increasingly became a contest of national will and economic might Ultimately it was the war at sea that linked numerous regional conflicts and theaters of operation into a global war As the war grew in complexity and covered an increasingly larger geographical area the organization of the maritime effort and the impact it had on the formulation of national strategy also evolved This volume illustrates the impact of naval operations on the Second World War by highlighting topics previously neglected in the scholarship In doing so it provides new insights into political strategic administrative and operational aspects of the maritime dimension of the war A fine collection of essays by some of the leading scholars in the field The book addresses comprehensively the vital importance of the sea across a range of theaters during the Second World War through a diverse selection of case studies The examinations and re examinations in this volume will be of interest to both scholars and practitioners Dr Steven Paget University of Portsmouth

Area Handbook for the People's Republic of China Donald P. Whitaker, Rinn-Sup Shinn (Foreign affairs analyst), 1972 *Explaining Chinese Democratization*

Shaohua Hu, 2000-01-30 Hu seeks to explain China's failure to establish a democratic system He demonstrates both continuity and change in China's democratization process Modern China regards power and wealth as primary goals and treats a strong state as a major means to these ends Such a preference puts democracy on a back burner Employing a theoretical framework which consists of five factors historical legacies local forces the world system socialist values and economic development Hu shows that while all of these factors were at work in all eras each assumes a special significance in a particular period Traditional China before the 1911 Revolution attempted to adjust itself to a new Western dominated world In the Republican era the control of local forces topped the political agenda Nationalist China sought to survive and develop in the world system while Maoist China set for itself the task of building a socialist state And of course economic development has been the priority of the Deng era As Hu shows these five factors have had determining impacts on the long struggle for democracy in China

Wilson and China: A Revised History of the Shandong Question Bruce Elleman, 2015-06-03 Drawing on sources in Japanese Chinese and American archives and libraries this book reassesses another facet of Woodrow Wilson's agenda at the 1919 Paris Peace Conference at the end of World War I Breaking with accepted scholarly opinions the author argues that Wilson did not betray China as many Chinese and Western scholars have charged rather Wilson successfully negotiated a compromise with the Japanese to ensure that China's sovereignty would be respected in Shandong Province Rejecting the compromise Chinese negotiators refused to sign the Treaty of Versailles creating conditions for the Soviet Union's entry into China and its later influence over the course of the Chinese revolution

Wilson and China Bruce A. Elleman, 2002 Using sources in Japanese Chinese and American archives this text reassesses Woodrow Wilson's agenda at the Paris Peace Conference It argues Wilson did not betray China but negotiated a compromise with the Japanese to ensure that China's sovereignty would be respected in Shandong Province [China in Disintegration](#) James E. Sheridan, 2008-06-30 After the 1911 fall of the Manchus came the most hideous breakdown in Chinese history

Sheridan a Northwestern University scholar concentrates on the Kuomintang movement of Chiang Kai shek insisting that we judge a political force by whether it solves the problems posed to it not as Chiang s partisans prefer by means of what if s Sheridan s focus on the KMT brings more to light than do many surveys of Mao s revolutionaries The KMT failed either to create an effective dictatorship or to mobilize fascist passions which could ensure willingness to sacrifice Thus the difficulty in squeezing enough wealth out of the peasantry to meet a foreign debt which totaled half the national revenue The KMT did ensure that forced opium production took up at least a fifth of Chinese cropland by the 1929 1933 period and they consolidated a soldier recruitment system that approximated Nazi roundups However the book underlines Chiang s failure to give the masses a Strength through Joy spirit and as wartime inflation of 300% gave way to postwar collapse the anti Communist pitch became emptier and emptier The Kuomintang turned into a mere holding operation and faded into chaos Sheridan gives a strong sense of the rapine of the warlords who were Chiang s off and on allies and of the feeble heritage of Sun Yat sen s patriotic platitudes He leaves out explicit investigation of the international context while underlining more than most writers Chiang s commitment to repay external debt at the expense of the Chinese people A sound and striking approach to these decades of desperation in the lives of a quarter of the human population if not bypassed in the glut of China books it may encourage students and academics to go further Kirkus Reviews
