**Divided Sovereignties** Rochelle Raineri Zuck, 2016-08 In eighteenth and nineteenth century debates about the constructions of American nationhood and national citizenship the frequently invoked concept of divided sovereignty signified the division of power between state and federal authorities and or the possibility of one nation residing within the geopolitical boundaries of another Political and social realities of the nineteenth century such as immigration slavery westward expansion Indigenous treaties and financial panics amplified anxieties about threats to national state sovereignty Rochelle Raineri Zuck argues that in the decades between the ratification of the Constitution and the publication of Sutton Griggs's novel *Imperium in Imperio* in 1899 four populations were most often referred to as racial and ethnic nations within the nation the Cherokees African Americans Irish Americans and Chinese immigrants Writers and orators from these groups engaged the concept of divided sovereignty to assert alternative visions of sovereignty and collective allegiance not just ethnic or racial identity to gain political traction and to complicate existing formations of nationhood and citizenship Their stories intersected with issues that dominated nineteenth century public argument and contributed to the Civil War In five chapters focused on these groups Zuck reveals how constructions of sovereignty shed light on a host of concerns including regional and sectional tensions territorial expansion and jurisdiction economic uncertainty racial ethnic and religious differences international relations immigration and arguments about personhood citizenship and nationhood
