Research on Accounting Education in Secondary Vocational Schools Li Geng, 2023-05-23      *Accounting Education for the 21st Century* Jane O. Burns, Belverd E. Needles, 2014-06-28 Accounting practice whether in business or government is more dynamic more complex and addresses a wider array of issues than it did as little as five years ago Significant and rapid social political technological and economic changes are taking place in the world economy and it is increasingly recognised that accountants in all countries play a key role in the process of economic development Accounting education is undergoing a thorough review on a worldwide basis and major developments are taking place to produce quality accounting education that can keep pace with dramatic world change This book provides an up to date view of the state of accounting education throughout the world and focusses on the global challenges facing accounting education as we approach the millenium

Researching Accounting Education Richard M.S. Wilson, 2016-04-14 There is no doubt that accounting education

scholarship and research in Australia is not only thriving but is amongst the best in the world Nor is there any doubt that Australian scholars in this field punch well above their weight within the international arena This book is not derived from a conventional special issue i e one focussing on a specific theme such as audit education communication in accounting education or the interface between accounting education and professional training Instead it presents a collection of leading edge contributions to accounting education research from Australian scholars on topics which have international relevance These topics reflect the typical breadth of research in this field being undertaken in Australia including coverage of students conceptions of accounting work the impact of entry mode on accounting students approaches to learning listening skills in accounting practice and student s performance in online accounting courses Taken together the contents of this book will help to enhance the educational base of accounting practice by providing guidance to educators in improving their pedagogic practice This book was originally published as a special issue of Accounting Education an international journal South African Accounting Education Stocktake Jaco Fouchè, Nico van der Merwe, 2020-04-07 This book is intended to take stock of the current state of accounting education with a specific emphasis on the South African situation It provides a critical overview of the current published research and identified gaps Through this it aims to equip accounting academics with information and tools to motivate them to research the field of accounting education to improve teaching and learning It also aids in the identification of suitable research topics in this regard and highlights potential pitfalls in researching accounting education The book therefore focuses on accounting educators as specialists in their respective disciplines Different authors with a keen interest in a specific area relating to accounting education research wrote each chapter in this book It forms a planned collective work assembled by appropriately qualified and experienced scholars in the accounting education field which generates a new conceptual synthesis that advances scholarship of accounting education research since no such synthesis currently exists for accounting education research in South Africa Research on Professional Responsibility and Ethics in Accounting Cynthia Jeffrey, 2013-09-30 Volume 17 of the series contains research and case studies which examine the professional responsibilities of accountants and how they deal with the ethical issues they face The crucial and timely topics include professionalism social responsibility corporate responsibility ethical judgments and accountability *The Routledge Companion to Accounting Education* Richard M.S. Wilson, 2014-04-29 Many enquiries into the state of accounting education training undertaken in several countries over the past 40 years have warned that it must change if it is to be made more relevant to students to the accounting profession and to stakeholders in the wider community This book s over riding aim is to provide a comprehensive and authoritative source of reference which defines the domain of accounting education training and which provides a critical overview of the state of this domain including emerging and cutting edge issues as a foundation for facilitating improved accounting education training scholarship and research in order to enhance the educational base of accounting practice The Routledge Companion to Accounting Education highlights the key drivers of

change whether in the field of practice on the one hand e.g. increased regulation globalisation risk and complexity or from developments in the academy on the other e.g. pressures to embed technology within the classroom or to meet accreditation criteria on the other Thirty chapters written by leading scholars from around the world are grouped into seven themed sections which focus on different facets of their respective themes including student curriculum pedagogic and assessment considerations

**The Interface of Accounting Education and Professional Training** Elaine Evans, Roger Juchau, Richard M.S. Wilson, 2014-07-16 Over many decades the global development of professional accounting education programmes has been undertaken by higher education institutions professional accounting bodies and employers These institutions have sometimes co-operated and sometimes been in conflict over the education and or training of future accounting professionals These ongoing problems of linkage and closure between academic accounting education and professional training have new currency because of pressures from students and employers to move accounting preparation onto a more efficient economic and practical basis The Interface of Accounting Education and Professional Training explores current elements of the interface between the academic education and professional training of accountants in Australia New Zealand South Africa and the UK It argues for a reassessment of the considerations and requirements for developing professional accounting programs which can make a student capable of being an accountant the academy ready to be an accountant the workplace and professional in being an accountant the professional bodies This book was originally published as a special issue of Accounting Education An International Journal
