letter contains a story that Li would like the renowned author's help in getting published. However, Li's tales each more fantastic and malevolent than the last soon begin alarmingly to resemble the story of Ding's continuing travails in Liquorland. Peopled by extraordinary characters—a dwarf, a scaly demon, a troupe of plump delectable boys raised in captivity, a cookery teacher who primes her students with monstrous recipes—Mo Yan's revolutionary tour de force reaffirms his reputation as a writer of world standing. Wild, bawdy, politically explosive and subversive, *The Republic of Wine* is both mesmerizing and exhilarating, proving that no repressive regime can stifle true creative imagination.

Certain Table Wine from the Federal Republic of Germany, France, and Italy United States International Trade Commission, 1985 *The Republic of Wine* Mo Yan, 2016-08-15

When Special Investigator Ding Gou'er arrives in the fictional province of Liquorland, the air reeks of coal and liquor. Tasked with investigating rumours that local officials are practising cannibalism, he transforms from observer to participant in the bacchanalian rounds of lavish banquets and intemperate drinking. Unable to keep up with Diamond Jin, an official with a notorious capacity for holding his drink, Ding falls into an intoxicated haze until the arrival of a new dish at the banquet table: a golden, incredibly fragrant little boy, which leads to an explosive and surreal series of events that test the limits of his sanity. A true example of Mo Yan's hallucinatory realism, *The Republic of Wine* is a tale of modern China's indulgence and corruption.

The Palgrave Handbook of Wine Industry Economics Adeline Alonso Ugaglia, Jean-Marie Cardebat, Alessandro Corsi, 2019-03-15

This Palgrave Handbook offers the first international comparative study into the efficiency of the industrial organization of the global wine industry. Looking at several important vineyards of the main wine countries, the contributors analyze differences in implementation and articulation of three key stages: grape production, wine making, and distribution, marketing, selling, and logistics. By examining regulations, organization theory, industry organizational efficiency, and vertical integration, up-to-date strategies in the sector are presented and appraised. Which models are most efficient? What are the most relevant factors for optimal performance? How do reputation and governance impact the industry? Should different models co-exist within the wine countries for global success? This comprehensive volume is essential reading for students, researchers, and professionals in the wine industry.
