Report From Xunwu:

Report from Xunwu Zedong Mao,1990 Long described as lost this report was the result of Mao Zedong s investigation in 1930 of the people economy society and history of the obscure rural county of Xunwu in South China An extraordinary document that far exceeds in scope and depth Mao s other investigative reports on rural China the report is a rich source of information on rural administration commerce transportation communication education land tenure taxation religion diverse social relations and practices and struggle in one obscure area that was a microcosm of China Thompson has translated and presented Mao s report with extensive notes The book is designed to be accessible to non specialists and it will be welcomed by those interested in the Chinese countryside comparative revolution and historical anthropology Because Mao s report on Xunwu was part of a revolutionary programme the report raises complex questions about academic and activist readings of social realities *Report from Xunwu* Zedong Mao,2022

Changing Clothes in China Antonia Finnane,2008-01-24 Based largely on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging historians have long regarded fashion as something peculiarly Western But in this surprising sumptuously illustrated book Antonia Finnane proves that vibrant fashions were a vital part of Chinese life in the late imperial era when well to do men and women showed a keen awareness of what was up to date Though foreigners who traveled to China in the early decades of the twentieth century came away with the impression that Chinese dress was simple and monotone the key features of modern fashion were beginning to emerge especially in Shanghai Men in blue gowns donned felt caps and leather shoes girls began to wear fitted jackets and narrow pants and homespun garments gave way to machine woven cloth often made in foreign lands These innovations marked the start of a far reaching vestimentary revolution that would transform the clothing culture in urban and much of rural China over the next half century Through Finnane s meticulous research we are able to see how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution led to the variegated globalized wardrobe of today She brilliantly connects China s modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs **Militant Acts** Marcelo

Hoffman,2019-01-01 **Militant Acts** presents a broad history of the concept and practice of investigations in radical political struggles from the nineteenth century to the present Radicals launched investigations into the conditions and struggles of the oppressed and exploited to stimulate their political mobilization and organization These investigations assumed a variety of methodological forms in a wide range of geographical and institutional contexts and they also drew support from the participation of intellectuals such as Marx Lenin Mao Dunayevskaya Foucault and Badiou Marcelo Hoffman analyzes newspapers pamphlets reports and other source materials which reveal the diverse histories underappreciated difficulties and theoretical import of investigations in radical political struggles In so doing he challenges readers to rethink the

supposed failure of these investigations and concludes that the value of investigations in radical political struggles ultimately resides in the possibility of producing a new political we Mao's Road to Power: The pre-Marxist period, 1912-1920 Zedong Mao, Stuart Reynolds Schram, 1992 Minutes of the Third Day of the First Enlarged Meeting of the General Front Committee of the First Front Army of the Red Army June 22 **China's Rural Financial System** Yuepeng Zhao, 2010-10-04 This book examines the credit needs and the borrowing behaviour of rural households in China in recent years It is based on in depth analysis of the status of households indebtedness and borrowing behaviour the performance of Rural Credit Cooperatives RCCs as well as resources of informal finance Before 2006 RCCs are virtually the only source of formal credit for rural households in China and were subject to a series of reforms from 1996 to 2003 The reforms aimed to transform RCCs into market oriented institutions and more importantly help them meet the increasing demands of farmers for varied financial services and thereby contribute effectively to economic transformation in rural China Based on a micro study of three villages at different stages of development with dissimilar economic characteristics in Jiangxi province this book investigates the sources of finance formal and informal in rural areas and the different types of credit that farmers require It examines the patterns of credit required by rural households at different stages of agricultural processes and the institutions from which they obtain loans It demonstrates the importance of innovative institutional arrangements in rural China and new instruments that give farmers access to formal rural financial markets and enable them to utilize credit effectively concluding that further reforms to RCCs are necessary for RCCs to be truly effective **A Native Chieftaincy in Southwest China** Jennifer Took, 2005-10-01 For nearly 700 years the Chinese state exercised control over the minority peoples in its border provinces through the hereditary native chieftaincies tusi Utilizing fieldwork carried out by PRC authorities in the 1950s this book investigates a Zhuang tusi in Guangxi It explores the history and institutions of the tusi system and discusses the dual quality of the tusi chieftaincy as a Chinese franchise and a non Chinese polity It describes the social structure village administration and land tenure system of this tusi the customary institutions of its ruling clan and the impact of the replacement by direct Chinese rule in the 20th century It also sheds light on the political management of the strategically sensitive Chinese Vietnamese border over 600 years **Revolution and Its Past** R. Farewell to the God of Plague Miriam Gross, 2016-01-19 *Farewell to the God of Plague* reassesses the celebrated Maoist health care model through the lens of Mao's famous campaign against snail fever Using newly available archives Miriam Gross documents how economic political and cultural realities led to grassroots resistance Nonetheless the campaign triumphed but not because of its touted mass prevention campaign Instead success came from its unacknowledged treatment arm carried out jointly by banished urban doctors and rural educated youth More broadly the author reconsiders the relationship between science and political control during the ostensibly antiscientific Maoist era discovering the important role of grassroots science in regime legitimation and Party control in rural areas [Seeing the Unseen](#) Guoli Chen, Jianggan Li, 2022-09-15 Meet the overnight tech success stories of China's globalizing business landscape In the last few years we have seen a meteoric rise of Chinese tech companies across the world Alibaba stock price movements unnerved investors globally venture capitalists searched for the next Meituan or Pinduoduo in Southeast Asia and Latin America and of course Tik Tok the most popular content platform in the world today originated from China The founders of such companies are typically credited with the tenacity to rough it out the courage to venture into the unknown and the vision to take their companies to new heights However the same can be said about Silicon Valley founders or any successful entrepreneur So what gives Chinese founders and their companies the advantage in becoming multi billion global enterprises How does their leadership set strategies How do they motivate their people How do they move so fast and defend their turf in China's hyper competitive tech market When they expand overseas how do they determine what they keep and what they need to let go of And most importantly what do these things mean to you as a competitor investor regulator or even as an executive or customer of such companies *Seeing the Unseen Behind Chinese Tech Giants* Global Venturing answers these questions and delves into the fascinating world of Chinese logic that shapes how tech leaders make and implement decisions many of which are seldom seen outside China In this book you will gain an accurate concise understanding of Chinese tech companies reflections as they scale You will understand the different generations of Chinese tech giants from Alibaba Tencent Baidu and Huawei to Pinduoduo Meituan ByteDance Xiaomi and more In this *Seeing the Unseen* the analysis behind the success and lessons learned is summarized into a unique framework that touches on People Organization and Product and Leadership POP

