The Political Integration of Ethnic Minorities in Britain Anthony F. Heath,Stephen D. Fisher,Gemma Rosenblatt,David Sanders,Maria Sobolewska,2013-08-15 Britain has become increasingly diverse over the last fifty years and she has been fortunate to attract relatively highly educated immigrants with democratic values and positive perceptions of the British political system But Britain s ethnic minorities have suffered prejudice harassment and discrimination while politicians increasingly argue that they have failed to integrate adequately into British society and accuse them of leading separate lives In this book we set out to explore the extent and nature of the political rather than the economic integration of Britain s growing ethnic minority population We consider what ethnic minorities in Britain think about and how they engage in British politics This includes political knowledge and interest political values and policy preferences perceptions of parties preferences for parties what parties offer ethnic minorities electoral registration turnout and vote choice other forms of political participation such as signing petitions and demonstrations and trust in political institutions and satisfaction with the democratic system The book considers the ways in which ethnic minorities resemble or differ from the white British population and differences between different minority groups The analysis is based on the largest and broadest academic survey ever of the political attitudes and behaviour of Britain s main ethnic minority groups the 2010 Ethnic Minority British Election Study in conjunction with the nationally

representative British Election Study and other surveys The findings are based on complex statistical regression models but they are presented and interpreted for more general readers To what extent does discrimination at work and social exclusion alienate ethnic minorities from the political process Are those minorities who associate more with those from their own ethnic group less engaged politically Are those who were born in Britain better integrated than immigrants This study addresses these and related questions Despite there being many reasons for minorities to disassociate themselves from British politics they engage in positive and constructive ways But there are important differences between the nature of white British and ethnic minority political engagement and between different minority groups and especially between immigrants and their descendants As a result politicians and political parties should not take the political support of ethnic minorities for granted

Muslims in British Local Government Eren Tatari, 2014-06-05 This book investigates whether the presence of Muslim representatives in city councils improves substantive representation of Muslim interests across 32 London boroughs It theorizes that descriptive representation of minorities leads to improved responsiveness to minority interests contingent on the percentage of minority representatives the proportion of minorities in the district level of party fragmentation among minority representatives their political incorporation and the electoral competitiveness of the district It uses multivariate regression analysis to test the effects of these five explanatory variables It validates the quantitative findings with case studies of three London boroughs while also investigating the role of representational styles of Muslim councillors on their political attitudes and behavior

The Lives and Afterlives of Enoch Powell Olivier Esteves, Stéphane Porion, 2019-04-30 50 years after Enoch Powell s self styled detonation in the form of his so called Rivers of Blood speech this volume brings together contributions from international scholars in the field of history political science and British studies with new insights from hitherto unexplored archives It investigates some of the key national and grassroots parameters which from above and from below led to Powell s violent irruption into the immigration debate in 1968 It apprehends Powell as a political and intellectual figure firmly established in the British Tory tradition a tradition which was to shape the 1970s debate on race and immigration and be avidly instrumentalised by the British far right It also analyses Powell s positioning vis vis the Irish question and apprehends Powell s late 1960s moment from an international standpoint as one of the early stages of the conservative revolution which was to culminate in 2016 with Trump s election Lastly this book weaves a thread between Powell and another recent political detonation Brexit

Ethnic Minority Migrants in Britain and France Rahsaan Maxwell, 2012-03-05 This book analyzes migrants labor market and political integration outcomes It argues that assimilation trade offs shape access to economic and political resources Migrants who are more segregated have group mobilization resources to achieve economic and political success Migrants who are more assimilated have fewer mobilization resources and worse economic and political outcomes The book offers a unique perspective on why migrant groups have different integration outcomes and provides the first systematic way of understanding why assimilation outcomes do not always match economic and political outcomes

