Race Politics In Britain And France:

Race Politics in Britain and France Erik Bleich, 2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel

Shaping Race Policy Robert Lieberman, 2011-06-27 *Shaping Race Policy* investigates one of the most serious policy challenges facing the United States today the stubborn persistence of racial inequality in the post civil rights era Unlike other books on the topic it is comparative examining American developments alongside parallel histories of race policy in Great Britain and France Focusing on two key policy areas welfare and employment the book asks why America has had such uneven success at incorporating African Americans and other minorities into the full benefits of citizenship Robert Lieberman explores the historical roots of racial incorporation in these policy areas over the course of the twentieth century and explains both the relative success of antidiscrimination policy and the failure of the American welfare state to address racial inequality He chronicles the rise and resilience of affirmative action including commentary on the recent University of Michigan affirmative action cases decided by the Supreme Court He also shows how nominally color blind policies can have racially biased effects and challenges the common wisdom that color blind policies are morally and politically superior and that race conscious policies are merely second best *Shaping Race Policy* has two innovative features that distinguish it from other works in the area First it is comparative examining American developments alongside parallel histories of race policy in Great Britain and France Second its argument merges ideas and institutions which are usually considered separate and competing factors into a comprehensive and integrated explanatory approach The book highlights the importance of two factors America s distinctive political institutions and the characteristic American tension between race consciousness and color blindness in accounting for the curious pattern of success and failure in American race policy

The Politics of Immigration in Multi-Level States E. Hepburn, R. Zapata-Barrero, 2014-07-08 This book develops an exploratory theory of immigration in multilevel states addressing two themes governance and political parties It examines not only how and by whom immigration policy is decided and implemented at different levels but also how it has become a key issue of party competition across multilevel states

Empire Films and the Crisis of Colonialism, 1946-1959 Jon Cowans, 2015-05-15 The first transnational history of cinema s role in decolonization Using popular cinema from the United States Britain and France *Empire Films and the Crisis of Colonialism 1946 1959* examines postwar Western attitudes toward colonialism and race relations Historians have written much about the high politics of decolonization but little about what ordinary citizens

thought about losing their empires Popular cinema provided the main source of images of the colonies and according to Jon Cowans in this far reaching book films depicting the excesses of empire helped Westerners come to terms with decolonization and even promoted the dismantling of colonialism around the globe Examining more than one hundred British French and American films from the post World War II era Cowans concentrates on movies that depict interactions between white colonizers and nonwhite colonial subjects including sexual and romantic relations Although certain conservative films eagerly supported colonialism Cowans argues that the more numerous liberal colonialist productions undermined support for key aspects of colonial rule while a few more provocative films openly favored anticolonial movements and urged internal decolonization for people of color in Britain France and the United States Combining new archival research on the films production with sharp analysis of their imagery and political messages the book also assesses their reception through box office figures and newspaper reviews It examines both high profile and lesser known films on overseas colonialism including *The King and I* *Bhowani Junction* and *Island in the Sun* and tackles treatments of miscegenation and internal colonialism that appeared in Westerns and American films like *Pinky* and *Giant* The first truly transnational history of cinema's role in decolonization this powerful book weaves a unified historical narrative out of the experiences of three colonial powers in diverse geographic settings

French Politics and Society Alistair Cole, 2017-04-21 *French Politics and Society* is the ideal companion for all students of France and French politics with a strong reputation for its lucidity and lively exposition of the French polity This third edition remains a highly readable text and offers a broad critical and comprehensive understanding of French politics The book provides an excellent description of French institutions and ensures readers access to background information through discussing historical developments political forces public policy and the evolution of important aspects of French society Key updates for the third edition include extensive updates including the Chirac Sarkozy and Hollande presidencies inclusion of constitutional and state reform coverage since 2008 the French party system and evolution of the French left and right more on France's positioning with regards to Brussels and the impact of the European economic crisis *French Politics and Society* is essential reading for all undergraduates studying French politics French studies European studies or comparative politics

Identity Politics in the Public Realm Avigail Eisenberg, Will Kymlicka, 2011-10-11 In an age of multiculturalism and identity politics many minority groups seek some form of official recognition or public accommodation of their identity But can public institutions accurately recognize or accommodate something as subjective and dynamic as identity Are there coherent standards and fair procedures for responding to identity claims In this book Avigail Eisenberg and Will Kymlicka lead a distinguished team of scholars who explore state responses to identity claims worldwide Their case studies focus on key issues where identity is central to public policy such as the construction of census categories interpretation of antidiscrimination norms and assessment of indigenous rights By illuminating both the risks and opportunities of institutional responses to diversity this volume shows that public institutions

