Author Under Sail James (Jay) W. Williams, 2014-11-01 In *Author Under Sail* Jay Williams offers the first complete literary biography of Jack London as a professional writer engaged in the labor of writing. It examines the authorial imagination in London's work, the use of imagination in both his fiction and nonfiction, and the ways he defined imagination in the creative process in his business dealings with his publishers, editors, and agents. In this first volume of a two-volume biography, Williams traverses the years 1893 to 1902, from London's *Story of a Typhoon* to *The People of the Abyss*. The Jack London who emerges in the pages of *Author Under Sail* is a writer whose partnership with publishers, most notably his productive alliance with George Brett of Macmillan, was one of the most formative in American literary history. London pioneered many author models during the heyday of realism and naturalism, blurring the boundaries of these popular genres by focusing on absorption and theatricality and the representation of the seen and unseen. London created an impassioned, sincere, and extremely personal realism, unlike that of other American writers of the time. *Author Under Sail* is a literary tour de force that reveals the full range of London as writer, creative citizen, and entrepreneur at the same time it sheds light on the maverick side of machine-age literature.

Journalism and the Russo-Japanese War Michael S. Sweeney, Natascha Toft Roelsgaard, 2019-11-21 This book examines the journalistic coverage and challenges during the Russo-Japanese War of 1904-05, what some have called World War Zero. The authors explore how Japan delayed and regulated correspondents so they could do no harm to the nation's ambitions at home or abroad and implemented methods of shaping the news. They argue Japan helped to shape the modern world of journalism by creating and packaging truth.

The Year That Defined American Journalism W. Joseph Campbell, 2013-10-08 *The Year that Defined American Journalism* explores the succession of remarkable and decisive moments in American journalism during 1897, a year of significant transition that helped redefine the profession and shape its modern contours. This defining year featured a momentous clash of paradigms pitting the activism of William Randolph Hearst's participatory journalism of action against the detached, fact-based antithesis of activist journalism as represented by Adolph Ochs of the New York Times and an eccentric experiment in literary journalism pursued by Lincoln Steffens at the New York Commercial Advertiser. Resolution of the three-sided clash of paradigms would take years and result ultimately in the ascendancy of the Times counter-activist model, which remains the defining standard for mainstream American journalism. *The Year That Defined American Journalism* introduces the year study methodology to mass communications research and enriches our understanding of a pivotal moment in media history.
