**Mastered by the Clock** Mark M. Smith, 2000-11-09 Mastered by the Clock is the first work to explore the evolution of clock based time consciousness in the American South Challenging traditional assumptions about the plantation economy s reliance on a premodern nature based conception of time Mark M Smith shows how and why southerners particularly masters and their slaves came to view the clock as a legitimate arbiter of time Drawing on an extraordinary range of eighteenth and nineteenth century archival sources Smith demonstrates that white southern slaveholders began to incorporate this new sense of time in the 1830s Influenced by colonial merchants fascination with time thrift by a long held familiarity with urban public time by the transport and market revolution in the South and by their own qualified embrace of modernity slaveowners began to purchase timepieces in growing numbers adopting a clock based conception of time and attempting in turn to instill a similar consciousness in their slaves But forbidden to own watches themselves slaves did not internalize this idea to the same degree as their masters and slaveholders found themselves dependent as much on the whip

as on the clock when enforcing slaves obedience to time Ironically Smith shows freedom largely consolidated the dependence of masters as well as freedpeople on the clock     The Hallmark ,1972     **All Hands** ,1975     **Clocks of New York** Chris DeSantis,Vinit Parmar,2011-02-28 The phrase in a New York minute is virtually synonymous with all that is fast paced and technologically advanced One of the first cities founded on the eastern seaboard New York has been a horological trendsetter for almost four hundred years When the first Dutch settlers came to Manhattan in the early years of the 17th century they established America s first stronghold of capitalism Over the next few centuries precise schedules became an inescapable reality of modernization and precision timepieces became an art form in Europe and America As the center of commercial and industrial activity New York City developed a particular preoccupation with time and hence became a showplace for an astonishing array of timepieces From tower clocks to time balls this richly illustrated work chronicles the history of public clocks in New York City It discusses the premiere clock makers of the 19th century such as the Ansonia Clock Company and the Self Winding Clock Company the heyday of American public clock making and the ever increasing importance of clocks Post clocks church clocks sundials and labor timepieces are all discussed herein Photographs of subject pieces and an index are included     American Magazine ,1926     A General History of Horology Anthony John Turner,James Nye,Jonathan Betts,2022 The text provides a general history of horology covering time keeping worldwide and at all periods throughout history from antiquity Assyria and Egypt included to the present day     *Kovel's Guide to Selling, Buying, and Fixing Your Antiques and Collectibles* Ralph M.
