Report On The Global Hiv Aids Epidemic:

Report on the Global HIV/AIDS Epidemic, 2002 Hein Marais, Andrew Wilson, 2002-01-01 In 2001 the world marked 20 years of AIDS The epidemic has turned out to be far worse than predicted and is still in its early stages Effective responses are possible but only when they are politically backed and full scale and done today and tomorrow Presents evidence of the responses to the epidemic mounted by many partners incl gov ts the bus sector and civil society This report provides positive proof that HIV if left to run its natural course will cause devastation on an unprecedented scale The evidence presented here shows that where care is most needed it is least accessible The agenda for building the capacity to extend care to all who need it is clearly presented and the case for boosting resources for prevention and care is compellingly made **Report on the Global HIV/AIDS Epidemic** Joint United Nations Programme on HIV/AIDS., 1997 **2008 Report on the Global AIDS Epidemic** Joint United Nations Programme on HIV/AIDS., 2008 Knowing your epidemic is essential for everyone involved in the response to HIV Extensively illustrated with graphs and charts this biennial report presents concise but comprehensive summaries of major issues in the global AIDS response Annexes provide HIV estimates and data 2001 and 2007 and also country progress indicators **Report on the Global HIV/AIDS Epidemic** World Health Organization, 2000

Disease and Mortality in Sub-Saharan Africa Dean T. Jamison, 2006-01-01 Current data and trends in morbidity and mortality for the sub Saharan Region as presented in this new edition reflect the heavy toll that HIV AIDS has had on health indicators leading to either a stalling or reversal of the gains made not just for communicable disorders but for cancers as well as mental and neurological disorders *Report on the Global HIV/AIDS Epidemic, 2002* **Report on the Global AIDS Epidemic**, 2008 The Global HIV Epidemics Among Men who Have Sex with Men, 2011-01-01 Human Rights Risk behavior Cost effectiveness Low and middle income countries Human Immunodeficiency Virus Epidemic Men who have sex with men Attributable fraction Intervention Prevention Homosexuality *Global HIV/AIDS Politics, Policy, and Activism* Raymond A. Smith, 2013-10-28 An international team of specialists in politics policy and activism provide an indispensable guide to the persistent challenges and emerging issues posed by the global HIV AIDS epidemic now in its fourth decade The HIV AIDS epidemic is at a critical turning point Compelling new findings herald the potential to eventually grind the epidemic to a halt through a combination of expanded treatment coverage and new biomedical approaches to prevention At the same time the severe global economic downturns have negatively affected wealthy donor nations that have provided the funds and technical support for programs in the developing world It is against this backdrop that this landmark three volume set was developed It provides a broad overview of the critical political issues surrounding HIV AIDS inspects key areas of policy and policymaking and spotlights the most important forms of activism and community mobilization The volumes reflect an eclectic and wide ranging set of issues written by an international team comprising dozens of authors from nations including the United States the United Kingdom Ghana South Africa Brazil Cambodia Norway and Qatar The international

contributors represent a variety of disciplines and bring with them a range of styles and methodological approaches appropriate to their specific topics and disciplines An important addition to academic and public libraries this expansive work will benefit students and other readers interested in politics policymaking public health activism and community mobilization both in the United States and globally *Global Institutions and the HIV/AIDS Epidemic* Franklyn Lisk,2009-09-10 Lisk examines the different perspectives of the global response to HIV AIDS and the role of the different global institutions multilateral public and private involved including their impact on outcomes *Growing Up Global* Institute of Medicine,National Research Council,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Population,Panel on Transitions to Adulthood in Developing Countries,2005-06-25 The challenges for young people making the transition to adulthood are greater today than ever before Globalization with its power to reach across national boundaries and into the smallest communities carries with it the transformative power of new markets and new technology At the same time globalization brings with it new ideas and lifestyles that can conflict with traditional norms and values And while the economic benefits are potentially enormous the actual course of globalization has not been without its critics who charge that to date the gains have been very unevenly distributed generating a new set of problems associated with rising inequality and social polarization Regardless of how the globalization debate is resolved it is clear that as broad global forces transform the world in which the next generation will live and work the choices that today s young people make or others make on their behalf will facilitate or constrain their success as adults Traditional expectations regarding future employment prospects and life experiences are no longer valid *Growing Up Global* examines how the transition to adulthood is changing in developing countries and what the implications of these changes might be for those responsible for designing youth policies and programs in particular those affecting adolescent reproductive health The report sets forth a framework that identifies criteria for successful transitions in the context of contemporary global changes for five key adult roles adult worker citizen and community participant spouse parent and household manager *Report on the Global Hiv/Aids Epidemic* Joint United Nations Programme on HIV, AIDS.,Joint United Nations Programme on HIV/AIDS.,Marais Hein,Joint United Nations Programme On Hiv/Aids Unaided Staff,2002-01-01 **Public Health and Human Rights** Chris Beyrer,H. Grigsby-Toussaint,Imelda K. Moise,2018-06-14 The closure of the Millennium Development Goals MDGs in 2015 prompted the need for a book of this kind An interdisciplinary group of global health scholars contribute to the understanding of the emerging and fast growing problem of the dual burden of communicable and non communicable diseases NCDs in Africa This book is timely as the international community has moved from the MDGs to adopt the Sustainable Development Goals SDGs as the blueprint for a new human development agenda Contributions and case studies

are situated in the revised Epidemiologic and Nutrition Transition Model to capture the current situation referencing communicable and NCDs on the African continent The case studies encapsulated aim to help minimize negative health outcomes and improve population health well being and equity in the future This book will be significant in policy circles to assist international organizations governments and United Nations agencies It aims to chart the future for health in Africa in light of recently adopted SDGs This book is also a useful complementary reader for global public health related courses

