Censorship & Cultural Regulation in the Modern Age Beate Müller, 2004 Censorship has become a fashionable topic not only because of newly available archival material from Eastern Europe and the former Soviet Union but also because the new censorship inspired by the works of Foucault and Bourdieu has widened the very concept of censorship beyond its conventional boundaries This volume uses these new materials and perspectives to address the relationship of censorship to cultural selection processes such as canon formation economic forces social exclusion professional marginalization silencing through specialized discourses communicative norms and other forms of control and regulation Two articles in this collection investigate these issues theoretically The remaining eight contributions address the issues by investigating censorial practice across time and space

Cinema Against Doublethink David Martin-Jones,2018-09-28 When is it OK to lie about the past If history is a story then everyone knows that the official story is told by the winners No matter what we may know about how the past really happened history is as it is recorded this is what George Orwell called doublethink But what happens to all the lost forgotten censored and disappeared pasts of world history Cinema Against Doublethink uncovers how a world of cinemas acts as a giant archive of these lost pasts a vast virtual store of the world s memories The most enchanting and disturbing films of recent years Uncle Boonmee Who Can Recall his Past Lives Nostalgia for the Light Even the Rain The Act of Killing Carancho Lady Vengeance create ethical encounters with these lost pasts covering vast swathes of the planet and crossing huge eras of time Analysed using the philosophies of Gilles Deleuze the time image and Enrique Dussel transmodern ethics the multitudinous cinemas of the world are shown to speak out against doublethink countering this biggest lie of all with their myriad false versions of world history Cinema acting against doublethink remains a powerful agent for reclaiming the truth of history for the post truth era

Understanding Revolutions Azmi Bishara,2021-12-30 Based on empirical and theoretical investigation and original insight into how a local protest movement developed into a revolution that changed a regime this book shows us how we can understand political revolutions Azmi Bishara critically explores the gradual democratic reform and peaceful transfer of power in the context of Tunisia He grapples with the specific make up of

Tunisia as a modern state and its republican political heritage and investigates how this determined the development and survival of the revolution and the democratic transition in its aftermath For Bishara the political culture and attitudes of the elites and their readiness to compromise in addition to an army without political ambitions were aspects that proved crucial for the relative success of the Tunisian experience But he distinguishes between protest movements and mass movements that aim at regime change and discerns the social and political conditions required for the transition from the former to the latter Bishara shows that the specific factors that correspond to mass movements and regime change are relative deprivation awareness of injustice dignity and indignation He concludes based on meticulous documentation of the events in Tunisia and theoretical investigation that while revolutions are unpredictable with no single theory able to explain them all revolutions across different historical and conceptual contexts be seen as popular uprisings that aim at regime change The book is the first of a trilogy the Understanding Revolutions series by Bishara seeking to provide a rich comprehensive and lucid

assessment of the revolutions in three states Tunisia Syria and Egypt **Social, Political, and Religious Movements in the Modern Americas** Pablo A.
