Gambone,2005 At the conclusion of World War II Americans anxiously contemplated the return to peace It was an uncertain time filled with concerns about demobilization inflation strikes and the return of a second Great Depression Balanced against these challenges was the hope in a future of unparalleled opportunities for a generation raised in hard times and war One of the remarkable untold stories of postwar America is the successful assimilation of sixteen million veterans back into civilian society after 1945 The G I generation returned home filled with the same sense of

fear and hope as most citizens at the time Their transition from conflict to normalcy is one of the greatest chapters in American history The Greatest Generation Comes Home combines military and social history into a comprehensive narrative of the veteran s experience after World War II It integrates early impressions of home in 1945 with later stories of medical recovery education work politics and entertainment as well as moving accounts of the dislocation alienation and discomfort many faced The book includes the experiences of not only the millions of veterans drawn from mainstream white America but also the women African Americans Latinos and Asian Americans who served the nation Perhaps most important the book also examines the legacy bequeathed by these veterans to later generations who served in uniform on new battlefields around the world

India At War Yasmin Khan,2015-09-10 World War II was a global catastrophe Far broader than just the critical struggle between Allies and Axis its ramifications were felt throughout the world It was a time of social relocation reorienting ideas of patriotism and geographical attachment and forcing the movement of people across oceans and continents In India at War Yasmin Khan offers an account of India s role in the conflict one that takes into consideration

the social economic and cultural changes that occurred in South Asia between 1939 and 1945 and reveals how vital the Commonwealth's contribution was to the war effort Khan's sweeping work centers on the lives of ordinary Indian people exploring the ways they were affected by a cataclysmic war with origins far beyond Indian shores In manpower alone India's contribution was staggering it produced the largest volunteer army in world history with 2.5 million men Indians were engaged in making the raw materials and food stuffs needed by the Allies and became involved in the construction of airstrips barracks hospitals internment camps roads and railways Their lives were also profoundly affected by the presence of the large Allied army in the region including not only British but American African and Chinese troops Madras was bombed by the Japanese and the Andaman and Nicobar Islands were occupied while the Bengal famine of 1943 in which perhaps three million Bengalis died was a man-made disaster precipitated by the effects of the war This authoritative account offers a critically important look at the contributions of colonial manpower and resources essential to sustaining the war and emphasizes the significant ways in which the conflict shaped modern India *Working in a world of hurt* Carol Acton, Jane Potter, 2015-07-01 *Working in a world of hurt* fills a significant gap in the studies of the psychological trauma wrought by war It focuses not on soldiers but on the men and women who fought to save them in casualty clearing stations hospitals and prison camps The writings by doctors nurses ambulance drivers and other medical personnel reveal the spectrum of their responses that range from breakdown to resilience Through a rich analysis of both published and unpublished personal from the First World War in the early twentieth century to Iraq in the early twenty first Acton and Potter put centre stage the letters diaries memoirs and weblogs that have chronicled physical and emotional suffering many for the first time Wide ranging in scope interdisciplinary in method and written in a scholarly yet accessible style *Working in a world of hurt* is essential reading for lecturers and students as well as the general reader *The Harbour* Francesca Brill, 2013-07-18 Hong Kong 1940 For the reckless young journalist Stevie Steiber days at the Happy Valley racecourse slip into dangerous hedonistic nights Meanwhile Major Harry Field a British Intelligence Officer is investigating the recent arrival of Wu Jishang a sophisticated publisher who owns a controversial political magazine But it is Stevie Jishang's close colleague and lover who really fascinates Harry As the British community continues to party despite the looming threat of war the two are obsessively drawn into a dark passion And when the Japanese army seizes the island they are faced with terrifying challenges how far will they go to protect each other **Negotiating nursing** Jane Brooks, 2018-05-17 This electronic version has been made available under a Creative Commons BY-NC-ND open access license *Negotiating Nursing* explores how the Queen Alexandra's Imperial Military Nursing Service Q.A.s salvaged their soldier patients within the sensitive gender negotiations of what should and could constitute nursing work and where that work could occur The book argues that the Q.A.s an entirely female force during the Second World War were essential to recovering men from the battlefield and for the war despite concerns about women's presence on the frontline Using personal testimony the book maps the developments in nurses' work as they

created a legitimate space for themselves in war zones and established their position as the expert at the bedside Yet despite the acknowledgement of nurses vital role in the medical service their position was gendered As the women of Britain were returned to the home post war it was the military nurses womanhood that stymied their considerable skills from being transferred to the new welfare state *Not the Slightest Chance* Tony Banham, 2003-02-01 More than 10% of Hong Kong's defenders were killed in battle a further 20% died in captivity Those who survived seldom spoke of their experiences Many died young The little primary material surviving written in POW camps or years after the events is contradictory and muddled Yet with just 14 000 defending the Colony it was possible to write from the individual's point of view rather than that of the Big Battalions so favoured by God according to Napoleon and most historians The book assembles a phase by phase day by day hour by hour and death by death account of the battle It considers the individual actions that made up the fighting as well as the strategies and plans and the many controversies that arose Not the Slightest Chance will be of interest to military historians Hong Kong residents and visitors and those in the UK Canada and elsewhere whose family members fought or were interned in Hong Kong during the war years *Women and Science* Marilyn B. Ogilvie, Kerry L. Meek, 2018-12-07 First Published in 1996 Following the author's previous work *Women in Science Antiquity through the Nineteenth Century* in 1986 an increased interest in feminism science and gender issues resulted in this subsequent title This book will be valuable to scholars working in a variety of academic areas and will be useful at different educational levels from secondary through graduate school This annotated bibliography of approximately 2700 entries also includes fields nationality periods persons institutions reference and theme indexes
