Racism On Trial

Randy Moore, Susan E. Brooks

Racism On Trial:

Racism on Trial Ian F. Haney López, 2004-09-01 Haney López tells the compelling story of the Chicano movement in Los Angeles by following two criminal trials including one arising from the student walkouts of 1968. He demonstrates how racial prejudice led to police brutality and judicial discrimination that in turn spurred Chicano militancy. **Anti-Muslim Racism on Trial** Marta Kolankiewicz, 2019-04-23 This book constitutes a critical engagement with debates on the possibilities and limits of fighting racism with the help of criminal law. With in-depth analyses of cases of anti-Muslim violence in Sweden, a mosque fire, hate speech, and of a series of assaults, *Anti-Muslim Racism on Trial* sheds light on issues central for understanding the ways in which racism is approached in court. It also illustrates the different forms that Islamophobia can take. Departing from a definition of law as a knowledge regime that embodies the power to decide on the meaning of the acts on trial and to establish a valid version of these events, the author explores the possibility of justice and recognition in court. From within a post-Holocaust and post-colonial context, this book recounts the complex and ambiguous history of laws against racism, examining the ways in which racist practices change in a society where certain manifestations of racism have come to be treated as crimes. As such, it will appeal to scholars of sociology and criminology with interests in Islamophobia, race, and ethnicity, and violence. **Universal Citizenship** R. Andrés Guzmán, 2019-01-15 Recently, many critics have questioned the idea of universal citizenship by pointing to the racial class and gendered exclusions on which the notion of universality rests. Rather than jettison the idea of universal citizenship, however, R. Andrés Guzmán builds on these critiques to reaffirm it, especially within the fields of Latino and ethnic studies. Beyond conceptualizing citizenship as an outcome of recognition and admittance by the nation-state in a negotiation for the right to have rights, he asserts that insofar as universal citizenship entails a forceful entrance into the political from the latter's foundational exclusions, it emerges at the limits of legality and illegality via a process that exceeds identitarian capture. Drawing on Lacanian psychoanalysis and philosopher Alain Badiou's notion of generic politics, Guzmán advances his argument through close analyses of various literary, cultural, and legal texts that foreground contention over the limits of political belonging. These include the French Revolution, responses to Arizona's H.B. 2281, the 2006 immigrant rights protests in the United States, the writings of Oscar Zeta Acosta, Frantz Fanon's account of Algeria's anticolonial struggle, and more. In each case, Guzmán traces the advent of the citizen as a collective subject made up of anyone who seeks to radically transform the organizational coordinates of the place in which she or he lives. The Right to a Fair Trial Thom Brooks, 2017-07-05 The right to a fair trial is often held as a central constitutional protection. It nevertheless remains unclear what precisely should count as a fair trial and who should decide verdicts. This already difficult issue has become even more important given a number of proposed reforms of the trial, especially for defendants charged with terrorism offences. This collection, *The Right to a Fair Trial*, is the first to publish in one place the most influential work in the field on the following topics, including the right to jury trial, lay participation in trials, jury nullification, trial reform, the civil

jury trial and the more recent issue of terrorism trials The collection should help inform both scholars and students of both the importance and complexity of the right to a fair trial as well as shed light on how the trial might be further improved

Christianity on Trial Mark L. Chapman, 2006-02-02 Since slavery times African American religious thinkers have struggled to answer this question Is Christianity a source of liberation or a source of oppression In a study that reviews representative thinkers over the last fifty years Mark Chapman reviews the variety of ways that African Americans have addressed this problem and how it has informed their work and lives Beginning with Benjamin Mays the leading Negro theologian of the post World War II period Chapman explores the critical implications of this question right up to the present day The pivotal turning point in this period is the emergence of the Black Power movement in the 1960s Sparked in part by the challenge of the Black Muslims for whom Christianity was simply the white man's religion inherently racist and oppressive the era of Black Power saw the rise of militant Black theologies as well After analyzing the work of the Muslim Elijah Muhammad Chapman turns to the pioneering work of Black theologians Albert Cleage and James H Cone Chapman demonstrates the differences but also uncovers surprising lines of continuity between the older Negro theologians and the later Black theologians particularly in their efforts to uncover the truly liberative potential of Christianity Christianity on Trial concludes by exploring the recent emergence of womanist theology As articulated by Delores S Williams and other African American women womanist theology challenges not only the patriarchal aspects of historical Christianity but the same limitations in previous Black theologies

Christianity on Trial Vincent Carroll, 2010-06 Vincent Carroll and David Shiflett do not shrink from confronting the tragedies that have been perpetrated in the name of Christianity But they contend that the current fashionable emphasis on the dark side of the Christian record is an instance of willful historical illiteracy In Christianity on Trial Carroll and Shiflett dispassionately and systematically dissect the charges against Christianity specifically that it has justified racism and misogyny encouraged ignorance and promoted the despoliation of the environment and even genocide Then in a narrative whose intellectual elegance and verve calls up comparisons to How the Irish Saved Civilization they show how in fact the Christian tradition has not only injected morality into our political order but softened brutal practices and confining superstitions created the foundation for intellectual inquiry and cultivated the charitable impulse Christianity on Trial challenges readers of all beliefs even those with a belief in disbelief itself to question the anti religious bigotry that thrives in our intellectual world and to reevaluate the role of Christianity not only as a source of consolation but of enlightenment and human liberation as well
