Cleary,2018-07-02 Latin America in the twenty first century is no longer the way we have always imagined it and nowhere are the region s vast changes more evident than in the field of religion Ed Cleary brings his readers into the churches and communities of Latin America to introduce them to the Catholic Charismatic Movement the biggest and most important religious shift taking place in the region in recent decades Kenneth P Serbin University of San Diego Much has been made of the dramatic rise of

Protestantism in Latin America Many view this as a sign that Catholicism's primacy in the region is at last beginning to wane Overlooked by journalists and scholars has been the parallel growth of Charismatic or Pentecostal Catholicism in the region Edward Cleary offers the first comprehensive treatment of this movement revealing its importance to the Catholic Church as well as the people of Latin America Catholic Charismatics have grown worldwide to several hundred million among whom Latin Americans number approximately 73 million participants These individuals are helping the church become more extroverted by drawing many into evangelizing and mission work The movement has rapidly acquired an indigenous Latin American character and is now returning to the United States through migration and is affecting Catholicism in the United States Cleary has witnessed firsthand the birth and maturing of the Catholic Charismatic Renewal in Latin America as both a social scientist and a Dominican missionary Drawing upon important findings of Latin American scholars and researchers he explores and analyzes the origins of the most important Catholic movement in Latin America and its notable expansion to all countries of the region bringing with it unusual vitality and notable controversy about its practices Edward L. Cleary professor of political science and director of the Latin American studies program at Providence College and visiting scholar at Stanford University has authored or edited eleven books most recently *Conversion of a Continent Religious Change in Latin America* The Real Mound Builders of North America A. Martin Byers, 2024-01-08 The Real Mound Builders of North America takes the standard position that the cultural communities of the Late Woodland period hiatus when little or no transregional monumental mound building and ceremonialism existed were the linear cultural and social ancestors of the communities responsible for the monumental earthworks of the unique Mississippian ceremonial assemblage and further these Late Woodland communities were the direct linear cultural and social descendants of those communities responsible for the great Hopewellian earthwork mounds and embankments and its associated unique ceremonial assemblage Byers argues that these communities persisted largely unchanged in terms of their essential social structures and cultural traditions while varying only in terms of their ceremonial practices and their associated sodality organizations that manifested these deep structures This continuist historical trajectory view stands in contrast to the current dominant evolutionary view that emphasizes abrupt social and cultural discontinuities with the Hopewellian ceremonial assemblage and earthworks mounds and embankments *Religion in America* Robert Baird, 1844 Public Papers of the Presidents of the United States: George W. Bush, **Public Papers of the Presidents of the United States** United States.
