On The China Road:

China Road Rob Gifford, 2008-06-03 Route 312 is the Chinese Route 66 It flows three thousand miles from east to west passing through the factory towns of the coastal areas through the rural heart of China then up into the Gobi Desert where it merges with the Old Silk Road The highway witnesses every part of the social and economic revolution that is turning China upside down In this utterly surprising and deeply personal book acclaimed National Public Radio reporter Rob Gifford a fluent Mandarin speaker takes the dramatic journey along Route 312 from its start in the boomtown of Shanghai to its end on the border with Kazakhstan Gifford reveals the rich mosaic of modern Chinese life in all its contradictions as he poses the crucial questions that all of us are asking about China Will it really be the next global superpower Is it as solid and as powerful as it looks from the outside And who are the ordinary Chinese people to whom the twenty first century is supposed to belong Gifford is not alone on his journey The largest migration in human history is taking place along highways such as Route 312 as tens of millions of people leave their homes in search of work He sees signs of the booming urban economy everywhere but he also uncovers many of the country's frailties and some of the deep seated problems that could derail China's rise The whole compelling adventure is told through the cast of colorful characters Gifford meets garrulous talk show hosts and ambitious yuppies impoverished peasants and tragic prostitutes cell phone salesmen AIDS patients and Tibetan monks He rides with members of a Shanghai jeep club hitchhikes across the Gobi desert and sings karaoke with migrant workers at truck stops along the way As he recounts his travels along Route 312 Rob Gifford gives a face to what has historically for Westerners been a faceless country and breathes life into a nation that is so often reduced to economic statistics Finally he sounds a warning that all is not well in the Chinese heartlands that serious problems lie ahead and that the future of the West has become inextricably linked with the fate of 1.3 billion Chinese people Informative delightful and powerfully moving Rob Gifford's acute powers of observation his sense of humor and adventure and his determination to explore the wrenching dilemmas of China's explosive development open readers eyes and reward their minds Robert A Kapp president U S China Business Council 1994 2004

Work Safety Regulation in China Jie Gao, 2022-03-31 Fatality quotas implemented in China's industrial sector and local governments are being used to promote work safety and therefore reducing the number of work related deaths Given the controversial nature of this policy Gao analyzes how the fatality quotas are functioning to aid the country in balancing economic growth and social stability The book also examines significant implications caused by this policy's implementation in the local regions and reveals how local officials attempt to handle these problems This is the first book to systematically examine the role of death indicators in work safety improvement in contemporary China revealing insight into Beijing's quota oriented approach to policy making *China's Western Horizon* Daniel Markey, 2020-02-03 Under the ambitious leadership of President Xi Jinping China is zealously transforming its wealth and economic power into potent tools of global political influence But China's foreign policy initiatives even the vaunted Belt

and Road will be shaped and redefined as they confront the ground realities of local and regional politics outside China In China s Western Horizon Daniel S Markey a scholar of international relations and former member of the U S State Department s policy planning staff previews how China s efforts are likely to play out along its western horizon across the swath of Eurasia that includes South Asia Central Asia and the Middle East Drawing from extensive interviews travels and historical research Markey describes how perceptions of China vary widely within states such as Pakistan Kazakhstan and Iran Powerful and privileged groups across the region often expect to profit from their connections to China while others fear commercial and political losses Similarly Eurasian statesmen are scrambling to harness China s energy purchases arms sales and infrastructure investment These leaders are working with China in order to outdo their strategic competitors including India and Saudi Arabia and simultaneously negotiating relations with Russia and America On balance Markey anticipates that China s deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among Eurasian states To make the most of America s limited influence in China s backyard and elsewhere he argues that U S policymakers should pursue a selective and localized strategy to serve America s specific aims in Eurasia and to better compete with China over the long run
