N. Henderson,2009-09-15 This book explores the life and times of Ecuador s most controversial politician within the broader context of the new political history addressing five major themes of nineteenth century Latin American history the creation of political networks the divisiveness of regionalism the bitterness of the liberal conservative ideological divide the complicating problem of caudillismo and the quest for progress and modernization Two myths traditionally associated with Garc a Moreno s rule are debunked The first is that he created a theocracy in Ecuador Instead the book argues that he negotiated a concordat with the Papacy giving the national government control over the church s secular responsibilities and subordinated the clergy many of whom were highly critical of Garc a Moreno to the conservative state A second frequently repeated generalization is that he created a conservative dictatorship out of touch with the liberal age in which he lived Instead the book argues that moderates held sway during the first nine years of Garc a Moreno s period of influence and only during his final term did he achieve the type of conservative state he thought necessary to advance his progressive nation building agenda In sum this book enriches our understanding of many of the notions of state formation by suggesting that conservatives like Garc a Moreno envisioned a program of material progress and promoting national unity under a very different formula from that of nineteenth century liberals **Politics and Petroleum in Ecuador** John D. Martz, In 1972 Ecuador began to produce and export petroleum in the Amazon interior and the formulation and execution of the petroleum policy became central to the political life of the nation The nation s armed forces seized political power that same year and continued to rule until the reestablishment of democratic pluralist government in 1979 In this book John D Martz probes the differences and similarities between military authoritarianism and democratic pluralism through an analysis of the politics of petroleum in Ecuador The Ecuadorian experience provides an ideal laboratory to test the policymaking characteristics and the overall performances of the two regimes ideal types Martz uses a textured and detailed analysis of global oil companies and nationalist politics to trace the growth and evolution of Ecuador s petroleum industry The course of partisan and sectoral politics and the internal workings of military politics are also examined Against this interplay of politics and the nationalistic struggle against multinational pressures Martz compares policymaking under military and civilian government John D Martz is a professor of political science at Pennsylvania State University He is the author and editor of more than a dozen books on Latin American politics and was the editor of the Latin American Research Review from 1975 to 1980 *Latin American Research Review* ,1987 An interdisciplinary journal that

publishes original research and surveys of current research on Latin America and the Caribbean **International directory of archives / Annuaire international des archives** International Council on Archives, 2010-10-06 No detailed description available for International directory of archives Annuaire international des archives *Peasants on Plantations* Vincent C. Peloso, 1999 An account of the way social relations governing the production of cotton in Peru's South Coast changed as capitalism penetrated Peru's agrarian base the analysis is unusual in that the author looks at the plantation system from a peasant point of view **BOLIVIA A COUNTRY STUDY**, 1991 *Good Faith and Truthful Ignorance* Alexandra Parma Cook, Noble David Cook, 1991 *Good Faith and Truthful Ignorance* uncovers from history the fascinating and strange story of Spanish explorer Francisco Noguero de Ulloa in 1556 accompanied by his second wife Francisco returned to his home in Spain after a profitable twenty year sojourn in the new world of Peru However unlike most other rich conquistadores who returned to the land of their birth Francisco was not allowed to settle into a life of leisure Instead he was charged with bigamy and illegal shipment of silver was arrested and imprisoned Francisco's first wife thought long dead had filed suit in Spain against her renegade husband So begins the labyrinthine legal tale and engrossing drama of an explorer and his two wives skillfully reconstructed through the expert and original archival research of Alexandra Parma Cook and Noble David Cook Drawing on the remarkable records from the trial the narrative of Francisco's adventures provides a window into daily life in sixteenth century Spain as well as the mentality and experience of conquest and settlement of the New World Told from the point of view of the conquerors Francisco's story reveals not only the lives of the middle class and minor nobility but also much about those at the lower rungs of the social order and relations between the sexes In the tradition of Carlo Ginzberg's *The Cheese and the Worms* and Natalie Zemon Davis's *The Return of Martin Guerre* *Good Faith and Truthful Ignorance* illuminates an historical period the world of sixteenth century Spain and Peru through the wonderful and unusual story of one man and his two wives
