Coleman, 2020-05-15 The Necropolitical Theater Race and Immigration on the Contemporary Spanish Stage demonstrates how theatrical production in Spain since the early 1990s has reflected national anxieties about immigration and race Jeffrey K Coleman argues that Spain has developed a necropolitical theater that casts the non European immigrant as fictionalized enemy one whose nonwhiteness is incompatible with Spanish national identity and therefore poses a threat to the very Europeaness of Spain The fate of the immigrant in the necropolitical theater is death either physical or metaphysical which preserves the status quo and provides catharsis for the spectator faced with the notion of racial diversity Marginalization forced assimilation and physical death are outcomes suffered by Latin American North African and sub Saharan African characters respectively and in these differential outcomes determined by skin color Coleman identifies an inherent racial hierarchy informed by the legacies of colonization and religious intolerance Drawing on theatrical texts performances legal documents interviews and critical reviews this book challenges Spanish theater to develop a new theatrical space Jeffrey K Coleman proposes a convivial theater that portrays immigrants as contributors to the Spanish state and better represents the multicultural reality of the nation today

*Reading Donald Trump* Jeremy Kowalski, 2018-08-29 This book provides a scholarly assessment and analysis of the Trump campaign and early presidency This assessment and analysis is important not only to help provide some coherence to the turbulent and unpredictable character of Trumpism but to contribute to establishing a scholarly foundation for future works that will provide assessments of the Trump presidency in its mid and later stages Given the divisive and destructive capacity of Trumpism and its political and social implications both domestically and internationally understanding the distinctive political phenomenon of Trumpism is necessary if resistance to this transformative moment in American political history is to be successful This book collects a series of short scholarly contributions on various themes related to Trumpism by scholars from disciplines in both the Humanities and Social Sciences Origin Narratives Macarena Garcia-Gonzalez, 2017-05-18 The first of its kind this volume unpacks the cultural construction of transnational adoption and migration by examining a sample of recent children s books that address the subject Of all European countries Spain is the nation where immigration and transnational adoption have increased most steeply from the early 1990s onward *Origin Narratives The Stories We Tell Children About Immigration and International Adoption* sheds light on the way contemporary Spanish society and its institutions re define national identity and the framework of cultural political and ethnic values by looking at how these ideas are being transmitted to younger generations negotiating a more heterogeneous environment This study collates representations of diversity migration and colonial otherness in the texts as well as their reception by the adult mediators

through reviews paratexts and opinions collected from interviews and participant observation In this new work author Macarena Garcia Gonzalez argues that many of the texts at the wider societal discourse of multiculturalism which have been warped into a pedagogical synthesis underwrite the very racism they seek to combat Comparing transnational adoption with discourses about immigration works as a new approach to the question of multiculturalism and makes a valuable contribution to an array of disciplines Racialization and Language Michele Back, Virginia Zavala, 2018-09-03 Drawing on frameworks from applied linguistics and critical discourse analysis this volume employs a linguistics approach to understanding race and racism in Latin America with a particular focus on Peru Building on recent debates in Peru on cultural and biological definitions of race the book seeks to re examine the relationship between race and culture not as a dichotomy but as one rooted in and shaped by specific historical moments Similarly the volume uses this discussion as a jumping off point from which to explore notions of identity informed by language as used in local context rather than as a fixed social category Offering new perspectives on discursive practices of race and racism in Peru and Latin America this collection is key reading for students and researchers in sociolinguistics applied linguistics anthropology and Latin American studies

Interdisciplinary Studies in Pragmatics, Culture and Society Alessandro Capone, Jacob L. Mey, 2015-07-31 This volume is part of the series Pragmatics Philosophy and Psychology edited for Springer by Alessandro Capone It is intended for an audience of undergraduate and graduate students as well as postgraduate and advanced researchers This volume focuses on societal pragmatics One of the main concerns of societal pragmatics is the world of language users We are interested in the investigation of linguistic practices in the context of societal practices praxis to use a term used in the Wittgensteinian and other traditions It is clear that the world of users including their practices their culture and their social aims has to be taken into account and seriously investigated when we deal with the pragmatics of language It is not enough to discuss principles of language use solely in the guise of abstract theoretical tools Consequently the present volume focuses explicitly on the interplay of abstract theoretical principles and the necessities imposed by societal contexts often requiring a more flexible use of such theoretical tools The volume includes articles on pragmemes politeness and anti politeness dialogue joint utterances discourse markers pragmatics and the law institutional discourse critical discourse analysis pragmatics and culture cultural scripts argumentation theory connectives and argumentation language games and psychotherapy slurs the analysis of funerary rites as well as an authoritative chapter by Jacob L Mey on societal pragmatics Tatarstan's Autonomy within Putin's Russia Deniz Dinç, 2021-12-13 This book explores how the Volga Tatars the largest ethnic minority within the Russian Federation a Muslim minority achieved a great deal of autonomy for Tatarstan in the years 1988 to 1992 but then lost this autonomy gradually over the course of the Putin era It sets the issue in context tracing the history of the Volga Tatars the descendants of the Golden Horde whose Khans exercised overlordship over Muscovy in medieval times and outlining Tsarist and Soviet nationalities policies and their enduring effects It argues that a key factor driving the decline of

greater autonomy besides Putin's policies of harmonisation and centralisation was the behaviour of the minority elites who were despite their earlier engagement in ethnic mobilization very acquiescent to the new Putin regime deciding that co operation would maximise their privileges
