praising of orisha in a music ritual known as a toque de santo In *The Artistry of Afro Cuban Bat Drumming* Kenneth Schweitzer blends musical transcription musical analysis interviews ethnographic descriptions and observations from his own experience as a ritual drummer to highlight the complex variables at work during a live Lucum performance Integral in enabling trance possessions by the orisha by far the most dramatic expressions of Lucum faith bat drummers are also entrusted with controlling the overall ebb and flow of the four to six hour toque de santo During these events bat drummers combine their knowledge of ritual with an extensive repertoire of rhythms and songs Musicians focus on the many thematic acts that unfold both concurrently and in quick succession In addition to creating an emotionally charged environment playing salute rhythms for the orisha and supporting the playful song competitions that erupt between singers bat drummers are equally dedicated to nurturing their own drumming community by creating a variety of opportunities for the musicians to grow artistically and creatively

A Neighborhood Divided Jane Balin,2018-10-18 When a nursing facility for AIDS patients is planned for a city neighborhood residents might be expected to respond Not in my backyard But as Jane Balin recounts in *A Neighborhood Divided* when that community is known for its racial and ethnic diversity and liberal attitudes public reaction becomes less predictable and in many ways more important to comprehend An ethnographer who spent two years talking with inhabitants of a progressive neighborhood facing this prospect Jane Balin demonstrates that the controversy divided residents in surprising ways She discovered that those most strongly opposed to the facility lived furthest away that families with young children were evenly represented in the two camps and that African Americans followed a Jewish community leader in opposing the home while dismissing their own minister s support of it By viewing each side sympathetically and allowing participants to express their true feelings about AIDS the author invites readers to recognize their own anxieties over this sensitive issue Balin s insightful work stresses the importance of uncovering the ideologies and fears of middle class Americans in order to understand the range of responses that AIDS has provoked in our society Its ethnographic approach expands the parameters of NIMBY research offering a clearer picture of the multi faceted anxieties that drive responses to AIDS at both the local and national levels

Good Neighbor Empires Elena Jackson Albarrán,2024-09-16 A class of child artists in Mexico a ship full of child refugees from Spain classrooms of child pageant actors and a pair of boy ambassadors revealed facets of hemispheric politics in the Good Neighbor era Culture makers in the Americas tuned into to children as producers of cultural capital to advance their transnational projects In many instances prevailing conceptions of children as innocent primitive dependent and underdeveloped informed perceptions of Latin America as an infantilized region a lesser Other Americas on the continent In other cases children s interventions in the cultural politics economic projects and diplomatic endeavors of the interwar period revealed that Latin American children

saw themselves as modern professional participants in forging inter American relationships *Good Neighbor Empires* is a skillfully crafted study of children as actors and as symbolic centerpieces in the infantilized image of Latin America Marrying deep research in transnational archives with engaging storytelling Albarr n examines the social meaning of children by crafting a story where they emerge as powerful artists exiles and diplomats in open air art schools dormitories and classrooms By vividly demonstrating how children s experiences and the metaphors surrounding them both reaffirmed and contested diplomacy and hemispheric understandings in the Americas the book asserts the relevance of childhood studies and transnational history to understandings of Latin American politics and culture Sonia Robles author of *Mexican Waves Radio Broadcasting along Mexico s Northern Border 1930 1950* The University of Arizona Press 2023 Elena Albarr n is an internationally renowned authority on the history of childhood in Latin America and especially Mexico *Good Neighbor Empires* masterfully tells a transnational history of children their cultural production and their public perception in Latin America during the 1930s and 1940s a time in which the United States discarded military intervention and heavy handed diplomacy in favor of an approach focused on the soft power of commerce media and migration At the heyday of U S imperialism cartoons had often represented the Latin American republics as children in need of Uncle Sam s guidance and Latin Americans both adults and children remained infantilized in the U S imagination throughout the Good Neighbor era Focusing on the agency of children in three contexts from Mexican folklore to Spanish Republican refugees to Pan Americanism as an effort to foster hemispheric solidarity during an era of totalitarian threats the author shows that children and the families they belonged to emerged as part of a new populist rhetoric that reinforced both international capitalist cooperation and patriarchy A cutting edge contribution to the history of the Americas in the twentieth century J rgen Buchenau Dowd Term Chair of Capitalism Studies UNC Charlotte Albarr n makes significant contributions to the scholarship on both childhood studies and the history of cultural relations in *Good Neighbor Empires* As well as examining the discourses of childhood that built upon colonial and neocolonial legacies and shaped Pan Americanism Albarr n gives voice to the children who sometimes refashioned these discourses in surprising ways based on their own understandings of childhood Latin America and the United States Grounded in Mexican cultural history but providing insights that demonstrate the usefulness of children as a category of analysis f Rizal's Life and Minor Writings Austin Craig,1927 **Martian** **Panahon Virus** Kevin F. Owens,2009-11 Martian prospectors Sonia Androff and Fisk Banzer are convinced that they are too threatened to use local mining teams to establish a claim on a suspected rich gold discovery They hire a primitive support crew from the Philippines to help dig out gold in a remote Martian canyon During an on site cave exploration Apollo Panahon a teenage miner with that team discovers a Paleolithic ice puddle with tiny fish embedded in the ice When he thaws and tastes the fish a virus in the fish infects Apollo with a disease that has a side effect that duplicates Nostradamus ability to communicate through time Apollo s sense of events yet to come enables him to warn Sonia that they must flee to survive The

two barely escape the claim jump murders of their companions However their freedom is precarious In desperate need of medical attention both survivors are infected both are getting worse and both slip into comas while on the run Media journalist Terra Newton at a conference on the Moon gets distracted by strange events surrounding the epidemic that has her friends from a Filipino barrio in quarantine She identifies the odd side effect of the virus as a Nostradamus Syndrome the ability of some of the afflicted to communicate through time *The Hollyhock Dolls*NA Memoir: Growing Up in Michigan Diane G.
