Quotation And Cultural Meaning In Twentieth Century Music:

Quotation and Cultural Meaning in Twentieth-Century Music David Metzger, 2003-04-17 Throughout the twentieth century musicians frequently incorporated bits of works by other musicians into their own compositions and performances. When a musician borrows from a piece he or she draws upon not only a melody but also the cultural associations of the original piece. By working with and altering a melody a musician also transforms those associations. This book explores that vibrant practice examining how musicians used quotation to participate in the cultural dialogues sustained around such areas as race, childhood, madness, and the mass media. *Quotation and Cultural Meaning in Twentieth-century Music* David Joel Metzger, 2003

Historical Dictionary of Modern and Contemporary Classical Music Nicole V. Gagné, 2019-07-17 The contemporary music scene thus embodies a uniquely broad spectrum of activity which has grown and changed down to the present hour. With new talents emerging and different technologies developing as we move further into the 21st century, no one can predict what paths music will take next. All we can be certain of is that the inspiration and originality that make music live will continue to bring awe, delight, fascination, and beauty to the people who listen to it. This book covers modernist and postmodern concert music worldwide from the years 1888 to 2018. This second edition of *Historical Dictionary of Modern and Contemporary Classical Music* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on the most important composers, musicians, methods, styles, and media in modernist and postmodern classical music worldwide from 1888 to 2018. This book is an excellent resource for students, researchers, and anyone wanting to know more about modern and contemporary classical music. *The Ashgate Research Companion to Minimalist and Postminimalist Music* Keith Potter, Kyle Gann, 2016-03-23

In recent years the music of minimalist composers such as La Monte Young, Terry Riley, Steve Reich, and Philip Glass has increasingly become the subject of important musicological reflection, research, and debate. Scholars have also been turning their attention to the work of lesser-known contemporaries such as Phill Niblock and Eliane Radigue, or to second and third generation minimalists such as John Adams, Louis Andriessen, Michael Nyman, and William Duckworth, whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors. Attempts have also been made by a number of

academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject

Composing Dissent Robert Adlington, 2013-07-15 The 1960s saw the emergence in the Netherlands of a generation of avant garde musicians including figures such as Louis Andriessen Willem Breuker Reinbert de Leeuw and Misha Mengelberg who were to gain international standing and influence as composers performers and teachers and who had a defining impact upon Dutch musical life Fundamental to their activities in the sixties was a pronounced commitment to social and political engagement The lively culture of activism and dissent on the streets of Amsterdam prompted an array of vigorous responses from these musicians including collaborations with countercultural and protest groups campaigns and direct action against established musical institutions new grassroots performing associations political concerts polemicising within musical works and the advocacy of new more democratic relationships with both performers

and audiences These activities laid the basis for the unique new music scene that emerged in the Netherlands in the 1970s and which has been influential upon performers and composers worldwide This book is the first sustained scholarly examination of this subject It presents the Dutch experience as an exemplary case study in the complex and conflictual encounter of the musical avant garde with the decade s currents of social change The narrative is structured around a number of the decade s defining topoi modernisation and the new anarchy participation politics self management and popular music Dutch avant garde musicians engaged actively with each of these themes but in so doing they found themselves faced with distinct and sometimes intractable challenges caused by the chafing of their political and aesthetic commitments In charting a broad chronological progress from the commencement of work on Peter Schat s Labyrint in 1961 to the premiere of Louis Andriessen s Volkslied in 1971 this book traces the successive attempts of Dutch avant garde musicians to reconcile the era s evolving social agendas with their own adventurous musical practice **The Cambridge**

Downes,2013-09-19 The music of Gustav Mahler repeatedly engages with Romantic notions of redemption This is expressed in a range of gestures and procedures shifting between affirmative fulfilment and pessimistic negation In this groundbreaking study Stephen Downes explores the relationship of this aspect of Mahler s music to the output of Benjamin Britten Kurt Weill and Hans Werner Henze Their initial admiration was notably dissonant with the prevailing Zeitgeist Britten in 1930s England Weill in 1920s Germany and Henze in 1950s Germany and Italy Downes argues that Mahler s music struck a profound chord with them because of the powerful manner in which it raises and intensifies dystopian and utopian

complexes and probes the question of fulfilment or redemption an ambition manifest in ambiguous tonal temporal and formal processes Comparisons of the ways in which this topic is evoked facilitate new interpretative insights into the music of these four major composers Critical Music Historiography: Probing Canons, Ideologies and Institutions Vesa Kurkela, Markus Mantere, 2016-03-09 During the past two decades there has emerged a growing need to reconsider the objects axioms and perspectives of writing music history A certain suspicion towards Francois Lyotard's grand narratives as a sign of what he diagnosed as our postmodern condition has become more or less an established and unquestioned point of departure among historians This suspicion at its most extreme has led to a radical conclusion of the end of history in the work of postmodern scholars such as Jean Baudrillard and Francis Fukuyama The contributors to Critical Music Historiography take a step back and argue that the radical view of the impossibility of history as well as the unavoidable ideology of any history are counterproductive points of departure for historical scholarship It is argued that metanarratives in history are still possible and welcome even if their limitations are acknowledged Foucault Lyotard and others should be taken into account but systematized viewpoints and methods for a more critical and multi faceted re evaluation of the past through research are needed As to the metanarratives of music history they must avoid the pitfalls of evolutionism hagiography and teleology all hallmarks of traditional historiography In this volume the contributors put these methods and principles into practice The chapters tackle under researched and non conventional domains of music history as well as rethinking older historiographical concepts such as orientalism and nationalism and consequently introduce new concepts such as occidentalism and transnationalism The volume is a challenging collection of work that stakes out a unique territory for itself among the growing body of work on critical music history *The Cambridge Companion to Mahler* Jeremy Barham, 2007-12-13 In the years approaching the centenary of Mahler's death this book provides both summation of and starting point for an assessment and reassessment of the composer's output and creative activity Authored by a collection of leading specialists in Mahler scholarship its opening chapters place the composer in socio political and cultural contexts and discuss his work in light of developments in the aesthetics of musical meaning Part II examines from a variety of analytical interpretative and critical standpoints the complete range of his output from early student works and unfinished fragments to the sketches and performing versions of the Tenth Symphony Part III evaluates Mahler's role as interpreter of his own and other composers works during his lifelong career as operatic and orchestral conductor Part IV addresses Mahler's fluctuating reception history from scholarly journalistic creative public and commercial perspectives with special attention being paid to his compositional legacy *Postmodernism in Music* Kenneth Gloag, 2012-06-21 What is postmodernism How does it relate to music This introduction clarifies the concept providing ways of interpreting postmodern music "Ligeti's Laments: Nostalgia, Exoticism, and the Absolute" Amy Bauer, 2017-07-05 When the Hungarian composer György Ligeti passed away in June 2006 he was widely feted as being one of the greatest composers of our time His complete published works were

recorded during his lifetime and his music continues to inspire a steady stream of performances and scholarship Ligeti's *Laments* provides a critical analysis of the composer's works considering both the compositions themselves and the larger cultural implications of their reception Bauer both synthesizes and challenges the prevailing narratives surrounding the composer's long career and uses the theme of lament to inform a discussion of specific musical topics including descending melodic motives passacaglia and the influence of folk music But Ligeti laments in a larger sense his music fuses rigour and sensuality tradition and the new and influences from disparate high and low cultures with a certain critical and ironic distance reflected in his spoken commentary as well as in the substance of his music The notions of nostalgia exoticism and the absolute are used to relate works of different eras and genres along with associated concepts of allegory melancholy contemporary subjectivity and the voice
