Southeast Asia Peter A. Poole, 2014-11-18. The Asian financial crisis of 1997-1998 caused severe hardship in Southeast Asia, and many countries tightened their regulation of banks and other financial institutions, adopted more conservative fiscal policies, and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors. This book analyzes the major political and economic reforms that resulted from the Asian financial crisis, looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession. In each of the ten country chapters, the historical background, social and political system, economic development, and foreign relations of each country are analyzed and compared with those of neighboring countries. The concluding chapter looks ahead at the prospects for Southeast Asia in a more integrated Asian region. Imagined Ancestries of Vietnamese Communism illuminates the real and imagined lives of Ton Duc Thang (1888-1980), a celebrated revolutionary activist and Vietnamese communist icon, but it is much more than a conventional biography. This multifaceted study constitutes the first detailed re-evaluation of the official history of the Vietnamese Communist Party and is a critical analysis of the inner workings of Vietnamese historiography never before undertaken in its scope. In prominence and public visibility second only to Ho Chi Minh, whom he succeeded in the presidency, Ton Duc Thang in fact lacked any real power. Author Christoph Giebel reconciles this seeming contradiction by showing that it was only Ton Duc Thang who could personify for the Party crucial legitimizing ancestries: those that linked Vietnamese communism with the Russian October Revolution, highlighted proletarian internationalism among its ranks, and rooted the Party in Vietnam's south. The study traces the decades-long complex processes in which famous heroic episodes in Ton Duc Thang's life were manipulated or simply fabricated and, depending on prevailing historical and political necessities, utilized as propaganda by the Communist Party. Over time, narrative control over these tales switched hands, however, and since the late 1950s the stories came to be used in factional disputes by competing ideological and regional interests within the revolutionary camp. Based on innovative archival research in Vietnam and France and on analyses of biographical writings, propaganda, and museum representations, the study challenges core assumptions about the history of the Vietnamese Communist Party and sheds light on divisions within the revolutionary movement along regional, class, and ideological lines. Giebel uses the fictions and contested facts of Ton's life to demonstrate that history writing and the constructions of memories and identities are always political acts.

Local Organizations and Urban Governance in East and Southeast Asia Benjamin L. Read, Robert Pekkanen, 2009-06-02. This edited collection brings together enterprising pieces of new research on the many forms of

organization in East and Southeast Asia that are sponsored or mandated by government but engage widespread participation at the grassroots level Straddling the state society divide these organizations play important roles in society and politics yet remain only dimly understood This book shines a spotlight on this phenomenon which speaks to fundamental questions about how such societies choose to organize themselves how institutions of local governance change over time and how individuals respond to and make use of the power of the state The contributors investigate organizations ranging from volunteer based organizations that partner with government in providing services for homeless children to state managed networks of neighborhood or village level associations that perform representative as well as administrative functions and seeks to answer a number of questions When do the vertical top down imperatives of the state stifle horizontal solidarities and when might the two work in harmony Are useful social and administrative purposes served by this type of fusion Does it amplify or merely muffle citizens voices What does it tell us about existing accounts of community social capital synergy complementarity subsidiarity and related concepts Representing seven countries China Japan Vietnam Thailand Indonesia Taiwan and Singapore this volume will be of interest to undergraduates postgraduates and academics in Asian studies political science sociology anthropology development history nonprofit studies Vietnam Martin Gainsborough,2013-07-04 Vietnam Rethinking the State offers an exciting and up to date look at the politics of this fascinating country as it seeks to make the transition from war torn economic backwater to a dynamic and modern society The book argues for a move away from the commonly associated idea of reform arguing for a deeper understanding of the concept and questioning the idea of state retreat The result is a path breaking book which gets beneath the surface of Vietnam s politics in a way which few outsiders otherwise could **Asian Security Handbook** William M. Vietnam's Communist Revolution Tuong Vu,2016-12-22 By tracing the evolving worldview of Vietnamese communists over 80 years as they led Vietnam through wars social revolution and peaceful development this book shows the depth and resilience of their commitment to the communist utopia in their foreign policy Unearthing new material from Vietnamese archives and publications this book challenges the conventional scholarship and the popular image of the Vietnamese revolution and the Vietnam War as being driven solely by patriotic inspirations The revolution not only saw successes in

defeating foreign intervention but also failures in bringing peace and development to Vietnam This was and is the real tragedy of Vietnam Spanning the entire history of the Vietnamese revolution and its aftermath this book examines its leaders early rise to power the tumult of three decades of war with France the US and China and the stubborn legacies left behind which remain in Vietnam today Environmental Governance in Vietnam Stephan Ortmann,2017-01-30 This book deals with institutional reforms in response to a mounting environmental crisis in Vietnam The author introduces the reader to the most important environmental problems that Vietnam is currently facing and shows how the emphasis on economic growth has come at the expense of the natural environment Following an assessment of the still deteriorating environmental situation the book develops a theoretical framework of institutional change within the political system seeking to overcome the traditionally static understanding of institutions The empirical analysis devotes attention to the main aspects on Vietnam s environmental governance including the government society businesses and international organizations The book is based on four years of empirical research including interviews with government officials and representatives of international and national non governmental organizations observations of meetings official documents and numerous Vietnamese newspaper reports This book is directed both at academics students as well as development practitioners and activists It seeks to engage those working in the fields of environmental politics governance and institutional change in one party states **Corruption Control in Authoritarian Regimes** Christopher Carothers,2022-04-07 Corruption is rampant in many authoritarian regimes leading most observers to assume that autocrats have little incentive or ability to curb government wrongdoing Corruption Control in Authoritarian Regimes shows that meaningful anti corruption efforts by nondemocracies are more common and more often successful than is typically understood Drawing on wide ranging analysis of authoritarian anti corruption efforts globally and in depth case studies of key countries such as China South Korea and Taiwan over time Dr Carothers constructs an original theory of authoritarian corruption control He disputes views that hold democratic or quasi democratic institutions as necessary for political governance successes and argues that corruption control in authoritarian regimes often depends on a powerful autocratic reformer having a free hand to enact and enforce measures curbing government wrongdoing This book advances our understanding of authoritarian governance and durability while also opening up new avenues of inquiry about the politics of corruption control in East Asia and beyond *The Vietnamese Health Care System in Change* Kerstin Priwitzer,2012 Within the last twenty years a large scale bottom up privatization has taken place in Vietnam changing and dismantling the public health care system This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support especially for the poor elderly migrants and ethnic minorities on the one hand and its efficiency on the other hand The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government The author bases her findings on little known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system thereby

painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam [Speaking Out in Vietnam](#) Benedict J. Tria Kerkvliet, 2019-06-15 Since 1990 public political criticism has evolved into a prominent feature of Vietnam's political landscape So argues Benedict Kerkvliet in his analysis of Communist Party ruled Vietnam Speaking Out in Vietnam assesses the rise and diversity of these public displays of disagreement showing that it has morphed from family whispers to large scale use of electronic media In discussing how such criticism has become widespread over the last three decades Kerkvliet focuses on four clusters of critics factory workers demanding better wages and living standards villagers demonstrating and petitioning against corruption and land confiscations citizens opposing China's encroachment into Vietnam and criticizing China Vietnam relations and dissidents objecting to the party state regime and pressing for democratization He finds that public political criticism ranges from lambasting corrupt authorities to condemning repression of bloggers to protesting about working conditions Speaking Out in Vietnam shows that although we may think that the party state represses public criticism in fact Vietnamese authorities often tolerate and respond positively to such public and open protests **Doing Research as a Native** Kira D. Jumeat, Merouan Mekouar, 2024 When I started fieldwork for my PhD dissertation I was fresh out of Edward Schatz's qualitative methods graduate seminar at the University of Toronto The seminar was based on his edited volume Political Ethnography Schatz 2009 which I devoured but I have only recently grasped the book's importance in my discipline of political science Political Ethnography signaled that questions of positionality were finally being taken seriously by political scientists many years after their integration in fields such as anthropology sociology and geography Around the same time the late Lee Ann Fujii whose 2018 book Interviewing in Social Science Research in many ways defined the direction of qualitative methods in political science gave a job talk in my department Mesmerized by her account of how local ties shaped mass scale violence in Rwanda I asked Fujii to join my doctoral committee Looking back I realize just how much these formative mentors influenced what I would see as my key responsibilities during my first fieldwork trips to the former Yugoslavia region in 2010 and 2011 [Southeast Asian Affairs](#) 2002 Daljit Singh, Anthony L Smith, 2002 This book is divided into two broad categories There are those which provide an analysis of major developments during 2001 in individual Southeast Asian countries and in the region generally Then there are the theme articles of a more specialized nature which deal with topical problems of concern This volume contains twenty articles dealing with such major themes as international conflict and co operation political stability and economic growth and development **The Palgrave Handbook of Political Norms in Southeast Asia** Gabriel Facal, Elsa Lafaye de Micheaux, Astrid Norén-Nilsson, 2024-06-07 This open access handbook aims to constitute a reference point on political norm dynamics in Southeast Asia by bringing together the array of normative repertoires that frame the possibilities for citizens to participate in set agendas for make decisions in and contest not only electoral and institutional politics but also informal and imaginary political spaces It sheds light on intersecting political and social transformations and their consequences from the

vantage point of political norms While chapters lay out and analyse how political norms across Southeast Asia have been shaped in successive historical phases the core of the handbook addresses current dynamics involved in defining and transforming political norms Beyond Hanoi Benedict J Tria Kerkvliet,2003-08-01 This is the first book in English to examine local government and authority in Vietnam since the country's reunification in 1975 Beyond Hanoi addresses four questions what local institutions and offices have authority to govern who are the local officials and how do they get their positions what do local governments do and whose interests do they serve and what do residents say about local officials and governing institutions Based on in depth research six chapters emphasize particular villages and districts in different parts of the country one examines a ward in Hanoi another focuses on Ho Chi Minh City and one compares leaders in several provinces To contextualize conditions today two chapters analyse local government in Vietnam's long history The opening chapter synthesizes the findings in this book with those in other studies by researchers inside and outside Vietnam *The Dragon's Underbelly* Nhu Truong,Tuong Vu,2023-01-13 This book shows why Vietnam has not become the dragon it is often touted to be The team of authors include both long time observers and junior scholars who present cutting edge research on the latest trends as well as major challenges facing the country's economy and political system As Vietnam seeks to escape from poverty and the legacies of mistaken socialist policies its economy has become fully integrated into the global economy Yet without an effective and far sighted leadership it is still occupying a low position in the global value chains and becoming increasingly dependent on China Politically after three decades of reform the Vietnamese Communist Party's grip on power has well adapted to the market economy but is confronting deep vulnerabilities as observed in its eroding ability to control workers the media public universities and state owned enterprises The book also includes a section that applies formal and statistical methods to compare Vietnam with China in two critical areas of political accountability and anti corruption policy
