*China Rising: Capitalist Roads, Socialist Destinations* Jeff J. Brown, 2017-03-24 CHINA RISING the latest book by the author of *44 Days Backpacking in China* *The Middle Kingdom in the 21st Century* with the United States *Europe and the Fate of the World in Its Looking Glass* one of the most engaging political travelogues in recent memory is a comprehensive absorbing eye opening guide to China in the 21st century a volume which in 700 pp packs it all history personal memory sociology political analysis and above all a fair dose of invaluable first hand information designed to detoxify the Western reader s mind from the constant lies served by the Western media in support of Washington s global imperial agenda The result is a thorough rectification a deprogramming of just about everything we as Westerners have been taught to believe about China allowing us to see the Chinese people and their leaders as they really are ordinary human beings just like us with dreams foibles defects and a proud history extending millennia a people that in a century have overcome just about every scourge known to man famines massive drug addiction civil wars invasions grinding poverty and humiliation to become one of the great powers of this century perhaps the greatest and which today much as a result of its success is facing the undying hostility of the world s hegemon the United States itching for a confrontation to reassert imperial control It is thus indispensable for Westerners and Asians to know the truth of the situation what their governments are doing led by the USA behind their backs if the planet is to be spared a nuclear conflict of incalculable

horror For as Brown indicates China will not back down this time and neither will Russia her strategic ally who faces the same type of constant harassment and bullying by the West also for having the audacity to defend her sovereignty and set her own foreign policy course The truth therefore must come out about key events from the so called Tiananmen Massacre organized by the CIA to who Mao Zedong really was and did a role for which he earned the love of his countrymen to this day It s a big job but the author an American fluent in Chinese a teacher by profession and with 15 years residence in the Middle Kingdom and a cosmopolitan background is eminently qualified to meet the task Andre Vltchek himself a truth teller of distinction and a man who like Jeff Brown knows China well has endorsed CHINA RISING as a unique instrument of mind liberation Vltchek words are worth heeding The Western public should learn and remember one essential thing about China no matter what European and North American propaganda barks about the People s Republic China is much more democratic than the West It is democratic in its own way For thousands of years it developed its own political system Its rulers no matter who they are are given a conditional right to govern by the people In the past but even now it is called a Heavenly Mandate If the rulers fail to respect the will of the people they get deposed And the Communist Party of China is greatly respectful of the desires of the majority of the Chinese people When they want liberal reforms they are delivered When they want more Communism and an epic fight against corruption like now China s government immediately reacts It is powerful and democratic although it is a very specific and complex arrangement And now the Chinese people are outraged and they are sending clear signals to Beijing do not succumb to the West If you do our nation will suffer immensely and the rest of the world will turn to ashes The fate of the world hangs in the balance and only truth can prevent a global catastrophe

Evolution's Rainbow Joan Roughgarden, 2013-09-14 In this innovative celebration of diversity and affirmation of individuality in animals and humans Joan Roughgarden challenges accepted wisdom about gender identity and sexual orientation A distinguished evolutionary biologist Roughgarden takes on the medical establishment the Bible social science and even Darwin himself She leads the reader through a fascinating discussion of diversity in gender and sexuality among fish reptiles amphibians birds and mammals including primates Evolution's Rainbow explains how this diversity develops from the action of genes and hormones and how people come to differ from each other in all aspects of body and behavior Roughgarden reconstructs primary science in light of feminist gay and transgender criticism and redefines our understanding of sex gender and sexuality Witty playful and daring this book will revolutionize our understanding of sexuality Roughgarden argues that principal elements of Darwinian sexual selection theory are false and suggests a new theory that emphasizes social inclusion and control of access to resources and mating opportunity She disputes a range of scientific and medical concepts including Wilson s genetic determinism of behavior evolutionary psychology the existence of a gay gene the role of parenting in determining gender identity and Dawkins s selfish gene as the driver of natural selection She dares social science to respect the agency and rationality of diverse people shows that many cultures across the world and throughout

history accommodate people we label today as lesbian gay and transgendered and calls on the Christian religion to acknowledge the Bible's many passages endorsing diversity in gender and sexuality Evolution's Rainbow concludes with bold recommendations for improving education in biology psychology and medicine for democratizing genetic engineering and medical practice and for building a public monument to affirm diversity as one of our nation's defining principles **The Giant Encyclopedia of Preschool Activities for Four-year-olds** Kathy Charner, 2004 Written just for four year olds this collection of over 600 teacher created classroom tested activities has everything from songs and books to activities in art circle time transitions science math language music and movement and more Helpful classroom management techniques are included This complete resource of the best selections from a national contest is sure to become a classroom favorite