can either enhance or distort the benefits of identity politics Much depends on the agency of citizens and the ability of institutions to adapt to success and failure *Homonationalism, Femonationalism and Ablenationalism* Angeliki Sifaki,C.L. Quinan,Katarina Lončarević,2022-04-28 This edited volume engages with a range of geographical political and cultural contexts to intervene in ongoing scholarly discussions on the intersection of nationalism with gender sexuality and race The book maps and analyses the racially and sexually normativising power of homonationalist femonationalist and ablenationalist dynamics and structures three strands of research that have thus far remained separate Scholars and practitioners from different geopolitical and academic contexts highlight research on the complexities of women s LGBTQ communities and disabled individuals engagements with and subsumption within nationalist projects *Homonationalism Femonationalism and Ablenationalism Critical Pedagogies* Contextualised offers added value for those researching and teaching on topics related to gender sexuality disability post coloniality and nationalism and includes new pedagogical strategies for addressing such timely global phenomena This dynamic interdisciplinary volume is ideal for those teaching gender studies and for students and scholars in gender studies international relations and sexuality studies *Civic Hopes and Political Realities* S. Karthick Ramakrishnan,Irene Bloemraad,2008-07-10 For many Americans participation in community organizations lays the groundwork for future political engagement But how does this traditional model of civic life relate to the experiences of today s immigrants Do community organizations help immigrants gain political influence in their neighborhoods and cities In *Civic Hopes and Political Realities* experts from a wide range of disciplines explore the way civic groups across the country and around the world are shaping immigrants quest for political effectiveness *Civic Hopes and Political Realities* shows that while immigrant organizations play an important role in the lives of members their impact is often compromised by political marginalization and a severe lack of resources S Karthick Ramakrishnan and Irene Bloemraad examine community organizations in six cities in California and find that even in areas with high rates of immigrant organizing policymakers remain unaware of local ethnic organizations Looking at new immigrant destinations Kristi Andersen finds that community organizations often serve as the primary vehicle for political incorporation a role once played by the major political parties Floris Vermeulen and Maria Berger show how policies in two European cities lead to very different outcomes for ethnic organizations Amsterdam s more welcoming multicultural policies help immigrant community groups attain a level of political clout that similar organizations in Berlin lack Janelle Wong Kathy Rim and Haven Perez report on a study of Latino and Asian American evangelical churches While the church shapes members political views on issues such as abortion and same sex marriage church members may also question the evangelical movement s position on such issues as civil rights and immigration Els de Graauw finds that many non profit organizations without explicitly political agendas nonetheless play a crucial role in advancing the political interests of their immigrant members Recent cuts in funding for such organizations she argues block not only the provision of key social services but also an important avenue for political voice Looking at

community organizing in a suburban community Sofya Aptekar finds that even when immigrant organizations have considerable resources and highly educated members they tend to be excluded from town politics Some observers worry that America s increasing diversity is detrimental to civic life and political engagement Civic Hopes and Political Realities boldly advances an alternative understanding of the ways in which immigrants are enriching America s civic and political realms even in the face of often challenging circumstances

Muslim Identity Politics Khadijah Elshayyal,2018-02-28 The surge in divisive and far right politics and growing Islamophobia in Britain pose new challenges for Muslim advocacy organisations British Muslim activism has taken centre stage in the public sphere as a result Yet for over fifty years Muslim advocacy groups have worked to preserve religious identity lobby the state and provide concerted responses to the political establishment This is the first book to chart critically the national and global factors influencing the political mobilisation of British Muslim activists as Muslims Khadijah Elshayyal traces the changes of thought direction and method within Muslim identity politics after 1960 noting key organisations and turning points such as the Rushdie Affair the 9 11 attacks the 7 7 bombings and the current conflict in Syria The book argues that the Rushdie Affair prompted new debate around the subject of freedom of expression which has continued to be a point of contention ever since Providing a history of the interaction between Muslim advocacy groups and the state and the impact of state policy on Muslim communities Muslims Identity Politics shows that that Muslim citizens continue to experience an equality gap and recommends where transformation and progress can be made Based on primary sources and in depth interviews this book is a vital resource for government officials policy makers and researchers interested in multiculturalism Islamophobia and security issues in Britain

Encyclopedia of Modern Ethnic Conflicts Joseph R. Rudolph Jr.,2015-12-07 An indispensable reference that will help students understand the major ethnic conflicts that dominate the headlines and shape the modern world Since World War II significant conflicts have most often taken the form of acts of violence between ethnic or national communities inside individual states This two volume work uses case studies to explore some four dozen of those conflicts making it an ideal first stop reference for students and others who wish to quickly gain an understanding of ethnic struggles Content from the first edition is updated and new entries on recent conflicts have been added The set s geographical range which encompasses nearly every continent is matched by the diversity of the conflicts explored These include internal conflicts such as those experienced by African Americans in the United States and Muslims in France as well as separatist movements of groups like the Chechens in Russia and Bosnians in Yugoslavia Headline making conflicts for example those in Mali and Syria are covered as well The book is organized alphabetically by country and region Each essay begins with a timeline and then explores the historical background evolution efforts to manage and significance of the conflict Suggestions for follow up research and appendices of relevant primary source materials are also included
