Round The World Flights:

Around-the-World Flights Patrick M. Stinson,2011-08-12 Since Wilbur and Orville Wright s first machine powered flight adventurers have pondered the prospect of flying around the world Though in the early 20th century the idea seemed as plausible as traveling to Mars aviators made their first attempts in the wake of World War I and have never looked back This history of around the world flights explores the endeavor starting with the first tentative journeys that allowed changing aircraft en route due to expected breakdowns Once flying machines demonstrated reliable performance over global distances a period of one upmanship emerged with each new venture striving to outdo the previous one Today even with international air travel having become routine aviators strive to set records now using unconventional aircraft and fuel sources Paying tribute to the supporting personnel as well as to the flight captains at the center of attention this work celebrates aviation s continued spirit of adventure

and historic look at a complex aviation adventure at a historical watershed moment in time Only months after the Soviet Union had collapsed this group of unlikely adventurer took off from Santa Monica Airport July 4 1992 and fly their single and twin engine privately owned general aviation aircraft 18 000 miles across some of the most inhospitable terrain in the world This unique aviation adventure took place in the wake of the dramatic and sudden collapse of the Soviet Union an event which unfolded during many months in midst of trying to organize this complex aviation adventure The World Flight Across Russia was the idea of Marcel Large President of Raid Intl and organizer of many car motorcycle and air rallies for decades prior to our event Hatched after taking the first private group of general aviation aircraft into the Soviet Union in early 1991 he wanted it to go beyond just flying around the world across Soviet Union Designed as a annual event with a different group flying a different route across the Soviet Union each summer it ended up being across Russia and only took place that one honeymoon summer right after the collapse in July 1992 A fascinating part of the story was Marcel his wife Michelle Eric Vercesi and Paul Hollenbeck dealing with Soviet and then Russian authorities with no one truly knowing who could answer the most pressing questions at hand Moscow January 1992 Four people were in Moscow weeks after the Soviet Union voted itself out of business trying to organize a World Flight Across Russia Confusion reigned supreme six months after hard liners tried to reverse all those gains made during Gorbachev s reforms when Boris Yeltsin and the people made their famous stand for freedom in August 1991 Odds were stacked against their success as the world was still reeling from one amazingly startling fact The Cold War had just ended The 1st Annual Around the World Air Rally was the first western or civilian group of general aviation aircraft to circumnavigate while crossing the entire landmass of Russia but that is only part of the story Our group was under protection of one of the highest officials Vice President Rutskoi in an effort to create updated cultural and business ties between old enemies and new friends Five days in Moscow and across Siberia we carried the highest authority in our back pocket but sometimes in some places that was not enough

Wings Around the World Polly Vacher, 2006-11-19 A pilot's account of her around the world adventure including color photos On May 6 2003 Polly Vacher a fifty nine year old mother of three took off from an airport in Birmingham England seeking to become the first pilot to complete a solo flight around the world via both Poles in a single engine aircraft Despite having only a few years of flying experience Polly had already completed a lateral solo circumnavigation of the world in 2001 for the charity Flying Scholarships for the Disabled This second challenge for the same charity would make that achievement look like a casual jaunt There would be no margin for error Her voyage to the ice was a thirty five thousand mile adventure in her Piper Dakota that would take her to at least thirty different countries on every single continent She had prepared meticulously for two years was fully insured and had all the requisite permits and visas With her kinetic enthusiasm charm and persistence she had already garnered numerous sponsors However as she took off on that blustery spring day flanked by a Hurricane and a Spitfire and waved off by her family and the Prince of Wales she suddenly felt so alone She had begun a remarkable expedition that would gain her three world records but would also encounter extremes of weather and emotion much kindness and obstruction and a little political intrigue This is the story of that adventure Truly inspirational Aviation News

Around the World in 175 Days Carroll V. Glines, 2016-05-10 American military aviation reached a low point after World War I lagging behind its European counterparts and facing a peacetime battle for survival To raise the public profile of aviation military leaders encouraged their pilots to enter air shows and vie for speed endurance and altitude records As a result U S Army airmen daringly accomplished the first flight around the world in 1924 three years before Charles Lindbergh's famous solo flight In *Around the World in 175 Days* Carroll V Glines recounts this adventure from the golden age of aviation After two years of planning four Douglas World Cruisers each carrying a pilot and a mechanic took off from Seattle in April 1924 flying west to circle the globe one additional plane was held in reserve Four of the men and two of the planes completed the flight in September 1924 and miraculously all eight men survived even though one plane had crashed in the Alaskan mountains and another had ditched in the Atlantic The airmen had triumphed over the weather extremes of Arctic Alaska and the desert Middle East numerous primitive landing sites in rough terrain and maintenance and supply problems that persisted despite the coordinated efforts of land and sea based support personnel from the Army Air Service U S Navy and U S Coast Guard Glines captures the drama of the journey from the careful behind the scenes planning through the airmen's harrowing in flight experiences to the mission's culmination in triumph The success charted the future of the Army Air Service's worldwide aircraft deployment and paved the way for long distance commercial air travel
