Irving Horowitz,2018-02-06 Intellectual activity in the twentieth century took place largely under the banner of science and society As the new millennium develops it is becoming evident that science and society are not words that represent an unmitigated good nor for that matter do they exhaust what is new in the human condition Past writing on the theme of culture has emphasized the growth and expansion of human capabilities Recent use of the term civilization has placed great emphasis on the fall from grace of human beings The use of both terms is rapidly changing Culture and Civilization develops critical ideas intended to produce a positive intellectual climate one that is prepared to confront threats and alert us to the opportunities of the twenty first century It recognizes that the twenty first century presents people in all fields and of all faiths with shared challenges Culture and Civilization embraces the work of novelists journalists cultural figures

technologists physical sciences historians and policy personnel who range beyond social science areas What they have in common is a view that civilization is under assault and that it represents a cause worth advancing and defending This publication does not embrace idiosyncratic visions of the clash of world civilizations or the end of Western civilization It does attempt to bring together immediate issues of the century that are substantially new and challenging We see that the essential polarity between democracy and autocracy has now taken on larger deeper dimensions in a different political economic and ecological terrain the central issue of our day is now civilization versus barbarism The character of democratic culture is central to the global equation and the systemic challenge This publication is a sober response to such a challenge

Philadelphia John Lukacs, 2017-07-05 An unorthodox historian known and respected for his work on the grand conflicts of nations and civilizations John Lukacs has peopled a smaller canvas in this volume with seven colourful figures who flourished in Philadelphia before 1950 Their stories are framed by chapters that describe the city in 1900 and in 1950 The Philadelphians selected are a political boss Boies Penrose a magazine mogul Edward Bok an elegant writer Agnes Repplier an impetuous diplomat William C Bullitt a lawyer George Wharton Pepper a prophet of decline Owen Wister and a great art collector Albert C Barnes The political boss was perhaps the most monumental political figure of his age The magazine mogul was the most famous embodiment of the American success story during his lifetime The now almost forgotten writer was the Jane Austen of the essay The diplomat was the most brilliant of ambassadors The terrible tempered collector was a radical proponent of his unusual theory of art Through these seven portraits Lukacs paints a picture of Philadelphia that is like all living things having the power to change out of recognition and yet remain the same This work is a must read for all

historians and Philadelphians **Encyclopedia of Contemporary French Culture** Alexandra Hughes, Alex Hughes, Keith A Reader, Keith Reader, 2002-03-11 More than 700 alphabetically organized entries by an international team of contributors provide a fascinating survey of French culture post 1945 Entries include advertising Beur cinema Coco Chanel decolonization critique feminine football francophone press gay activism Seuil youth culture Entries range from short factual biographical pieces to longer overview articles All are extensively cross referenced and longer entries are facts fronted so important information is clear at a glance It includes a thematic contents list extensive index and suggestions for further reading The Encyclopedia will provide hours of enjoyable browsing for all francophiles and essential cultural context for students of French Modern History Comparative European Studies and Cultural Studies

The Biopic in Contemporary Film Culture Tom Brown, Belén Vidal, 2013-12-17 The biographical film or biopic is a staple of film production in all major film industries and yet within film studies its generic aesthetic and cultural significance has remained underexplored The Biopic in Contemporary Film Culture fills this gap conceptualizing the biopic with a particular eye toward the life of the genre internationally New theoretical approaches combine with specially commissioned chapters on contemporary biographical film production in India Italy South Korea France Russia Great Britain and the US in order to present a selective but well

rounded portrait of the biopic's place in film culture From Marie Antoinette to The Social Network the pieces in this volume critically examine the place of the biopic within ongoing debates about how cinema can and should represent history and real lives Contributors discuss the biopic's grounding in the conventions of the historical film and explore the genre's defining traits as well as its potential for innovation The Biopic in Contemporary Film Culture expands the critical boundaries of this evolving versatile genre
