Rd Laing A Personal View:

R.D. Laing Bob Mullan, 1999 This biography pieces together elements of Laing's life re-evaluating this remarkable man's thought. In particular it addresses his ambivalence towards Freud, his unreconstructed Marxism, his love of Buddha but his reconstructed Buddhism, his adoration of Nietzsche and Sartre, the only two contemporaries he believed superior to himself, and the ideas he developed through his own experience of working with himself and his patients. His behaviour could range from peacefulness and enlightenment to violence. But he could always be trusted to be none but himself: tender, compassionate, cruel, vindictive, sober or drunk, muddled-headed and or profoundly perceptive and original, tearful and morose, joyous and contented.

Cézanne's Gravity Carol Armstrong, 2018-11-13 A transformative study freeing the artist from outdated art historical narratives and revealing his work as newly strange again. Cézanne's Gravity is an ambitious reassessment of the paintings of Paul Cézanne 1839-1906. Whereas previous studies have often looked at the artist's work for its influence on his successors and on the development of abstraction, Carol Armstrong untethers it from this timeline, examining Cézanne's painting as a phenomenological and intellectual endeavor. Armstrong uses an interdisciplinary approach to analyze Cézanne's work, pairing the painter with artists and thinkers who came after him, including Roger Fry, Virginia Woolf, Albert Einstein, Maurice Merleau-Ponty, Rainer Maria Rilke, R.D. Laing, and Helen Frankenthaler. Through these pairings, Armstrong addresses diverse subjects that illuminate Cézanne's painting from the nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind. Cézanne's Gravity attends to both the physicality of the artist's works and the weight they bear on the history of art. This distinctive study not only invites its readers to view Cézanne's paintings with fresh eyes but also offers a new methodology for art historical inquiry outside linear narratives, one truly fitting for our time.

Antipsychiatry Thomas Szasz, 2009-09-08 More than fifty years ago, Thomas Szasz showed that the concept of mental illness, a disease of the mind, is an oxymoron, a metaphor, a myth. Disease in the medical sense affects only the body. He also demonstrated that civil commitment and the insanity defense, the paradigmatic practices of psychiatry, are incompatible with the political values of personal responsibility and individual liberty. The psychiatric establishment's rejection of Szasz's critique posed no danger to his work; its defense of coercions and excuses as therapy supported his argument regarding the metaphorical nature of mental illness and the transparent immorality of brutal psychiatric control masquerading as humane medical care. In the late 1960s, the launching of the so-called antipsychiatry movement vitiated Szasz's effort to present a precisely formulated conceptual and political critique of the medical identity of psychiatry. Led by the Scottish psychiatrist R.D. Laing, the antipsychiatrists used the term to attract attention to themselves and to deflect attention from what they did, which included coercions and excuses based on psychiatric principles and power. For this reason, Szasz rejected and continues to reject psychiatry and antipsychiatry with equal vigor. Subsuming his work under the rubric of antipsychiatry betrays and negates it just as surely and effectively as

subsuming it under the rubric of psychiatry In Antipsychiatry Quackery Squared Szasz powerfully argues that his writings belong to neither psychiatry nor antipsychiatry They stem from conceptual analysis social political criticism and common sense 1965 Christopher Bray,2014-04-24 There is Britain before 1965 and Britain after 1965 and they are not the same thing 1965 was the year Britain democratised education it was the year pop culture began to be taken as seriously as high art the time when comedians and television shows imported the methods of modernism into their work It was when communications across the Atlantic became instantaneous the year when for the first time in a century British artists took American gallery goers by storm In 1965 the Beatles proved that rock and roll could be art it was when we went car crazy and craziness was held to be the only sane reaction to an insane society It was the year feminism went mainstream the year did she but know it that the Thatcher revolution began the year taboos were talked up and trashed It was when racial discrimination was outlawed and the death penalty abolished it marked the appointment of Roy Jenkins as Home Secretary who became chief architect in legislating homosexuality divorce abortion and censorship It was the moment that our culture reeling from what are still the most shocking killings of the century realised it was a less innocent less spiritual place than it had been kidding itself It was the year of consumerist relativism that gave us the country we live in today and the year the idea of a home full of cultural artefacts books records magazines was born It was the year when everything changed and the year that everyone knew it **Existential Therapies** Mick Cooper,2016-10-18 What does it mean to practice therapy in an existential way What are the different existential approaches What are their strengths and limitations Focusing on practical face to face work with clients the book introduces students to six existential therapies highlighting areas of commonality and difference and discusses key figures and their contributions including Yalom van Deurzen Spinelli Frankl and Laing It outlines the critical perspectives and key debates and presents implications for practice reflection and further reading Fully updated to reflect current issues this book now includes Sections presenting research evidence for each approach An extended case study running through the book demonstrating how different therapies might approach the same case Chapter overviews questions for reflection and additional case studies of actual existential practice **Desperate Housewives, Neuroses and the Domestic Environment, 1945-1970** Ali Haggett,2015-10-06 Although the figure of the desperate housewife is familiar to us Haggett suggests that many women in the 1950s and 60s led satisfying lives and that gender roles while very different were often seen as equal The Sublime Object of Psychiatry Angela Woods,2011-08-25 Schizophrenia has been one of psychiatry s most contested diagnostic categories The Sublime object of Psychiatry studies representations of schizophrenia across a wide range of disciplines and discourses biological and phenomenological psychiatry psychoanalysis critical psychology antipsychiatry and postmodern philosophy *The Uses of Slime Mould* Nicholas Mosley,2004 Including pieces on Gregory Bateson William Faulkner Philip Pullman Sir Oswald Mosley s politics religion and stammering this diverse collection gathers essays written by Nicholas Mosley over the past forty years Resembling the
