A NEW PLAY BY DAVID MARE

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, gather relevant information and data. This may involve research, consultation with experts, or collecting data from various sources.

3. Once the information is gathered, it is important to analyze it carefully. This involves identifying patterns, trends, and key factors that influence the outcome.

4. After analysis, a plan or strategy should be developed. This plan should outline the steps that need to be taken to address the problem or answer the question.

5. The next step is to implement the plan. This involves carrying out the actions outlined in the plan and monitoring progress along the way.

6. Finally, the results should be evaluated. This involves comparing the actual outcomes with the expected results and identifying any areas for improvement.
