Duty beyond the Battlefield Le'Trice D. Donaldson,2020-02-07 In a bold departure from previous scholarship Le Trice D Donaldson locates the often overlooked era between the Civil War and the end of World War I as the beginning of black soldiers involvement in the long struggle for civil rights Donaldson traces the evolution of these soldiers as they used their military service to challenge white notions of an African American second class citizenry and forged a new identity as freedom fighters willing to demand the rights of full citizenship and manhood Through extensive research Donaldson not only illuminates this evolution but also interrogates the association between masculinity and citizenship and the ways in which performing manhood through military service influenced how these men struggled for racial uplift Following the Buffalo soldier units and two regular army infantry units from the frontier and the Mexican border to Mexico Cuba and the Philippines Donaldson investigates how these locations and the wars therein provide windows into how the soldiers struggles influenced black life and status within the United States Continuing to probe the idea of what it meant to be a military race man a man concerned with the uplift of the black race who followed the philosophy of progress Donaldson contrasts the histories of officers Henry Flipper and Charles Young two soldiers who saw their roles and responsibilities as black military officers very differently Duty beyond the Battlefield demonstrates that from the 1870s to 1920s military race men laid the foundation for the New Negro movement and the rise of Black Nationalism that influenced the future leaders of the twentieth century Civil Rights movement

The Color of America Has Changed Mark Brilliant,2010-11-04 From the moment that the attack on the problem of the color line as W E B DuBois famously characterized the problem of the twentieth century began to gather momentum nationally during World War II California demonstrated that the problem was one of color lines In The Color of America Has Changed Mark Brilliant examines California s history to illustrate how the civil rights era was a truly nationwide and multiracial phenomenon one that was shaped and complicated by the presence of not only blacks and whites but also Mexican Americans Japanese Americans and Chinese Americans among others Focusing on a wide range of legal and legislative initiatives pursued by a diverse group of reformers Brilliant analyzes the cases that dismantled the state s multiracial system of legalized segregation in the 1940s and subsequent battles over fair employment practices old age pensions for long term resident non citizens fair housing agricultural labor school desegregation and bilingual education He concludes with the conundrum created by the multiracial affirmative action program at issue in the United States Supreme Court s 1978 Regents of the University of California v Bakke decision The Golden State s status as a civil rights vanguard for the nation owes in part to the numerous civil rights precedents set there and to the disparate challenges of civil rights reform in multiracial places While civil rights historians have long set their sights on the South and recently have turned their

attention to the North advancing a long civil rights movement interpretation Mark Brilliant calls for a new understanding of civil rights history that more fully reflects the racial diversity of America *Race Relations in World Perspective* Andrew W. Consent Stephen M. Underhill, 2020-02-01 The second Red Scare was a charade orchestrated by a tyrant with the express goal of undermining the New Deal so argues Stephen M Underhill in this hard hitting analysis of J Edgar Hoover s rhetorical agency Drawing on Classification 94 a vast trove of recently declassified records that documents the longtime FBI director s domestic propaganda campaigns in the mid twentieth century Underhill shows that Hoover used the growing power of his office to subvert the presidencies of Franklin D Roosevelt and Harry S Truman and redirect the trajectory of U S culture away from social democracy toward a toxic brand of neoliberalism He did so with help from Republicans who opposed organized labor and Southern Democrats who supported Jim Crow in what is arguably the most culturally significant documented political conspiracy in U S history a wholesale domestic propaganda program that brainwashed Americans and remade their politics Hoover also forged ties with the powerful fascist leaders of the period to promote his own political ambitions All the while as a love letter to Clyde Tolson still preserved in Hoover s papers attests he strove to pass for straight while promoting a culture that demonized same sex love The erosion of democratic traditions Hoover fostered continues to haunt Americans today **Economies of Network Industries** Hans Werner Gottinger, 2003-03-20 This revealing book

Chapters cover his early involvement with gangs in New York, his emergence as a favorite among the Hollywood elite in the late 1930s, his lucrative exploits in illegal gambling and horse racing, and his opening of the fabulous Flamingo in 1946. The author also draws upon the recollections of Siegel's eldest daughter to reveal a side of the mobster never before studied: the nature of his family life.

Manliness & Civilization Gail Bederman, 2024-05-31

When former heavyweight champion Jim Jeffries came out of retirement on the fourth of July 1910 to fight current black heavyweight champion Jack Johnson in Reno, Nevada, he boasted that he was doing it for the sole purpose of proving that a white man is better than a negro. Jeffries, though, was trounced. Whites everywhere rioted. The furor Gail Bederman demonstrates was part of two fundamental and volatile national obsessions: manhood and racial dominance. In turn of the century America, cultural ideals of manhood changed profoundly as Victorian notions of self-restrained moral manliness were challenged by ideals of an aggressive, overtly sexualized masculinity. Bederman traces this shift in values and shows how it brought together two seemingly contradictory ideals: the unfettered virility of racially primitive men and the refined superiority of civilized white men. Focusing on the lives and works of four very different Americans—Theodore Roosevelt, educator G. Stanley Hall, Ida B. Wells, and Charlotte Perkins Gilman—she illuminates the ideological, cultural, and social interests these ideals came to serve.
