Representative American Speeches Waldo Warder Braden, 1972 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1974 *American Orators of the Twentieth Century* Bernard K. Duffy, Halford Ross Ryan, 1987 A collection of encyclopedia styled essays on 58 leading political social and religious speakers American Orators of the Twentieth Century fills an enormous void in the literature on American public address Each assesses the orator s impact on American life and delineates such aspects of his or her speaking as argumentation style persuasive techniques delivery and methods of speech preparation Appended to each essay is a chronology of the orator s major speeches and a list of information sources that includes leading research collections speech anthologies critical studies and biographies Given the large number of contributors the entries are remarkably even in coverage and clarity On the whole the editors have achieved a sensible balance among mainstream political leaders religious orators and spokesmen and spokeswomen for a variety of historical and contemporary causes If we judge the book on the quality of the essays it contains rather than on the alternative speakers it might have included it deserves high marks Scrupulously edited superbly produced and splendidly bound it will be the standard reference work on its subject for years to come Amazon com Women's Political Discourse Molly A.

**Justice Oliver Wendell Holmes** H. L. Pohlman, 1993-09 Persuasive A welcome addition The Journal of Legal History A masterly exposition of the complex details of Holmes Supreme Court work The Core Review In this work H L Pohlman calls for a new interpretation of Holmes as a moderate defender of free speech and provides a window into Holmes basic understanding of American constitutionalism Pohlman argues that Holmes played a crucial role in the development of the idea that the Constitution is a living entity an idea that differed radically from nineteenth century antecedents

Slavery & the Law Paul Finkelman, 2001-12-17 Central to the development of the American legal system writes Professor Finkelman in Slavery the Law is the institution of slavery It informs us not only about early concepts of race and property but about the nature of American democracy itself Prominent historians of slavery and legal scholars analyze the intricate relationship between slavery race and the law from the earliest Black Codes in colonial America to the passage of the Fugitive Slave Law and the Dred Scott decision prior to the Civil War Slavery the Law's wide ranging essays focus on comparative slave law auctioneering practices rules of evidence and property rights as well as issues of criminality punishment and constitutional law What emerges from this multi faceted portrait is a complex legal system designed to ensure the property rights of slave holders and to institutionalize racism The ultimate result was to strengthen the institution of slavery in the midst of a growing trend toward democracy in the mid nineteenth century Atlantic community

**Noise and Noise Control** Crocker, 2018-10-24 This book is written more for the practitioner than the casual reader Although a high mathematical level is not needed for much of the material some engineering knowledge is desirable Noise control is not easy and there are no magic answers to problems Careful study and patience are required to produce proficiency in the field of noise control

Hearing, Speech, and Communication Disorders Information Center for Hearing Speech and Disorders, 2012-12-06 Information analysis centers were developed to help the scientist and practitioner cope with the ever

increasing mass of published and unpublished information in a specific field Their establishment resulted from a further extension of those pressures that had brought about the formation of the specialized primary journal and the abstracting services at the turn of the century The information analysis center concept was greatly advanced by the 1963 report of the President s Science Advisory Committee Panel on Science Information This report stated scientific interpreters who can collect relevant data review a field and distill information in a manner that goes to the heart of a technical situation are more help to the overburdened specialist than is a mere pile of relevant documents Such specialized information centers are operated in closest possible contact with working scientists in the field These centers not only furnish information about ongoing research and disseminate and retrieve information but also create new information and develop new methods of information analysis synthesis and dissemination The continually expanding biomedical literature produced by scientists from the world s laboratories research centers and medical centers led the National Institute of Neurological Diseases and Stroke in 1964 to initiate a National Neurological Information Network of specialized centers for neurological information The Centers are designed to bring under control and to promote ready access to important segments of the literature
