

Impact of Accounting Ethics on the Practice of Accounting Profession In Nigeria.

¹Akudakpo, Bukola A. (Mrs),²Enofe, Augustine O.

¹Department of Accounting, Faculty of Management Sciences, University of Benin, Benin City, Nigeria

Abstract: *This study is an empirical investigation of the impact of ethical values on the practice of accounting profession in Nigeria. To achieve the purpose of this study, research questions were raised, hypotheses were formulated, and a review of related literature was made. The main objective of this study is to examine if accounting ethics have much impact on the practice of accounting profession in Nigeria, the factors that make the accountants breach accounting rules and if ethical codes of conduct address all the issues that border on ethical practices. The study employed a synthesis of descriptive and survey research methods. The major instrument used for generating the primary data was the questionnaire, which was designed in five-response option of Likert-scale. Two hundred and fifty (250) questionnaires were administered, two hundred and nineteen (219) questionnaires were completed and returned. The data generated for this study were analysed through mean scores while the stated hypotheses were statistically tested with z-test. Our findings revealed that there are other major influences which accountants believe have impact on their professional conducts like policies and rules of companies where accountants work, religion were found not to have major influence in the professional conduct of accountants. The legal system and societal value systems also inter-played in the accountants' professional conduct. It was recommended among others that the accountant in practice needs to pay attention to good ethical conduct and there is the need to adhere strictly to the ethical code of conduct.*

Keywords: *accounting profession, accounting ethics, ethical codes of conduct, Nigeria.*

1. Introduction

There are a number of situations in which the guidelines or ethical codes appear not too relevant. In such situations, accountants attempt to resolve such issues by choosing from their actions. Many accountants are likely to resolve conflict of interest, situation that border on loss of revenue or job, personal interest and beliefs cultural background and double standards in the application of sanctions without reference to the expectations of the accountancy profession (Akudakpo and Ledonseni, 2013). The issue of what is wrong or right comes up on a daily basis and the practicing accountant, students of accounting, preparer of accounts, accountants planning to set up professional practice, as well as accountants not in practice have obligation to conduct themselves within the limits of good ethical standards.

A well-run profession or business must have high and consistent standards of ethics in order to stand fast and to stand the test of time (Smith and Smith, 2003). Finance and accounting departments in industries are taking ethical considerations to be extremely important (Vickers, 2005 as cited in Mufungwe, 2012). A tension often exists between a company's financial goals and strategies to improve profits, and ethical considerations with concerns for right-behavior. When the public loses confidence in the ability of the market to prevent corporate misbehavior, it often demands increased government regulation. For example, frequent cases of misconduct by corporate executives have led to the passage of various Acts in Nigeria. Such Acts include the Companies and Allied Matters Act, 2004 Cap C20, LPN, the Economic and Financial Crimes Commission (EFCC) Act, 2004, the Investment and Securities Act (ISA) 2007, the Independent Corrupt Practices and other Related Offences (ICPC) Act 2003, Banks and other Financial Institutions Decree 2004, the Nigerian Deposit Insurance Corporation Act 2006, Money Laundering Act, and many others.

The ethical issues among public accountants, there has necessitated a revision of the accounting professional standards (Oka, 2002). Interestingly, professional accountant working in accounting firms are faced with new challenges within the profession as a result of the debacles of large corporations (Sewell, 2002). Organizational cultures and environment pose a good opportunity for accountants to exploit the loopholes in reporting and financial management. Though finance and accounting departments in most organisations are expected to foster the growth of ethical education and awareness but they are often faced with stiff resistance from the top level management (Fisher and Lowell, 2007).

Ethical standards set by professional accounting bodies in Nigeria, ICAN and ANAN, can act to supercharge the engine of morality and good conducts in the discharge of auditing functions in Nigeria. Efforts are being made to introduce and enforce the practice of ethical standards by the regulatory bodies, however, strict adherence to the standards has been a problem (Gwethorpe and Asmat, 2007).