People's Wars in China, Malaya, and Vietnam Marc Opper, 2019-11-08 People's Wars in China Malaya and Vietnam explains why some insurgencies collapse after a military defeat while under other circumstances insurgents are able to maintain influence rebuild strength and ultimately defeat the government The author argues that ultimate victory in civil wars rests on the size of the coalition of social groups established by each side during the conflict When insurgents establish broad social coalitions relative to the incumbent their movement will persist even when military defeats lead to loss of control of territory because they enjoy the support of the civilian population and civilians will not defect to the incumbent By contrast when insurgents establish narrow coalitions civilian compliance is solely a product of coercion Where insurgents implement such governing strategies battlefield defeats translate into political defeats and bring about a collapse of the insurgency because civilians defect to the incumbent The empirical chapters of the book consist of six case studies of the most consequential insurgencies of the 20th century including that led by the Chinese Communist Party from 1927 to 1949 the Malayan Emergency 1948 1960 and the Vietnam War 1960 1975 People's Wars breaks new ground in systematically analyzing and comparing these three canonical cases of insurgency The case studies of China and Malaya make use of Chinese language archival sources many of which have never before been used and provide an unprecedented level of detail into the workings of successful and unsuccessful insurgencies The book adopts an interdisciplinary approach and will be of interest to both political scientists and historians

Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945 Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change

China Off Center Susan D. Blum, Lionel M. Jensen, 2002-09-30 China Off

Center takes as its fundamental assumption that contemporary China can only be understood as a complex decentralized place where the view from above Beijing and from tourist buses is a skewed one. Instead of generalizing about China, it demonstrates that this diverse national terrain is better conceived as it is experienced by Chinese as a set of many Chinas. To that end, this anthology of interpretive essays and ethnographic reports focuses on the everyday, the particular, the local, and the puzzling. Together with contextualizing introductions, the readings provide students with a compelling look at some little known but significant aspects of China from the past decade. For those already familiar with China, they furnish an assortment of uncommon viewpoints in a single convenient volume.

Thought Reform and China's Dangerous Classes, Aminda M. Smith, 2013. This book offers the first detailed study of the essential relationship between thought reform and the dangerous classes. The prostitutes, beggars, petty criminals, and other lumpenproletarians the Communists saw as a threat to society and the revolution. Aminda Smith takes readers inside early PRC reformatories where the new state endeavored to transform vagrants into members of the laboring masses. As places where the people were literally created, these centers became testing grounds for rapidly changing ideas and experiments about thought reform and the subjects they produced.

Smit **Making It Count**, Arunabh Ghosh, 2022-01-11.

Among the biggest challenges facing leaders of the newly established People's Republic of China (PRC) was how much they did not know. In 1949, at the end of a long sequence of wars, the government of one of the largest states in the world committed to fundamentally re-engineering its society and economy via socialist planning while having almost no hard, reliable statistical data about their own country. This book is a history of attempts made to resolve this crisis in counting. Drawing on a wealth of official, institutional, and private sources culled from China, India, and the United States, the author explores the choices made and the effects they engendered through a series of vivid encounters with political leaders, professional statisticians, academics, ordinary statistical workers, and even literary figures. Early reliance on Soviet-inspired methods of enumeration became increasingly untenable in China by the middle of the 1950s. A series of unprecedented and unexpected exchanges with Indian statisticians followed as the Chinese sought to learn about the then exciting new technology of random sampling. These developments were in turn overtaken by the tumult of the Great Leap Forward, 1958-1961, when both probabilistic and exhaustive methods were rejected and statistics was refashioned into an essentially ethnographic enterprise. The author argues that this history, usually narrowly described as a universal if European history, cannot be understood without acknowledging Soviet and Indian influences, which not only revises existing models of Cold War science but also globalizes the wider developments in the history of statistics and data. For historians of China and social science and political scientists.
