The music of Gustav Mahler repeatedly engages with Romantic notions of redemption This is expressed in a range of gestures and procedures shifting between affirmative fulfilment and pessimistic negation In this groundbreaking study Stephen Downes explores the relationship of this aspect of Mahler s music to the output of Benjamin Britten Kurt Weill and Hans Werner Henze Their initial admiration was notably dissonant with the prevailing Zeitgeist Britten in 1930s England Weill in 1920s Germany and Henze in 1950s Germany and Italy Downes argues that Mahler s music struck a profound chord with them because of the powerful manner in which it raises and intensifies dystopian and utopian complexes and probes the question of fulfilment or redemption an ambition manifest in ambiguous tonal temporal and formal processes Comparisons of the ways in which this topic is evoked facilitate new interpretative insights into the music of these four major composers

Assured Self, Restive Self Prasanta Chakravarty, 2023-07-30 The book explores the encounter of the self with situations of crisis from diverse disciplinary and cultural perspectives from antiquity to contemporary times A crisis is at once a historically situated phenomenon and a recurring idea of endangerment or a breakdown in creaturely living By making our choices stark and difficult crisis opens up the possibility for genuinely fresh and unexpected beginnings At the most fundamental level crisis is the disintegration of relationality among creatures In fact crisis is a battle of attrition with and within selfhood It has the potential to turn into a norm in everyday interaction It then stops being an exception and becomes the very condition of our living Through the rubrics of the assured and the restive the volume addresses how selfhood encounters and negotiates concentric circles of crisis in life and literature Does the idea of crisis allow us to formulate the idea of self in a particular way How do certain sources and resources within the self stoic or heroic political and creative come into being during crisis While some essays delve into questions of repose and sensuality by highlighting specific cases and trajectories from the subcontinent others deal with questions of mythology politics and art in a wider sense One essay directly addresses the core literary question of the uncanny and its relation to selfhood While specific concerns illuminate each essay the volume speaks with a collective global sense of crisis that faces humanity now and tentatively offers some prospects to deal with it

Living in an Age of Mistrust Andrew I. Yeo, Matthew N. Green, 2017-07-20 Trust is a concept familiar to most Whether we are cognizant of it or not we experience it on a daily basis Yet trust is quickly eroding in civic and political life Americans trust in their government has reached all time lows The political and social consequences of this decline in trust are profound What are the foundations of trust What explains its apparent decline in society Is there a way forward for rebuilding trust in our leaders and institutions How should we study the role of trust across a diverse range of policy issues and problems Given its complexity trust as an object of study cannot be claimed by any single discipline Rather than vouch for an overarching theory of trust Living in an Age of Mistrust

synthesizes existing perspectives across multiple disciplines to offer a truly comprehensive examination of this concept and a topic of research Using an analytical framework that encompasses rational and cultural or sociological dimensions of trust the contributions found therein provide a wide range of policy issues both domestic and international to explore the apparent decline in trust its impact on social and political life and efforts to rebuild trust [The Seduction of Pessimism in the Novel](#) Tom Ribitzky,2024-10-31 The Seduction of Pessimism in the Novel Eros Futility and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being Eros is supposedly the consolation for this rift but the history of the novel documents its expression as one of frustrated desires neuroses anxieties and cosmic doom As if repeating the trauma from that original split in Plato a split that also divides philosophy from literature the novel treats eros as a site of loss and grief from the medieval romances to Goethe Emily Bront Proust Mann Woolf D H Lawrence and Nabokov The pessimism that emerges from this eros tells us something fundamental about who we are something that only the novel can say At a time when both education and leisure are increasingly ignoring the novel s imperative to sit with ambiguity complexity and contingency and as we are hurtling toward a bleak future of climate catastrophe and political instability the novel is one of the last bastions of humanity even as it is quickly being eroded *Wittgenstein and Levinas* Bob Plant,2005-02-16 Wittgenstein and Levinas examines the oft neglected relationship between the philosophies of two of the most important and notoriously difficult thinkers of the twentieth century By bringing the work of each philosopher to bear upon the other Plant navigates between the antagonistic intellectual traditions that they helped to share The central focus on the book is the complex yet illuminating interplay between a number of ethical religious themes in both Wittgenstein s mature thinking and Levinas s distinctive account of ethical responsibility **"The Writings of James Barry and the Genre of History Painting, 1775?809 "** Liam Lenihan,2017-07-05 Examining the literary career of the eighteenth century Irish painter James Barry 1741 1806 through an interdisciplinary methodology The Writings of James Barry and the Genre of History Painting 1775 1809 is the first full length study of the artist s writings Liam Lenihan critically assesses the artist s own aesthetic philosophy about painting and printmaking and reveals the extent to which Barry wrestles with the significant stylistic transformations of the pre eminent artistic genre of his age history painting Lenihan s book delves into the connections between Barry s writings and art and the cultural and political issues that dominated the public sphere in London during the American and French Revolutions Barry s writings are read within the context of the political and aesthetic thought of his distinguished friends and contemporaries such as Edmund Burke his first patron Joshua Reynolds his sometime friend and rival Mary Wollstonecraft and William Godwin with whom he was later friends and his students and adversaries William Blake and Henry Fuseli Ultimately Lenihan s interdisciplinary reading shows the extent to which Barry s faith in the classical tradition in general and the genre of history painting in particular is permeated by the hermeneutics of suspicion This study explores and contextualizes Barry s attempt to rethink and remake the preeminent art form of his era
