Blinders Thomas W. Hilgers MD, 2019-03-18 Over the last 50 or 60 years there has appeared a directional shift in the medical and social culture of the United States We see it in the news programs every night sometimes several times a night Often there are generic reasons given for these changes such as poverty and hopelessness But could there be other reasons Could the medical profession be playing an important role in the violence and destructiveness of this cultural shift Has there been any critical self examination by the medical profession which usually demands evidence based conclusions to be assessed Or are there some questions that are too difficult for individuals to investigate not because it's impossible to investigate them but because it can be painful and because the attitudes of a collective group of colleagues may be preventing these questions from being asked It is as if we have BLINDERS on This book makes an attempt to address some new questions that have rarely been asked but should be This book with a full color interior takes an objective look at data that has been produced by mostly government based statistical gathering systems some published in peer reviewed medical journals and even some in news reports

Queering Reproductive Justice Candace Bond-Theriault, 2024-08-06 The futures of reproductive justice and LGBTQIA liberation are intimately connected

Both movements were born out of the desire to love and build families of our choosing when and how we decide Both movements are rooted in broader social justice liberationist traditions that center the needs of Black and brown communities the LGBTQIA community gender nonconforming folks femmes poor folks parents and all those who have been forced to the margins of society Taking as its starting point the idea that we all have the human right to bodily autonomy to sexual health and pleasure and to exercise these rights with dignity Queering Reproductive Justice sets out to re envision the seemingly disparate strands of the reproductive justice and LGBTQIA movements and offer an invitation to reimagine these movements as one integrated vision of freedom for the future Candace Bond Theriault asserts that for reproductive justice to be truly successful we must acknowledge that members of the LGBTQIA community often face distinct specific and interlocking oppressions when it comes to these rights Family formation contraception needs and appropriate support from healthcare services are still poorly understood aspects of the LGBTQIA experience which often challenge mainstream notions of the nuclear family and the primacy of blood relatives Blending advocacy with a legal rights based framework Queering Reproductive Justice offers a unified path for attaining reproductive justice for LGBTQIA people Drawing on U S law and legislative history healthcare policy human rights and interviews with academics and activists Bond Theriault presents incisive new recommendations for queer reproductive justice theory organizing and advocacy This book offers readers an invitation to join the conversation and ultimately to join the movement to that is unapologetically queering reproductive justice
