general readers about the storied past of one of the world's most fabled cities Timbuktu the name still evokes an exotic faraway place even though the city's glory days are long gone Unspooling its history and legends resolving myth with reality Marq de Villiers and Sheila Hirtle have captured the splendour and decay of one of humankind's treasures Founded in the early 1100s by Tuareg nomads who called their camp Tin Buktu it became within two centuries a wealthy metropolis and a nexus of the trans Saharan trade Salt from the deep Sahara gold from Ghana and money from slave markets made it rich In part because of its wealth Timbuktu also became a centre of Islamic learning and religion boasting impressive schools and libraries that attracted scholars from Alexandria Baghdad Mecca and Marrakech The arts flourished and Timbuktu gained near mythic stature around the world capturing the imagination of outsiders and ultimately attracting the attention of hostile sovereigns who sacked the city three times and plundered it half a dozen more The ancient city was invaded by a Moroccan army in 1600 beginning its long decline since then it has been seized by Tuareg nomads and a variety of jihadists in addition to enduring a terrible earthquake several epidemics and numerous famines Perhaps no other city in the world has been as golden and as deeply tarnished as Timbuktu Using sources dating deep into Timbuktu's fabled past alongside interviews with Tuareg nomads and city residents and officials today de Villiers and Hirtle have produced a spectacular portrait that brings the city back to life

Black Africans in the British Imagination Cassander L. Smith, 2016-12-14 As Spain and England vied for dominance of the Atlantic world during the sixteenth and seventeenth centuries mounting political and religious tensions between the two empires raised a troubling specter for contemporary British writers attempting to justify early English imperial efforts Specifically these writers focused on encounters with black Africans throughout the Atlantic world attempting to use these points of contact to articulate and defend England's global ambitions In *Black Africans in the British Imagination* Cassander L. Smith investigates how the physical presence of black Africans both enabled and disrupted English literary responses to Spanish imperialism By examining the extent to which this population helped to shape early English narratives from political pamphlets to travelogues Smith offers new perspectives on the literary social and political impact of black Africans in the early Atlantic world With detailed analysis of the earliest English language accounts from the Atlantic world including writings by Sir Francis Drake Sir Walter Raleigh and Richard Ligon Smith approaches contact narratives from the perspective of black Africans recovering figures often relegated to the margins This interdisciplinary study explores understandings of race and cross cultural interaction and revises notions of whiteness blackness and indigeneity Smith reveals the extent to which contact with black Africans impeded English efforts to stigmatize the Spanish empire as villainous and to malign Spain's administration of its colonies In addition her study illustrates how black presences influenced the narrative choices of European and later Euro American writers providing a more nuanced understanding of black Africans' role in contemporary literary productions of the region

Mandela as a powerful absent presence in 1960s public life and the challenges to the terms of contemporary debate around the student activism of rhodesmustfall and feesmustfall These show how issues of public discussion span both archive and media verbal debates in formal spaces and visual performances that circulate in unpredictable ways
