The Representation of Meaning in Memory Walter Kintsch, 1974-01-01 **Retrieval and Organizational Strategies in Conceptual Memory (PLE: Memory)** Janet Kolodner, 2014-05-09 Someday we expect that computers will be able to keep us informed about the news People have imagined being able to ask their home computers questions such as What s going on in the world Originally published in 1984 this book is a fascinating look at the world of memory and computers before the internet became the mainstream phenomenon it is today It looks at the early development of a

computer system that could keep us informed in a way that we now take for granted Presenting a theory of remembering based on human information processing it begins to address many of the hard problems implicated in the quest to make computers remember The book had two purposes in presenting this theory of remembering First to be used in implementing intelligent computer systems including fact retrieval systems and intelligent systems in general Any intelligent program needs to use and store and use a great deal of knowledge The strategies and structures in the book were designed to be used for that purpose Second the theory attempts to explain how people s memories work and makes predictions about the organization of human memory

Imagery, Memory and Cognition (PLE: Memory) John C. Yuille,2014-05-09 Originally published in 1983 the 14 chapters in this volume are based upon

presentations made to a conference held at the University of Western Ontario in June 1981 The primary purpose of that conference was to mark the 10th anniversary of the publication of Allan Paivio's text *Imagery and Verbal Processes* and to acknowledge the continuing contribution that Paivio was making to imagery research and theory at the time His landmark book had been the major publication in the field of imagery and during the decade prior to this volume Paivio's theorizing and research dominated the investigation of imaginal processes It was felt the most appropriate way to honor his achievements and activities was to hold a conference on current developments in imagery research and theory at the time

Tangled Memories Marita Sturken, 1997-02-28 Analyzing the ways U S culture has been formed and transformed in the 80s and 90s by its response to the Vietnam War and the AIDS epidemic Marita Sturken argues that each has disrupted our conventional notions of community nation consensus and American culture She examines the relationship of camera images to the production of cultural memory the mixing of fantasy and reenactment in memory the role of trauma and survivors in creating cultural comfort and how discourses of healing can smooth over the tensions of political events Sturken's discussion encompasses a brilliant comparison of the Vietnam Veterans Memorial and the AIDS Quilt her profound reading of the Memorial as a national wailing wall one whose emphasis on the

veterans and war dead has allowed the discourse of heroes sacrifice and honor to resurface at the same time that it is an implicit condemnation of war is particularly compelling The book also includes discussions of the Kennedy assassination the Persian Gulf War the Challenger explosion and the Rodney King beating While debunking the image of the United States as a culture of amnesia Sturken also shows how remembering itself is a form of forgetting and how exclusion is a vital part of memory formation

Peasants under Siege Gail Kligman, Katherine Verdery, 2011-07-25 In 1949 Romania's fledgling communist regime unleashed a radical and brutal campaign to collectivize agriculture in this largely agrarian country following the Soviet model *Peasants under Siege* provides the first comprehensive look at the far reaching social engineering process that ensued Gail Kligman and Katherine Verdery examine how collectivization assaulted the very foundations of rural life transforming village communities that were organized around kinship and status hierarchies into segments of large bureaucratic organizations forged by the language of class warfare yet saturated with vindictive personal struggles Collectivization not only overturned property relations the authors argue but was crucial in creating the Party state that emerged its mechanisms of rule and the new persons that were its subjects The book explores how ill prepared cadres themselves unconvinced of collectivization's promises implemented technologies and pedagogies imported from the Soviet Union through actions that contributed to the excessive use of force which Party leaders were often unable to control In addition the authors show how local responses to the Party's initiatives compelled the regime to modify its plans and negotiate outcomes Drawing on archival documents oral histories and ethnographic data *Peasants under Siege* sheds new light on collectivization in the Soviet era and on the complex tensions underlying and constraining political authority