Civic Hopes and Political Realities S. Karthick Ramakrishnan, Irene

Bloemraad,2008-07-10 For many Americans participation in community organizations lays the groundwork for future political engagement But how does this traditional model of civic life relate to the experiences of today s immigrants Do community organizations help immigrants gain political influence in their neighborhoods and cities In Civic Hopes and Political Realities experts from a wide range of disciplines explore the way civic groups across the country and around the world are shaping immigrants quest for political effectiveness Civic Hopes and Political Realities shows that while immigrant organizations play an important role in the lives of members their impact is often compromised by political marginalization and a severe lack of resources S Karthick Ramakrishnan and Irene Bloemraad examine community organizations in six cities in California and find that even in areas with high rates of immigrant organizing policymakers remain unaware of local ethnic organizations Looking at new immigrant destinations Kristi Andersen finds that community organizations often serve as the primary vehicle for political incorporation a role once played by the major political parties Floris Vermeulen and Maria Berger show how policies in two European cities lead to very different outcomes for ethnic organizations Amsterdam s more welcoming multicultural policies help immigrant community groups attain a level of political clout that similar organizations in Berlin lack Janelle Wong Kathy Rim and Haven Perez report on a study of Latino and Asian American evangelical churches While the church shapes members political views on issues such as abortion and same sex marriage church members may also question the evangelical movement s position on such issues as civil rights and immigration Els de Graauw finds that many non profit organizations without explicitly political agendas nonetheless play a crucial role in advancing the political interests of their immigrant members Recent cuts in funding for such organizations she argues block not only the provision of key social services but also an important avenue for political voice Looking at community organizing in a suburban community Sofya Aptekar finds that even when immigrant organizations have considerable resources and highly educated members they tend to be excluded from town politics Some observers worry that America s increasing diversity is detrimental to civic life and political engagement Civic Hopes and Political Realities boldly advances an alternative understanding of the ways in which immigrants are enriching America s civic and political realms even in the face of often challenging circumstances

Race, Faith and Planning in Britain Richard Gale,Huw Thomas,2020-09-21 Race Faith and Planning in Britain adopts

a Critical Race Theory perspective to analyse and discuss challenges of planning in contemporary multi ethnic Britain Exploring how planning is affected by and affects the racialisation of social relations this book charts the history of the UK planning system s approach in terms of the spatial consequences of immigration and discourses of diversity cohesion citizenship and belonging Authors Richard Gale and Huw Thomas pay special attention to the experiences of minority groups in Britain including Gypsies and Travellers and British Muslims They underline that the struggle over planning in racialised societies must be construed as part of a wider political struggle over equality This book is an essential read for students and practitioners of planning in multi cultural contexts

Class, ethnicity and religion in the Bengali East End Sarah Glynn, 2016-05-16 This exploration of one of the most concentrated immigrant communities in Britain combines a fascinating narrative history an original theoretical analysis of the evolving relationship between progressive left politics and ethnic minorities and an incisive critique of political multiculturalism It recounts and analyses the experiences of many of those who took part in over six decades of political history that range over secular nationalism trade unionism black radicalism mainstream local politics Islamism and the rise and fall of the Respect Coalition Through this Bengali case study and examples from wider immigrant politics it traces the development and adoption of the concepts of popular frontism revolutionary stages theory and identity politics It demonstrates how these theories and tactics have cut across class based organisation and acted as an impediment to addressing socio economic inequality and it argues for a left materialist alternative It will appeal equally to sociologists political activists and local historians

British Elections and Parties
Review David Denver, Lyn Bennie, Lisa Harrison, Jon Tonge, 2001-09-14 Containing contributions from leading names in British politics this review continues to publish front rank research on parties elections and voting behaviour in Britain

Policing, Race and Racism Mike Rowe, 2012-12-06 Over recent years race has become one of the most important issues faced by the police This book seeks to analyse the context and background to these changes to assess the impact of the Lawrence Inquiry and the MacPherson Report and to trace the growing emphasis on policing as an antiracist activity proactively confronting racism in both crime and non crime situations Whilst this change has not been wholly or consistently applied it does represent an important change in the discourse that surrounds police relations with the public since it changes the traditional role of the police as neutral arbiters of the law This book shows why race has become the most significant issue facing the British police and argues that the police response to race has led to a consideration of fundamental issues about the relation of the police to society as a whole and not just minority groups who might be most directly affected
