

Happy Lives and the Highest Good Gabriel Richardson Lear, 2009-01-10 Gabriel Richardson Lear presents a bold new approach to one of the enduring debates about Aristotle's Nicomachean Ethics the controversy about whether it coherently argues that the best life for humans is one devoted to a single activity namely philosophical contemplation Many scholars oppose this reading because the bulk of the Ethics is devoted to various moral virtues courage and generosity for example that are not in any obvious way either manifestations of philosophical contemplation or subordinated to it They argue that Aristotle was inconsistent and that we should not try to

read the entire *Ethics* as an attempt to flesh out the notion that the best life aims at the monistic good of contemplation. In defending the unity and coherence of the *Ethics*, Lear argues that in Aristotle's view we may act for the sake of an end not just by instrumentally bringing it about but also by approximating it. She then argues that for Aristotle the excellent rational activity of moral virtue is an approximation of theoretical contemplation. Thus the happiest person chooses moral virtue as an approximation of contemplation in practical life. Richardson Lear bolsters this interpretation by examining three moral virtues: courage, temperance, and greatness of soul, and the way they are fine. Elegantly written and rigorously argued, this is a major contribution to our understanding of a central issue in Aristotle's moral philosophy.

A gay and lesbian psychic perspective may at first be startling but once examined it proves to be unforgettable. *The Advocate*

Gendered Dynamics in Latin Love Poetry Ronnie Ancona, Ellen Greene, 2005-11-18 In recent decades Latin love poetry has become a significant site for feminist and other literary critics studying conceptions of gender and sexuality in ancient Roman culture This new volume the first to focus specifically on gender dynamics in Latin love poetry moves beyond the polarized critical positions that argue that this poetry either confirms traditional gender roles or subverts them Rather the essays in the collection explore the ways in which Latin erotic texts can have both effects shifting power back and forth between male and female If there is one conclusion that emerges it is that the dynamics of gender in Latin amatory poetry do not map in any single way onto the cultural and historical norms of Roman society In fact as several essays show there is a dialectical relationship between this poetry and Roman cultural practices By complicating the views of gender dynamics in Latin love poetry this exciting new scholarship will stimulate further debates in classical studies and literary criticism with its fresh perspectives
