Representing The Other Sanskrit Sources And The Muslims Eighth To Fourteenth Century:

Representing the Other? Brajadulal Chattopadhyaya,1998 Examines the wide range of epigraphic and historical texts to know the different immigrants to India society in different contexts *Representing the Other* Brajadulal Chattopadhyaya,2017-08-10 The deeply entrenched image of the interaction between Hindus and Muslims in India's past as indeed in the present has generally been that of two aggressively antagonistic religious communities with the superior political power wielded by one community defining its dominance over the other This original colonial notion has often been contested by positing the thesis of syncretism at the religious level by citing evidence of patronage across religious establishments and of participation of both communities in the country's administration Neither approach however took up the critical task of examining the viability of the premise of homogeneity in the composition of the two communities or how contemporary perceptions may be used as a touchstone for othering in heterogeneous societies of the past Chattopadhyaya's *Representing the Other* originally published almost two decades ago makes an attempt to construct perceptions of new ethnic groups in India in an important phase of its history from the eighth to the fourteenth century The evidence though insufficient reveals not homogenous religious communities but ethnic groups of diverse origins located in different socio political contexts as traders raiders and plunderers as well as rulers and administrators The contexts define the characterization of these different categories by either invoking terminologies from the past for others or by coining ethnic terms Based mainly on contemporary Sanskrit epigraphic and textual sources this book is expected to be a major corrective to the way students are generally taught to read the history of our country of this period and of what followed *Evil and the Philosophy of Retribution* Sanjay Palshikar,2017-09-19 What is evil What are the ways of overcoming this destructive and morally recalcitrant phenomenon To what extent is the use of punitive violence tenable *Evil and the Philosophy of Retribution* compares the responses of three modern Indian commentators on the Bhagavad Gita Aurobindo Ghose Bal Gangadhar Tilak and Mahatma Gandhi The book reveals that some of the central themes in the Bhagavad Gita were transformed by these intellectuals into categories of modern socio political thought by reclaiming them from pre modern debates on ritual and renunciation Based on canonical texts this work presents a fascinating account of how the relationship between good evil and retribution is construed against the backdrop of militant nationalism and the development of modern Hinduism Amid competing constructions of Indian tradition as well as contemporary concerns it traces the emerging representations of modern Hindu self consciousness under colonialism and its very understanding of evil surrounding a textual ethos Replete with Sanskrit English Marathi and Gujarati sources this will especially interest scholars of modern Indian history philosophy political science history of religion and those interested in the Bhagavad Gita **The Many Lives of a Rajput Queen** Ramya Sreenivasan,2015-08-03 Winner of the 2009 Ananda Kentish Coomaraswamy Book Prize sponsored by the Association for Asian Studies The medieval Rajput queen Padmini believed to have been pursued by Alauddin Khalji the Sultan of Delhi

has been the focus of numerous South Asian narratives ranging from a Sufi mystical romance in the sixteenth century to nationalist histories in the late nineteenth century *The Many Lives of a Rajput Queen* explores how early modern regional elites caste groups and mystical and monastic communities shaped their distinctive versions of the past through the repeated refashioning of the legend of Padmini Ramya Sreenivasan investigates these legends and traces their subsequent appropriation by colonial administrators and nationalist intellectuals for varying different political ends Using Padmini as a means of illustrating the power of gender norms in constructing heroic memory she shows how such narratives about virtuous women changed as they circulated across particular communities in South Asia between the sixteenth and early twentieth centuries This book will interest historians of memory gender community culture and historywriting in South Asia Illustrating how enduring legends emerged out of particular precolonial repositories of tradition the book also addresses the nature of colonial transitions and precolonial historical consciousness *The World in the Year 1000* James

Heitzman,Wolfgang Schenkluhn,2004-04-09 This volume is a collection of papers originally delivered by an international group of researchers at a conference organized in April 2000 by Dr F J Br ggemeier and Dr Wolfgang Schenkluhn *The World in the Year 1000* is organized in four thematic sections covering five world regions Europe the Islamic world India China and Mesoamerica All contributions in this volume are original works by many of today s leading scholars Unlike most works on pre modern world history which follow a thesis over time this approach suggests that fruitful avenues for comparative work become possible by focusing on a single point in time **Regional Communities of Devotion in South Asia** Gil

