Poor Seekers The:

Food, Nutrition and Poverty Among Asylum-Seekers in North-West Ireland Mary Manandhar, 2006 **Poverty Today Issue 47 (July/August 2000)** , Jobs for the Poor Timothy J. Bartik, 2001-06-11 Even as the United States enjoys a booming economy and historically low levels of unemployment millions of Americans remain out of work or underemployed and joblessness continues to plague many urban communities racial minorities and people with little education In Jobs for the Poor Timothy Bartik calls for a dramatic shift in the way the United States confronts this problem Today most efforts to address this problem focus on ways to make workers more employable such as job training and welfare reform But Bartik argues that the United States should put more emphasis on ways to increase the interest of employers in creating jobs for the poor or the labor demand side of the labor market Bartik s bases his case for labor demand policies on a comprehensive review of the low wage labor market He examines the effectiveness of government interventions in the labor market such as Welfare Reform the Earned Income Tax Credit and Welfare to Work programs and asks if having a job makes a person more employable Bartik finds that public service employment and targeted employer wage subsidies can increase employment among the poor In turn job experience significantly increases the poor s long run earnings by enhancing their skills and reputation with employers And labor demand policies can avoid causing inflation or displacing other workers by targeting high unemployment labor markets and persons who would otherwise be unemployed Bartik concludes by proposing a large scale labor demand program One component of the program would give a tax credit to employers in areas of high unemployment To provide disadvantaged workers with more targeted help Bartik also recommends offering short term subsidies to employers particularly small businesses and nonprofit organizations that hire people who otherwise would be unlikely to find jobs With experience from subsidized jobs the new workers should find it easier to obtain future year round employment Although these efforts would not catapult poor families into the middle class overnight Bartik offers a powerful argument that having a full time worker in every household would help improve the lives of millions Jobs for the Poor makes a compelling case that full employment can be achieved if the country has the political will and adopts policies that address both sides of the labor market Copublished with the W E Upjohn Institute for Economic Research **Poverty and Neoliberalism** Ray Bush, 2007-04-20 Why do so many people worldwide suffer hunger and poverty when there is enough food and other resources globally to prevent it This book shows how famine and food insecurity are an essential part of modern capitalism Although trade debt relief and development initiatives are important they do not alter the structure of the global economy and poverty continues to be created by processes like privatisation trade liberalisation and market reform Despite the end poverty rhetoric of the World Bank and the G8 these high levels of poverty sustain Western wealth and power Is there any hope for change Using case studies from Egypt and North Africa Nigeria Sudan and elsewhere in sub Saharan Africa Ray Bush illustrates that there is resistance to neoliberal policies and that struggles over land mining and

resources can shape real alternatives to existing globalisation **The Colors of Poverty** Ann Chih Lin,David R. Harris,2008-08-14 Given the increasing diversity of the nation particularly with respect to its growing Hispanic and Asian populations why does racial and ethnic difference so often lead to disadvantage In *The Colors of Poverty* a multidisciplinary group of experts provides a breakthrough analysis of the complex mechanisms that connect poverty and race *The Colors of Poverty* reframes the debate over the causes of minority poverty by emphasizing the cumulative effects of disadvantage in perpetuating poverty across generations The contributors consider a kaleidoscope of factors that contribute to widening racial gaps including education racial discrimination social capital immigration and incarceration Mich le Lamont and Mario Small grapple with the theoretical ambiguities of existing cultural explanations for poverty disparities They argue that culture and structure are not competing explanations for poverty but rather collaborate to produce disparities Looking at how attitudes and beliefs exacerbate racial stratification social psychologist Heather Bullock links the rise of inequality in the United States to an increase in public tolerance for disparity She suggests that the American ethos of rugged individualism and meritocracy erodes support for antipoverty programs and reinforces the belief that people are responsible for their own poverty Sociologists Darren Wheelock and Christopher Uggen focus on the collateral consequences of incarceration in exacerbating racial disparities and are the first to propose a link between legislation that blocks former drug felons from obtaining federal aid for higher education and the black white educational attainment gap Joe Soss and Sanford Schram argue that the increasingly decentralized and discretionary nature of state welfare programs allows for different treatment of racial groups even when such policies are touted as race neutral They find that states with more blacks and Hispanics on welfare rolls are consistently more likely to impose lifetime limits caps on benefits for mothers with children and stricter sanctions *The Colors of Poverty* is a comprehensive and evocative introduction to the dynamics of race and inequality The research in this landmark volume moves scholarship on inequality beyond a simple black white paradigm beyond the search for a single cause of poverty and beyond the promise of one magic bullet solution A Volume in the National Poverty Center Series on Poverty and Public Policy [Stoner to Seeker: the Photographs Ii](#) Gordon Schwerzmann,2023-02-27 *STONER TO SEEKER PHOTOGRAPHS OF INDIA* India is the pot of gold at the end of the hippie rainbow Here you can lose or find yourself You have absolute freedom you can be transformed into a new spiritual being or be transfixed into a drooling nodding off junkie *Stoner To Seeker The India Photographs* chronicles Indian life in the 1970s I spent a year and a half traveling all over the Indian subcontinent recording lives hopes dreams and sorrows India is the most fascinating country in the world where religion western consumer culture communism and a traditional way of life are all competing for the soul of India I was a stranger in a strange land and I tried to record that exoticism and awe in my photographs and with written words in my companion Journal I arrived in India as a stoned freak hippie ki yay and through my experiences of interacting with students merchants intellectuals sahhus and fellow freaks became a siddhartha exploring religions philosophies and

other worldliness approaches to life's goals This is my vision of India a bright multi colored prism of light as seen through a lens darkly *Saints, Cure-seekers and Miraculous Healing in Twelfth-century England* Ruth J. Salter, 2021 The cults of the saints were central to the medieval Church These holy men and women acted as patrons and protectors to the religious communities who housed their relics and to the devotees who requested their assistance in petitioning God for a miracle Among the collections of posthumous miracle stories miracula accounts of holy healing feature prominently and depict cure seekers successfully securing their desired remedy for a range of ailments and afflictions What can these miracle accounts tell us of the cure seekers experiences of their journey from ill health to recovery and how was healthcare presented in these sources This book undertakes an in depth study of the miraculous cure seeking process through the lens of Latin miracle accounts produced in twelfth century England a time both when saints cults particularly flourished and there was an increasing transmission and dissemination of classical and Arabic medical works Focused on shorter miracula with a predominantly localised focus and thus on a select group of cure seekers it brings together studies of healthcare and pilgrimage to look at an alternative to medical intervention and the practicalities and processes of securing saintly assistance

asylum context as well as activities and exercises enabling experiential and interactive learning It is aimed both at interpreters in asylum procedures who have no formal training and trained interpreters who wish to specialise in the field In addition the handbook is intended for facilitators and trainers to use in face to face training courses The handbook is also relevant to asylum authorities and interviewers providing them with insights into and guidance in working with interpreters
