Something for Everyone? Simone Boogaarts-de Bruin, 2011 The urban population is becoming increasingly diverse and growing ethnic diversity is having a singular effect on nightlife in Dutch cities By studying the motivation behind and nightlife choices of the young people who participate in ethno party scenes Boogaarts de Bruin investigates how the changing urban population affects the supply side of the nightlife market using an analytical model she has developed and which she calls the model of structured choice This approach is sensitive to the flexible use of the processes of agency and structure due to the systematic distinction that it makes between societal and personal factors Accordingly it is revealed that in order to analyze and adequately explain the nightlife experiences of and choices made by ethnic youngsters an integrated model is required which centralizes the interaction between the structural strategies of the producers on the one hand and the personal preferences and agency of the consumers on the other What is more this book demonstrates that nightlife has changed because of the increasing ethnic diversity of the Dutch population Finally in the epilogue the fieldwork results are discussed in light of the currently heated debate regarding the integration processes of ethnic minority young people in nightlife *TikTok Cultures in the United States* Trevor Boffone, 2022-04-03 TikTok Cultures in the United States examines

the role of TikTok in US popular culture paying close attention to the app's growing body of subcultures. Featuring an array of scholars from varied disciplines and backgrounds, this book uses TikTok subcultures as a point of departure from which to explore TikTok's role in US popular culture today. Engaging with the extensive and growing scholarship on TikTok from international scholars, chapters in this book create frameworks and blueprints from which to analyze TikTok within a distinctly US context, examining topics such as gender and sexuality, feminism, race and ethnicity, and wellness. Shaping TikTok as an interdisciplinary field in and of itself, this insightful and timely volume will be of great interest to students and scholars of new and digital media, social media, popular culture, communication studies, sociology of media, dance, gender studies, and performance studies.

Global Youth? Pam Nilan, Carles Feixa, 2006-11-22. This innovative collection of studies by international youth researchers critically addresses questions of global youth, incorporating material from regions as diverse as Sydney, Tehran, Dakar, and Manila, and advancing our knowledge about young people around the globe. Exploring specific local youth cultures whilst mediating global mass media and consumption trends, this book traces subaltern youth landscapes and tells subaltern youth stories previously invisible in predominantly western youth cultural studies and theorizing. The chapters here serve as a refutation of the colonialist discourse of cultural globalization. Showcasing previously unpublished youth research from outside the English speaking world alongside the work of well-known researchers such as Huq and Holden, these accounts of youth cultural practices highlight much that is predictably different but also a great deal of common ground. This book goes inside creative cultural formation of youth identities to critically examine the global in the local. Bringing together an internationally diverse group of researchers who describe and analyze youth cultures throughout Europe, the Americas, Asia, Africa, and Oceania, this volume presents the first comprehensive review of global youth cultures, practices, and identities, and as such is a valuable read for students and researchers of youth studies, cultural studies, and sociology.

Next Wave Cultures Anita Harris, 2012-09-10. Whereas once young women's feminist activism could be easily identified, today this resistance seems obscure, transitory, and disorganized. In *Next Wave Cultures*, established and emerging scholars provide an interdisciplinary examination of young women's multilayered lives. This collection demonstrates that young women have new ways of taking on politics and culture that may not be recognizable under more traditional paradigms but deserve to be identified as socially engaged and potentially transformative. Nonetheless, exploring the ways in which girls' various cultural pursuits are tied to identity formation and relate to issues of class, sexuality, ethnicity, religion, ability, and gender, *Next Wave Cultures* highlights both the limitations and opportunities afforded by globalization of youth consumer culture. This valuable collection is a necessary read across disciplines, especially to those in the fields of education, gender, and cultural studies, sociology, and psychology.
