Una alternativa al capitalismo neoliberal Josep María Parramón Homs, 2015-04-09 Una alternativa al capitalismo neoliberal pretende ser una ruptura con la linealidad evolutiva de la historia actual Desde la mayor seriedad valentía y creatividad se realiza una propuesta alternativa al capitalismo neoliberal Iniciándose con un planteamiento filosófico avalado matemáticamente mediante la existencia de un máximo de bienestar material Proponiendo el fin de las economías de subsistencia y la obsolescencia del capitalismo como sistema económico La nueva alternativa económica denominada Economía SER se fundamenta en la solidaridad la eficiencia y la racionalidad En una nueva estructura económica compuesta por los bienes y servicios de primera necesidad para una vida digna acabando definitivamente con las desigualdades absolutas mediante el establecimiento de un estado estacionario Se abre la puerta a la libertad de elección personal sobre el futuro de la vida de cada individuo seguir incrementando en diferentes proporciones los bienes y servicios materiales o los culturales Para ello existen los bienes y servicios de no primera necesidad producidos en un nuevo sistema de economía de mercado limitado por los principios e incentivos generales de la Economía SER y por la recuperación y preservación del medioambiente Se desarrollan unos nuevos conceptos de consumo producción ahorro e inversión que nos llevan a un sistema económico con un crecimiento estable sostenido y sostenible cuyo objetivo es el desarrollo humano Siendo probablemente el fin de los ciclos económicos Se abren finalmente unas nuevas propuestas sobre la financiación de los Presupuestos Generales de los Estados y sobre unas novedosas políticas fiscales y monetarias Al mismo tiempo y durante toda la obra se realiza un desmantelamiento exhaustivo de las falsas verdades de la teoría económica vigente en la actualidad

La cara oculta de la prosperidad Joaquín Estefanía, 2011-07-22 Este libro pretende acercar la ciencia económica a todos para que entendamos mejor el mundo en que vivimos y para que conozcamos a quiénes beneficia y a quiénes perjudica cada decisión económica que se toma Las condiciones de vida han mejorado más en el último siglo que en todo el resto de la humanidad Vivimos tiempos en los que la riqueza mundial las conexiones internacionales y la capacidad tecnológica

The End of Democracy Gilberto Lopes, 2024-12-13 Gilberto Lopes with this profound and provocative study based on an ingenious imaginary dialogue between Alexis de Tocqueville 1805-1859 and Karl Marx 1818-1883 on democracy presents us with a disturbing work on one of the most important debates in today's political world This work arises from a practical concern from a life experience and a political restlessness but also from a theoretical curiosity to make a journey inspired by the work of these two great thinkers who approached the history of their time with particular acuity and erudition The relevance of the approaches presented here is evident as we face day by day the challenges that the democracy of today's world must confront growing inequality greater concentration of wealth absurd wars and ever deeper and more widespread environmental deterioration Faced with the state of political and economic confusion that reigns everywhere Gilberto Lopes proposes in a renewed and necessary debate on democracy and socialism to glimpse the signs of progress on the road to equality suggested by Tocqueville as the great engine of history This book aims to help us successfully reach the end of that road
