Race and Revolution Gary B. Nash, 1990-12 *Race and Revolution* is a trenchant study of the revolutionary generation's early efforts to right the apparent contradiction of slavery and of their ultimate compromises that not only left the institution intact but provided it with the protection of a vastly strengthened government after 1788 *Race and Revolution* describes the free black community's response to this failure of the revolution's promise its vigorous and articulate pleas for justice and the community's successes in building its own African American institutions within the hostile environment of early nineteenth century America

**Race and Revolution** Max Shachtman, 2003-05-17 Astonishingly advance for its time the document was originally drafted in 1933 as *Communism and the Negro* and was the most comprehensive statement on race produced by the Left Opposition the dissenting Communist tendency led by Leon Trotsky *Race and Revolution* places the black struggle for freedom and equality at the heart of American history Racial oppression Shachtman argues can be comprehended only within the totality of social and class relations The document culminates in a devastating polemic against the Communist Party's call for a Black Belt state in the American South Jacket

*Race to Revolution* Gerald Horne, 2014-07-08 The histories of Cuba and the United States are tightly intertwined and have been for at least two centuries In *Race to Revolution* historian Gerald Horne examines a critical relationship between the two countries by tracing out the typically overlooked interconnections among slavery Jim Crow and revolution Slavery was central to the economic and political trajectories of Cuba and the United States both in terms of each nation's internal political and economic development and in the interactions between the small Caribbean island and the Colossus of the North Horne draws a direct link between the black experiences in two very different countries and follows that connection through changing periods of resistance and revolutionary upheaval Black Cubans were crucial to Cuba's initial independence and the relative freedom they achieved helped bring down Jim Crow in the United States reinforcing radical politics within the black communities of both nations This in turn helped to create the conditions that gave rise to the Cuban Revolution which on New Year's Day in 1959 shook the United States to its core Based on extensive research in Havana Madrid London and throughout the U S *Race to Revolution* delves deep into the historical record bringing to life the experiences of slaves and slave traders abolitionists and sailors politicians and poor farmers It illuminates the complex web of interaction and influence that shaped the lives of many generations as they struggled over questions of race property and political power in both Cuba and the United States

**Race and Revolution** Gary B. Nash, 1990-12-01 The most profound crisis of conscience for white Americans at the end of the eighteenth century became their most tragic failure *Race and Revolution* is a trenchant study of the revolutionary generation's early efforts to right the apparent contradiction of slavery and of their ultimate compromises that not only left the institution intact but provided it with the protection of a vastly strengthened government after 1788 Reversing the conventional view that blames slavery on the South's social and economic structures Nash stresses the role of the northern states in the failure to abolish slavery It was northern racism and hypocrisy as much as southern intransigence that buttressed the peculiar institution Nash also shows how economic and cultural factors intertwined to result not in an apparently judicious decision of the new American nation but rather its most significant lost opportunity *Race and Revolution* describes the free black community's response to this failure of the revolution's promise its vigorous and articulate pleas for justice and the community's successes in building its own African American institutions within the hostile environment of early nineteenth century America Included with the text of *Race and Revolution* are nineteen rare and crucial documents letters pamphlets sermons and speeches which provide evidence for Nash's controversial and persuasive claims From the words of Anthony Benezet and Luther Martin to those of Absalom Jones and Caesar Sarter readers may judge the historical record for themselves In reality argues Nash the American Revolution represents the largest slave uprising in our history *Race and Revolution* is the compelling story of that failed quest for the promise of freedom

*The Common Cause* Robert G. Parkinson, 2016-05-18 When the Revolutionary War began the odds of a united continental effort to resist the British seemed nearly impossible Few on either side of the Atlantic expected thirteen colonies to stick together in a war against their

cultural cousins In this pathbreaking book Robert Parkinson argues that to unify the patriot side political and communications leaders linked British tyranny to colonial prejudices stereotypes and fears about insurrectionary slaves and violent Indians Manipulating newspaper networks Washington Jefferson Adams Franklin and their fellow agitators broadcast stories of British agents inciting African Americans and Indians to take up arms against the American rebellion Using rhetoric like domestic insurrectionists and merciless savages the founding fathers rallied the people around a common enemy and made racial prejudice a cornerstone of the new Republic In a fresh reading of the founding moment Parkinson demonstrates the dual projection of the common cause Patriots through both an ideological appeal to popular rights and a wartime movement against a host of British recruited slaves and Indians forged a racialized exclusionary model of American citizenship

Race, Revolution, and the Struggle for Human Rights in Zanzibar G. Thomas Burgess, Ali Sultan Issa, Seif Sharif Hamad, 2009 Zanzibar has had the most turbulent postcolonial history of any part of the United Republic of Tanzania yet few sources explain the reasons why The current political impasse in the islands is a contest over the question of whether to revere and sustain the Zanzibari Revolution of 1964 in which thousands of islanders mostly Arab lost their lives It is also about whether Zanzibar's union with the Tanzanian mainland cemented only a few months after the revolution should be strengthened reformed or dissolved Defenders of the revolution claim it was necessary to right a century of wrongs They speak the language of African nationalism and aspire to unify the majority of Zanzibaris through the politics of race Their opponents instead deplore the violence of the revolution espouse the language of human rights and claim the revolution reversed a century of social and economic development They reject the politics of race regarding Islam as a more worthy basis for cultural and political unity From a series of personal interviews conducted over several years Thomas Burgess has produced two highly readable first person narratives in which two nationalists in Africa describe their conflicts achievements failures and tragedies Their life stories represent two opposing arguments for and against the revolution Ali Sultan Issa traveled widely in the 1950s and helped introduce socialism into the islands As a minister in the first revolutionary government he became one of Zanzibar's most controversial figures responsible for some of the government's most radical policies After years of imprisonment he reemerged in the 1990s as one of Zanzibar's most successful hotel entrepreneurs Seif Sharif Hamad came of age during the revolution and became disenchanted with its broken promises and excesses In the 1980s he emerged as a reformist minister seeking to roll back socialism and authoritarian rule After his imprisonment he has ever since served as a leading figure in what has become Tanzania's largest opposition party As Burgess demonstrates in his introduction both memoirs trace Zanzibar's postindependence trajectory and reveal how Zanzibaris continue to dispute their revolutionary heritage and remain divided over issues of memory identity and whether to remain a part of Tanzania The memoirs explain how conflicts in the islands have become issues of national importance in Tanzania testing that state's commitment to democratic pluralism They engage our most basic assumptions about social justice and human rights and

