for how dharma authors thought and why Part Three contains brief studies of the impact and reception of Dharmasastra in other South Asian cultural and textual traditions Finally Part Four draws inspiration from critical terms in contemporary legal and religious studies to analyze Dharmasastra texts Contributors offer interpretive views of Dharmasastra that start from hermeneutic and social concerns today *Critical Terms for Religious Studies, Second Edition* Sarah

a kara soteriology It also reveals that a kara was much more indebted in his thinking to his Vedantic predecessors than had hitherto been thought      **Art Effects** Fausto (author),2020-08 In *Art Effects* Carlos Fausto explores the interplay between indigenous material culture and ontology in ritual contexts interpreting the agency of artifacts and indigenous presences and addressing major themes in anthropological theory and art history to study ritual images in the widest sense Fausto delves into analyses of the body aerophones ritual masks and anthropomorphic effigies while making a broad comparison between Amerindian visual regimes and the Christian imagistic tradition Drawing on his extensive fieldwork in Amazonia Fausto offers a rich tapestry of inductive theorizing in understanding anthropology s most complex subjects of analysis such as praxis and materiality ontology and belief the power of images and mimesis anthropomorphism and zoomorphism and animism and posthumanism *Art Effects* also brims with suggestive hemispheric comparisons of South American and North American indigenous masks In this tantalizing interdisciplinary work with echoes of Franz Boas Pierre Clastres and Claude Lévi Strauss among others Fausto asks how do objects and ritual images acquire their efficacy and affect human beings

Kaiser,2014 The dilemma of early Christology the author observes is found in the early Christian claims to have seen the Lord and beheld his glory expressions that in early Judaism would have pointed unequivocally to visions of Israel s God He also examines the phenomenon of kyriocentric visions in Second Temple Judaism

**Religio Duplex** Jan Assmann,2014-02-18 In this important new book the distinguished Egyptologist Jan Assmann provides a masterful overview of a crucial theme in the religious history of the West that of *religio duplex* or dual religion He begins by returning to the theology of the Ancient Egyptians who set out to present their culture as divided between the popular and the elite By examining their beliefs he argues we can distinguish the two faces of ancient religions more generally the outer face that of the official religion and the inner face encompassing the mysterious nature of religious experience Assmann explains that the Early Modern period witnessed the birth of the idea of dual religion with on the one hand the religion of reason and on the other that of revelation This concept gained new significance in the Enlightenment when the dual structure of religion was transposed onto the individual This meant that man now owed his allegiance not only to his native religion but also to a universal religion of mankind In fact argues Assmann religion can now only hold a place in our globalized world in this way as a religion that understands itself as one among many and has learned to see itself through the eyes of the other This bold and wide ranging book will be essential reading for historians theologians and anyone interested in the nature of religion and its role in the shaping of the modern world      *Old Society, New Belief* Lisa

Raphals,2017-05-01 In the first century of the Common Era two new belief systems entered long established cultures with radically different outlooks and values missionaries started to spread the teachings of Jesus of Nazareth in Rome and the Buddha in China Rome and China were not only ancient cultures but also cultures whose elites felt no need to receive the new beliefs Yet a few centuries later the two new faiths had become so well established that their names were virtually

synonymous with the polities they had entered as strangers Although there have been numerous studies addressing this phenomenon in each field the difficulty of mastering the languages and literature of these two great cultures has prevented any sustained effort to compare the two influential religious traditions at their initial period of development This book brings together specialists in the history and religion of Rome and China with a twofold aim First it aims to show in some detail the similarities and differences each religion encountered in the process of merging into a new cultural environment Second by juxtaposing the familiar with the foreign it also aims to capture aspects of this process that could otherwise be overlooked This approach is based on the general proposition that when a new religious belief begins to make contact with a society that has already had long honored beliefs certain areas of contention will inevitably ensue and changes on both sides have to take place There will be a dynamic interchange between the old and the new not only on the narrowly defined level of belief but also on the entire cultural body that nurtures these beliefs Thus this book aims to reassess the nature of each of these religions not as unique cultural phenomena but as part of the whole cultural dynamics of human societies
