Research in Economic History Roger L. Ransom, Robert E. Gallman, Paul Uselding, 1988 **Research in Economic History** Christopher Hanes, Susan Wolcott, 2017-08-15 Volume 33 contains articles on the economic history of Europe America and Asia and brings new analysis and newly created datasets to address issues of interest Two papers focus on the US and contribute to our understanding of the Great Depression **Research in Economic History** Alexander J. Field, Gregory Clark, 2004 **Research in Economic History**, 2012 Research in Economic History Paul Uselding, 1978

Research in Economic History Christopher Hanes, Susan Wolcott, 2015-04-22 The latest volume in the series Research of Economic History contains articles on the economic history of Europe and the U S Research in Economic History Paul Uselding, Robert E. Gallman, 1977 *Twentieth-Century Economic History* Lars Magnusson, 2010-06-09 The study of economic phenomena over time is a well established and flourishing area of research and study and this new four volume collection in the Routledge Major Works series Critical Concepts in Economics meets the need for an authoritative up to date and comprehensive reference work synthesizing the voluminous literature from twentieth century economic historians Indeed the sheer scale of the research output and the breadth of the field makes this collection especially welcome It answers the need for a comprehensive collection of classic and contemporary contributions to facilitate ready access to the most influential and important scholarship from a wide range of theoretical and practical perspectives The collection is organized into ten principal parts Part 1 explores theory and methodology and the role of economic history as either an alternative to mainstream economics or as a helpful discipline Part 2 gathers the key research on growth in economic history The third and fourth parts cover the causes and social consequences of the Industrial Revolution while Part 5 brings together the best and most influential work on the feudal and early modern economy Part 6 deals with free trade mercantilism and imperialism Part 7 focuses on the Great Depression while Part 8 collects research on world economic history and the slave economy The final part collects a fascinating miscellany of crucial issues including taxation and gender Twentieth Century Economic History is edited by Lars Magnusson a leading scholar in the field The collection is fully indexed and has a comprehensive introduction newly written by the editor which places the material in its intellectual context It is an essential work of reference and is destined to be valued by scholars and students as a vital one stop research resource An Economist's Guide to Economic History Matthias Blum, Christopher L. Colvin, 2018-12-08 Without economic history economics runs the risk of being too abstract or parochial of failing to notice precedents trends and cycles of overlooking the long run and thus misunderstanding how we got here Recent financial and economic crises illustrate spectacularly how the economics profession has not learnt from its past This important and unique book addresses this problem by demonstrating the power of historical thinking in economic research Concise chapters guide economics lecturers and their students through the field of economic history demonstrating the use of historical thinking in economic research and advising them on how

they can actively engage with economic history in their teaching and learning Blum and Colvin bring together important voices in the field to show readers how they can use their existing economics training to explore different facets of economic history Each chapter introduces a question or topic historical context or research method and explores how they can be used in economics scholarship and pedagogy In a century characterised to date by economic uncertainty bubbles and crashes An Economist's Guide to Economic History is essential reading For further information visit <http://www.blumandcolvin.org>

Research in Economic History, 19?? **Research in Economic History** Roger L. Ransom, Richard Sutch, Susan B. Carter, Bruce R. Dalgaard, Robert E. Gallman, Gary Saxonhouse, Gavin Wright, Robert Higgs, George W. Grantham, 1982-09

The Future of Economic History Alexander J. Field, 1987-03-31 This collection represents a modest attempt to chart a new course for the intellectual discipline known as economic history The book is not about productivity growth in the 1990s lest the title give rise to any confusion As a group these essays suggest new and potentially fruitful areas or approaches for research and at the same time address weaknesses in past efforts One important audience will be graduate students attempting to decide whether to write a dissertation in economic history or trying to select or refine dissertation topics in the area and determine how to approach them Some of the essays will most certainly be appropriate additions to the or semester courses in economic history that remain a fixture in quarter graduate economics training programs A second audience should be established scholars who are now or have in the past done research in economic history and are interested in the perspectives of a relatively younger group of scholars The term younger is used here advisedly to describe a group of scholars born between 1943 and 1954 Nevertheless the authors of these essays can on at least one dimension be distinguished from the pathbreaking new economic historians who established their academic reputations in the early 1960s Indeed the contributors to this volume include students of such pioneers as Richard Easterlin Albert Fishlow William Parker and Jeffrey Williamson

Handbook of Research on Economic Freedom Niclas Berggren, 2024-04-12 This seminal Handbook provides a comprehensive overview of contemporary research on economic freedom using multidisciplinary methods to assess studies of the determinants and consequences of market oriented institutions and policies Niclas Berggren brings together world leading experts in their respective fields to explore the notion of economic freedom in the history of economic thought to present measures of economic freedom and to provide overviews of the latest empirical research

British Economic Growth, 1270-1870 Stephen Broadberry, Bruce M. S. Campbell, Alexander Klein, Mark Overton, Bas van Leeuwen, 2015-01-22 This is a definitive new account of Britain's economic evolution from a backwater of Europe in 1270 to the hub of the global economy in 1870 A team of leading economic historians reconstruct Britain's national accounts for the first time right back into the thirteenth century to show what really happened quantitatively during the centuries leading up to the Industrial Revolution Contrary to traditional views of the earlier period as one of Malthusian stagnation they reveal how the transition to modern economic growth built on the earlier foundations of a persistent upward trend in GDP per

capita which doubled between 1270 and 1700 Featuring comprehensive estimates of population land use agricultural production industrial and service sector production and GDP per capita as well as analysis of their implications this will be an essential reference for anyone interested in British economic history and the origins of modern economic growth more generally Research in economic history ,1977 **Proceedings of the Twelfth International Economic History Congress, Madrid, 1998** ,1998 **Research in Economic History, Volume 25** Gregory Clark,William A. Sundstrom,2008 A collection of original articles on aspects of economic history **Humanism Challenges Materialism in Economics and Economic History** Roderick Floud,Santhi Hejeebu,David Mitch,2017-01-23 Most of the existing research on economic history relies either solely or ultimately on calculations of material interest to explain the major events of the modern world However care must be taken not to rely too heavily on materialism with its associated confidence in perfectly rational actors that simply do not exist What is needed for a more cogent understanding of the long history of capitalist growth is a more realistic human centered approach that can take account of the role of nonmaterial values and beliefs an approach convincingly articulated by Deirdre McCloskey in her landmark trilogy of books on the moral and ethical basis of modern economic life With *Humanism Challenges Materialism in Economics and Economic History* Roderick Floud Santhi Hejeebu and David Mitch have brought together a distinguished group of scholars in economics economic history political science philosophy gender studies and communications who synthesize and build on McCloskey s work The essays in this volume illustrate the ways in which the humanistic approach to economics that McCloskey pioneered can open up new vistas for the study of economic history and cultivate rich synergies with a wide range of disciplines The contributors show how values and beliefs become embedded in the language of economics and shape economic outcomes Chapters on methodology are accompanied by case studies discussing particular episodes in economic history *Agrarian Organization in the Century of Industrialization* George Grantham,1989 Issues in General Economic Research and Application: 2013 Edition ,2013-05-01 *Issues in General Economic Research and Application 2013 Edition* is a ScholarlyEditions book that delivers timely authoritative and comprehensive information about Theoretical Economics The editors have built *Issues in General Economic Research and Application 2013 Edition* on the vast information databases of ScholarlyNews You can expect the information about Theoretical Economics in this book to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Issues in General Economic Research and Application 2013 Edition* has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>