Su,2021-05-03 Whistleblowing is often about disclosing wrongdoings by members of organisations to persons or organisations that may be able to effect action Media would at times publish stories of whistleblowers who engage in heroic acts of exposing wrongdoings at work but the whistleblowers often face significant negative consequences of their whistleblowing efforts This book examines effects of national and organisational cultures on the whistleblowing decisions of employees The book provides empirical evidence of association between organisational culture and whistleblowing and there appears to be a lower likelihood of whistleblowing in organisations that focus more on the cultural dimensions of respect for people innovation and stability It also illustrates how remaining silent or blowing the whistle in response to observed wrongdoings affects employees key work related attitudes This book would interest those wish to gain better understanding of the relationship between culture and whistleblowing in organisations *Corporate Responsibility* Michael Blowfield,Mick Blowfield,Alan Murray,2014 This textbook examines the multiple dimensions to corporate responsibility creating a framework that presents a historical and interdisciplinary overview of the field a summary of different management approaches and a review of the key actors and trends worldwide **Corporate Social Performance: A Stakeholder Approach** Stuart Cooper,2017-07-05 Corporate social performance has come of age In a business environment characterized by its perpetual state of flux the ability to recognize and react to global forces becomes paramount The fallout of such rapid change the fast paced developments in communications and technology the continual change to global markets shifting demographics the homogenization of personal values have all contributed to the widespread new interest in issues such as ecology and environment human rights and diversity health and well being and communities All of these issues are now potential liabilities for companies and are very much back on the agenda for business Once regarded as peripheral management concerns they are now recognized as hard to predict and hard for business to deal with when they go wrong This book offers an insight into how corporate social performance can be measured and why this is an important aspect of corporate social responsibility Using detailed case studies it provides readers with the foundations for understanding and applying corporate social performance providing a stakeholder framework by which corporate social performance can be measured alongside a detailed consideration of the value of different stakeholder measures The book also applies this framework to new social accounting standards enabling the reader to consider the validity and appropriateness of these standards The increasingly important role of the internet for corporate social reporting is also considered **Financial Regulation** Gerald Vinten,2005 **16th European Conference on Innovation and Entrepreneurship Vol 2** Dr. Florinda Matos,Prof Maria de Fátima Ferreiro,Prof Álvaro Rosa,Prof Isabel Salavisa,2021-09-16 *Handbook of Social Network Technologies and Applications* Borko Furht,2010-11-04 Social networking is a concept that has existed for a long time however with the explosion of the Internet social networking has become a tool for people to connect and communicate in ways that were impossible in the past The recent development of Web 2 0 has provided many new applications such as

Myspace Facebook and LinkedIn The purpose of Handbook of Social Network Technologies and Applications is to provide comprehensive guidelines on the current and future trends in social network technologies and applications in the field of Web based Social Networks This handbook includes contributions from world experts in the field of social networks from both academia and private industry A number of crucial topics are covered including Web and software technologies and communication technologies for social networks Web mining techniques visualization techniques intelligent social networks Semantic Web and many other topics are covered Standards for social networks case studies and a variety of applications are covered as well *Advanced Accounting Theory and Practice* Kabiru I. Dandago,2009-01-30 Accounting is the discipline with the oldest historical culture being the first to be recognized by humanity when Adam and Eve were made to account for what they did in paradise It is also the only discipline that will come into play in the Hereafter where everybody would be raised up as an accountant to account for all they have done during their life time on earth Accounting is a service providing discipline with a rich theoretical background which makes available information especially financial to guide various decision making processes Business owners creditors managers prospective investors government and its agencies employees and even the general public seek accounting information to guide them when taking various informed decisions about reporting entities and the environment within which they operate This book addresses the historical accounting culture its theories as well as its practices It is made up of fifteen chapters covering various historical theoretical and practical aspects of Accounting ranging from accounting standardization to financial reporting The book is an attempt to address some of the lacunae in advanced accounting issues both in theory and in practice Students of advanced accounting theory and practice at the professional and academic levels in Universities Polytechnics and Professional Institutes would find the book an essential companion **ICEL 2018 13th International Conference on e-Learning** Professor Eunice Ivala,2018-07-05

Handbook of Accounting, Accountability and Governance Garry D. Carnegie,Christopher J. Napier,2023-10-12 This Handbook explores how accounting accountability and governance are interconnected and demonstrates that they must operate effectively together in establishing good personal and organizational behaviour in entities of all types around the globe It will be crucial for academic researchers working within the fields of accounting economics corporate governance accountability management and business and be beneficial for accounting economics and management professionals seeking to clarify and expand upon their knowledge for effective application **Library Catalogue** Institute of Chartered Accountants in England and Wales,1913 Rethinking commerce education in South Africa Elsabé Loots ,Johan Oberholster ,2023-04-29 This book aims to advance the knowledge on the future of business education in South Africa and to allow all relevant role players universities and industry the opportunity to debate and share ideas on how to best position business education to optimally serve the interest of students and the dynamic changes taking place in the world of work Although some of these changes have taken shape before 2020 the COVID 19 pandemic has accelerated the need and pace for change

If business schools in our context faculties of economic and management sciences do not adapt rapidly they will be left behind by other up and coming industry providers The research scope covers all business related undergraduate and postgraduate economics management and accounting programmes excluding MBA programmes The Review of Business Information Systems ,2006