Global Health John J. Kirton, 2017-05-15 In recent years especially since the end of the cold war the field of global health has become increasingly linked with and central to the more traditional concerns of international relations The spread of communicable diseases the challenge of migrating health workers and the development of new technologies and medicines have all contributed to the ever expanding issue of global health International organizations such as the World Health Organization the utilization of techniques such as the creation of the framework convention on tobacco control and the development of civil society organizations such as the Gates Foundation have all changed the face and framework of global health Among the many benefits to the expanding interdisciplinary study of health is the possibility of preventing millions of unnecessary deaths occurring every year By assembling from a wide array of disciplines and fields the central works that define the field in international relations today this innovative work explores the future of global health and the possible benefits of expanding the interdisciplinary path even further

HIV/AIDS in South Africa 25 Years On Poul

Rohleder, Leslie Swartz, Seth C. Kalichman, Leickness Chisamu Simbayi, 2009-09-01 Much has happened since the first appearance of AIDS in 1981 it has been identified studied and occasionally denied The virus has shifted host populations and spread globally Medicine the social sciences and world governments have joined forces to combat and prevent the disease And South Africa has emerged as ground zero for the pandemic The editors of HIV AIDS in South Africa 25 Years On present the South African crisis as a template for addressing the myriad issues surrounding the epidemic worldwide as the book brings together a widely scattered body of literature analyzes psychosocial and sexual aspects contributing to HIV transmission and prevention and delves into complex intersections of race gender class and politics Including largely overlooked populations and issues e g prisoners persons with disabilities stigma as well as challenges shaping future research and policy the contributors approach their topics with rare depth meticulous research carefully drawn conclusions and profound compassion Among the topics covered The relationship between HIV and poverty starting from the question Which is the determinant and which is the consequence Epidemiology of HIV among women and men concepts of femininity and masculinity and gender inequities as they affect HIV risk gender specific prevention and intervention strategies The impact of AIDS on infants and young children risk and protective factors care of children by HIV positive mothers HIV infected children Current prevention and treatment projects including local level responses community based work and VCT voluntary counseling and testing programs New directions promoting circumcision vaccine trials positive prevention South

Africa's history of AIDS denialism The urgent lessons in this book apply both globally and locally making HIV/AIDS in South Africa 25 Years On uniquely instructive and useful for professionals working in HIV/AIDS and global public health *The AIDS Pandemic* Lawrence O. Gostin, 2005-11-16 In this collection of essays Lawrence O. Gostin, an internationally recognized scholar of AIDS law and policy, confronts the most pressing and controversial issues surrounding AIDS in America and around the world. He shows how HIV/AIDS affects the entire population, infected and uninfected, by influencing our social norms, our economy, and our country's role as a world leader. Now in the third decade of this pandemic, the nation and the world still fail to respond to the needs of persons living with HIV/AIDS and continue to tolerate injustice in their treatment. Gostin argues AIDS, both in the United States and globally, deeply affects poor and marginalized populations, and many U.S. policies are based on conservative moral values rather than public health and social justice concerns. Gostin tackles the hard social, legal, political, and ethical issues of the HIV/AIDS pandemic: privacy and discrimination, travel and immigration, clinical trials, and drug pricing, exclusion of HIV-infected health care workers, testing and treatment of pregnant women and infants, and needle exchange programs. This book provides an inside account of AIDS policy debates together with incisive commentary. It is indispensable reading for advocates, scholars, health professionals, lawyers, and the concerned public. Report on the Global HIV/AIDS Epidemic, June 2000 Joint United Nations Programme on HIV/AIDS., 2000 This report lays out the evidence, the success stories, and the challenges that confront individual countries and the international community on HIV/AIDS. In doing so, it seeks to convey the true seriousness of the global epidemic but also to keep hope alive. Global AIDS Alexander C. Irwin, Joyce V. Millen, Dorothy Fallows, 2003 AIDS is the most devastating communicable disease in history, and poor countries have been most severely impacted by the pandemic. Since the mid-1990s, the use of antiretroviral drug therapies has dramatically extended life expectancy and improved life quality for those with HIV/AIDS who can afford the costly treatments. Yet even as it raises new hope, this medical advance has intensified ethical and political questions about AIDS. Antiretroviral use by those with money and access throws the contrasting outcomes among AIDS sufferers throughout the world into high relief. It has also revealed what many people with AIDS have known all along: the disease is not only propagated by the virus but by racism, entrenched poverty, structural inequality, and the legacy of colonial domination and exploitation. Global AIDS: Myths and Facts aims to present the facts about HIV/AIDS and empower people for informed, active participation in the global struggle against this plague. To mobilize the energy, commitment, and resources required for the fight, Irwin and Millen tackle 10 destructive myths that hamper implementation of effective and equitable anti-HIV/AIDS programs. World leaders like Kofi Annan have announced treatment and prevention initiatives that are opening new possibilities. But the authors argue that only sustained political pressure from the grassroots—forging links across national boundaries, professional and social categories, and racial, ethnic, and religious identities—will halt the pandemic's spread. Humanitarian Aid in Post-Soviet Countries Laetitia Atlani-Duault, 2008-01-07 Published originally in French, this revised and updated English edition presents

an original and insightful approach to the problem of humanitarian aid in the Central Asian and Caucasus region
