Shettleworth, 2023-11-22 Maine has always played a rich and varied role in the art of photography For hundreds of years photographers like other artists have made their way to Maine to capture the natural beauty and human culture of the state So too have many photographers come from Maine and many contributions by Mainers have been made to the medium Maine in Photography is the first comprehensive overview of the history of photography in the state Providing basic knowledge of the most important people and institutions to have promoted photography this volume also studies the ways in which photography has informed the understanding of the social and cultural history of Maine Beginning with the earliest daguerreotype portraits of the 1840s this history traces the growth of the medium emphasizing key contributions such as the Stanley brothers invention of the dry plate process through to the present Key topics addressed throughout the book include the importance of photography in documenting labor and economic life the close relationship between photography and the growth of tourism and the role of Maine photographers in advancing the medium as a fine art form Published in conjunction with the Maine Photo Project this is a unique and timely addition to the body of work on the importance of Maine to American art *Peter Henry Emerson and American Naturalistic Photography* Christian A.

Peterson, 2008 Peter Henry Emerson 1856 1936 was a leading English photographer who spearheaded a style he termed naturalistic photography He argued for photography as a fine art encouraged his colleagues to use nature as their standard and introduced the theory of differential focusing whereby the main subject was in focus and everything else fell into moderate softness Many young Americans admired Emerson s work forming a movement of naturalistic photography in this country that lasted from the 1890s to about 1930 Like Emerson they emphasized the beauty of Mother Nature and humankind s harmony with her photographing the land in all its seasons Among the photographers whose work is included are Edward Curtis Rudolf Eickemeyer Alfred Stieglitz and Doris Ulman [The New York Times Traveler's Guide to International Art Museum Exhibitions 2005](#) Alan Riding, Susan Mermelstein, Roberta Smith, 2004-11 Offers national and international coverage of major art exhibitions at more than 400 museums in the US and abroad using the resources of The New York Times It also features essential information on permanent collections hours museum websites and amenities
