The Struggle for Female Suffrage in Europe ,2012-06-07 Whilst scholarship on women s suffrage usually focuses on a few emblematic countries The Struggle for Female Suffrage in Europe casts a comparative look at the articulation of women s suffrage rights in the countries that now make up the political unity in the making we call the European Union The book uncovers the dynamics that were at play in the recognition of male and female suffrage rights and in the definition of male and female citizenship in modern Europe It allows readers to identify differences and commonalities in the histories of women s disenfranchisement and sheds light on the role suffrage has played in the construction of female citizenship in European countries It provides the background against which a new European paradigm of parity democracy is gradually asserting itself

The Struggle for Female Suffrage in Europe Blanca Rodriguez Ruiz,Ruth Rubio-Marín,2012-06-07 By comparing women s access to suffrage in the countries that make up the European Union i The Struggle for Female Suffrage in Europe provides a retelling of the story of how citizenship was gradually coined in Europe from the perspective of women

Capitalism in Chaos Máté Rigó,2022-08-15 Capitalism in Chaos explores an often overlooked consequence and paradox of the First World War the prosperity of business elites and bankers in service of the war effort during the destruction of capital and wealth by belligerent armies This study of business life amid war and massive geopolitical changes follows industrialists and policymakers in Central Europe as the region became crucially important for German and subsequently French plans of economic and geopolitical expansion in the late nineteenth and early twentieth centuries Based on extensive research in sixteen archives five languages and four states M t Rig demonstrates that wartime destruction and the birth of war millionaires were two sides of the same coin Despite the recent centenaries of the Great War and the Versailles peace treaties knowledge of the overall impact of war and border changes on business life remains sporadic based on scant statistics and misleading national foci Consequently most histories remain wedded to the viewpoint of national governments and commercial connections across national borders Capitalism in Chaos changes the static historical perspective by presenting Europe s East as the economic engine of the continent Rig accomplishes this paradigm shift by focusing on both supranational regions including East Central and Western Europe as well as the eastern and western peripheries of Central Europe Alsace Lorraine and Transylvania from the 1870s until the 1920s As a result Capitalism in Chaos offers a concrete lively history of economics during major world crises with a contemporary consciousness toward inequality and disparity during a time of collapse

Estado autonómico Ridao, Joan, 2021-06-01 La pandemia de COVID 19 ha sido una prueba de resistencia no solo sanitaria y social sino también para el Derecho El trabajo que nos presenta Joan Ridao realiza un notable esfuerzo de análisis de ese Derecho de crisis y de su impacto en el Estado autonómico Es un libro oportuno sistemático y apegado a la actualidad cambiante La gestión jurídica de las medidas necesarias para evitar la expansión del virus ha generado vivos debates más allá de los foros estrictamente académicos sobre los pilares centrales de nuestro sistema jurídico los derechos fundamentales la distribución competencial o la separación de poderes Estado de alarma o legislación sanitaria estado de alarma en versión centralizadora o estado de alarma con cogobernanza coordinación de medidas o diversidad en la gestión ratificación judicial de medidas generales de naturaleza reglamentaria o de actos administrativos de aplicación de normas que afectan a derechos fundamentales desdibujamiento del control parlamentario vinculación autonómica a las actuaciones coordinadas toque de queda y vacunación obligatoria autonómica o no suspensión de elecciones o del derecho de sufragio sin previsión normativa derecho a la salud o derechos fundamentales La sucesión de políticas jurídicas que ha acompañado a la gestión sanitaria de la pandemia ha sido incesante y las discrepancias doctrinales políticas y jurisprudenciales han dibujado un panorama que parece sugerir un déficit de desarrollo normativo o cuando menos de seguridad jurídica para afrontar un problema complejo El volumen estudia con detalle cómo se abordó jurídicamente la crisis sanitaria y el uso cambiante de instrumentos jurídicos para hacerle frente por parte del gobierno central y las comunidades autónomas Ese repaso normativo y jurisprudencial permite apreciar la evolución que en tan corto espacio de tiempo experimenta la articulación jurídica de las medidas anti covid lo que en definitiva también sirve para desdramatizar los debates jurídicos apuntados Nuestro ordenamiento jurídico dispone de una caja de herramientas apta aunque perfeccionable para hacer frente a una pandemia desde la legislación sanitaria pasando por la de protección civil que muy pronto usaron varias CCAA hasta el Derecho de excepción que se deriva del art 116 de la Constitución Por eso a nuestro juicio la pregunta a la que da respuesta este necesario estudio no es tanto si la pandemia nos encontró desarbolados también jurídicamente sino con cuáles de esos instrumentos se podía conseguir aunar mejor una gestión eficaz de la crisis con la menor lesión posible para los derechos fundamentales y el reparto competencial Del prólogo de Alba Nogueira