shed light on a host of themes key to understanding Zanzibari history that are also of universal relevance including the legacies of slavery and colonialism and the origins of racial violence poverty and underdevelopment They also show how a cosmopolitan island society negotiates cultural influences from Africa the Middle East Asia and Europe Race and American Political Development Joseph E. Lowndes, Julie Novkov, Dorian T. Warren, 2012-11-12 Race has been present at every critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of inequality a political organizing principle an ideology and a system of power we must study the politics of race historically institutionally and discursively Covering more than three hundred years of American political history from the founding to the contemporary moment the contributors in this volume make this extended argument Together they provide an understanding of American politics that challenges our conventional disciplinary tools of studying politics and our conservative political moment s dominant narrative of racial progress This volume the first to collect essays on the role of race in American political history and development resituates race in American politics as an issue for sustained and broadened critical attention *Slavery, Race and the American Revolution* Duncan J. MacLeod, 1974 *Revolutionaries to Race Leaders* Cedric Johnson, The Black Power movement represented a key turning point in American politics Disenchanted by the hollow progress of federal desegregation during the 1960s many black citizens and leaders across the United States demanded meaningful self determination The popular movement they created was marked by a vigorous artistic renaissance militant political action and fierce ideological debate Exploring the major political and intellectual currents from the Black Power era to the present Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement s most radical aims the rejection of white aesthetic standards redefinition of black identity solidarity with the Third World and anticapitalist revolution were gradually eclipsed by more moderate aspirations Although Black Power activists transformed the face of American government Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period Drawing on extensive archival research he reinterprets the place of key intellectual figures such as Harold Cruse and Amiri Baraka and influential organizations including the African Liberation Support Committee the National Black Political Assembly and the National Black Independent Political Party in postsegregation black politics while at the same time identifying the contradictions of Black Power radicalism itself Documenting the historical retreat from radical democratic struggle *Revolutionaries to Race Leaders* ultimately calls for the renewal of popular struggle and class conscious politics Cedric Johnson is assistant professor of political science at Hobart and William Smith Colleges *Philanthropy and Race in the Haitian Revolution* Erica R. Johnson, 2018-06-19 This book examines the ways in which a minority of primarily white male French philanthropists used

their social standing and talents to improve the lives of peoples of African descent in Saint Domingue during the crucial period of the Haitian Revolution They went to great lengths to advocate for the application of universal human rights through political activities academic societies religious charity influence on public opinion and fraternity in the armed services The motives for their benevolence ran the gamut from genuine altruism to the selfish pursuit of prestige which could on occasion lead to political or economic benefit from aiding blacks and people of color This book offers a view that takes into account the efforts of all peoples who worked to end slavery and establish racial equality in Saint Domingue and challenges simplistic notions of the Haitian Revolution which lean too heavily on an assumed strict racial divide between black and white

**Race, Class, and Power** Leo Kuper, 2017-07-05 Examining in detail the apparently inexorable polarization of society in such countries as Rwanda Algeria and South Africa the author questions whether current theories correctly explain the past or offer adequate guides for the future In their place he puts forward an alternative neo Durkheimian view of the possibility of non violent revolutionary change based on the development of such social and cultural continuities as already exist within each plural society But he warns that this is an age of passionate commitment to violence in which vicarious killers abound in search of a Vietnam of their own The aim of this groundbreaking and challenging book is to create theoretical perspectives in which to view the racial conflict of plural societies Written in the turbulent early 1970s the book demonstrates the inadequacy of then prevailing views such as Marxist interpretations of racial conflict as class struggle and the Fanon a priori rejection of non violent techniques of change which Kuper holds responsible for the acceptance of what he calls the platitudes of violence The book concludes with more personal sections focusing on the author's struggles with the then prevailing South African society critiques of that and censorship of his attempts to make these public In the light of subsequent changes in South Africa many decades later this book serves not only as an important work of political sociology but as a personal testament to the fight against racism in South Africa Leo Kuper was professor of sociology and director of the African Studies Center at the University of California Los Angeles A South African by birth he was one of the first writers on genocide as well as other aspects of African studies and urban sociology His major book *Genocide* Penguin 1981 remains in print The Leo Kuper Foundation is a non governmental organization dedicated to the eradication of genocide through research advice and education It was created in Washington DC in 1994 following the death of Leo Kuper with the aim of improving measures to prevent genocide The main area of work for the past five years has been in support of the creation of an International Criminal Court Troy Duster is director at the Institute for the History of the Production of Knowledge New York University