Ben-Herut,Jon Keune,Anne Monius,2019-07-19 This book explores the key motif of the religious other in devotional bhakti literatures and practices from across the Indian subcontinent unmasks processes of representation that involve adoption appropriation and rejection of different social and religious agents The book reconsiders and challenges inherited notions of the bhakta s or devotee s other Considering the ways in which bhakti might be conceived as having an inter regional impact as a force discourse network mythology ethic the book critically engages with extant scholarly narratives about what bhakti is and traces when and how those narratives have been used The sheer diversity of South Asia s devotional traditions renders them an especially rich resource for examining social and religious fault lines thereby furthering scholarly understanding of how communalism and sectarianism originate and develop on local or regional levels with wider geographic implications Bringing together studies from a subcontinent wide variety of linguistic geographical and historical frames for the first time this book will be an important contribution to the literature on bhakti and will be of interest to scholars of South Asian Religions and Asian Religions *Religious Traditions in Modern South Asia* Jacqueline Suthren Hirst,John Zavos,2013-03 This book offers a fresh approach to the study of religion in modern South Asia It uses a series of case studies to explore the development of religious ideas and practices giving students an understanding of the social political and historical context

Endless Siege Krzysztof Iwanek,2022-05-13 This is an ethnographic study of the Vidya Bharati chain of schools in India

which are run by a Hindu nationalist organization called the Rashtriya Swayamsevak Sangh RSS The first study of its kind this volume is an important narrative on the role and impact of textbooks in modern India Despite having limited resources they are run on a tight budget and being based on a radical ideology that derives from a Hindu nationalist agenda the Vidya Bharati schools have achieved considerable success in the free market of private education and have grown to over 12 000 schools within 40 years They are an important example of the interlinkage between ideology and nationalism in contemporary India The author analyses school structure curriculum teaching quality institutional goals and ideology in an effort to identify reasons behind Vidya Bharati s success and to show through his field research that a combined strategy of pragmatism blended with ideology has allowed the schools to become highly sought after This analysis then asks broader questions about the failures of the public education system in India

Into the Twilight of Sanskrit Court Poetry Jesse Knutson, 2014-03-14 At the turn of the twelfth century into the thirteenth at the court of King Lakshmanasena of Bengal Sanskrit poetry showed profound and sudden changes a new social scope made its definitive entrance into high literature Courtly and pastoral rural and urban cosmopolitan and vernacular confronted each other in a commingling of high and low styles A literary salon in what is now Bangladesh at the eastern extreme of the nexus of regional courtly cultures that defined the age seems to have implicitly reformulated its entire literary system in the context of the imminent breakdown of the old courtly world as Turkish power expanded and redefined the landscape Through close readings of a little known

corpus of texts from eastern India this ambitious book demonstrates how a local and rural sensibility came to infuse the cosmopolitan language of Sanskrit creating a regional literary idiom that would define the emergence of the Bengali language and its literary traditions

Delhi Upinder Singh, 2006 Not many people know that the busy and bustling capital city of Delhi and its surroundings have a long past going back thousands of years Prehistoric stone tools have surfaced here and many ancient remains have been found sometimes accidentally by farmers tilling their fields and at other times by archaeologists carrying out systematic excavations A mound one passes everyday or a narrow strip of stream tells a story of ancient times Centuries of history coexist with metro stations and plush cars The readings in this book give us glimpses of the lives of people who lived in the Delhi area over the centuries and how these details have been pieced together by historians It brings into focus the importance of the historian's method and the sources of information found in ancient texts archaeology and even legends and folklore sometimes hanging on the thread of a slender historical fact The editor of the volume points to the urgency of further exploration and documentation to fill in the still all too meagre details of Delhi's ancient history However she ends on a note of caution bordering on alarm when she points out that invaluable evidence of the city's past is being extensively destroyed due to quarrying and the construction of new roads and buildings Such activities are an integral part of the modernization of a living city but the balance between modernization and the preservation of ancient remains is indeed very fragile and needs to be maintained from an informed and realistic perspective This collection of essays has been put together by a teacher for students of history but will also be of enormous value to a large number of other interested readers Upinder Singh is Professor of history at the University of Delhi

The Concept of Bharatavarsha and Other Essays B. D. Chattopadhyaya, 2018-08-23 This collection explores what may be called the idea of India in ancient times Its undeclared objective is to identify key concepts which show early Indian civilization as distinct and differently oriented from other formations The essays focus on ancient Indian texts within a variety of genres They identify certain key terms such as janapada desa var a dharma bh va in their empirical contexts to suggest that neither the ideas embedded in these terms nor the idea of Bharatavarsha as a whole are given entities but that they evolved historically Professor Chattopadhyaya examines these texts to unveil historical processes Without denying comparative history he stresses that the internal dynamics of a society are best decoded via its own texts His approach bears very effectively on understanding ongoing interactions between India s Great Tradition and Little Traditions As a whole this book is critical of the notion of overarching Indian unity in the ancient period It punctures the retrospective thrust of hegemonic nationalism as an ideology that has obscured the diverse textures of Indian civilization Renowned for his scholarship on the ancient Indian past Professor Chattopadhyaya s latest collection only consolidates his high international reputation
