Rousseau In 90 Minutes:

Rousseau in 90 Minutes Paul Strathern, 2002 These brief and enlightening explorations of our greatest thinkers bring their ideas to life in entertaining and accessible fashion Philosophical thought is deciphered and made comprehensible and interesting to almost everyone Far from being a novelty each book is a highly refined appraisal of the philosopher and his work authoritative and clearly presented Each of these little books is witty and dramatic and creates a sense of time place and characterE I cannot think of a better way to introduce oneself and one's friends to Western civilization Katherine A Powers Boston Globe Well written clear and informed they have a breezy wit about themE I find them hard to stop reading Richard Bernstein New York Times Witty illuminating and blessedly concise Jim Holt Wall Street Journal After Many a Summer Dies the Swan Aldous Huxley, 1993-01-01 A Hollywood millionaire with a terror of death whose personal physician happens to be working on a theory of longevity these are the elements of Aldous Huxley's caustic and entertaining satire on man's desire to live indefinitely With his customary wit and intellectual sophistication Huxley pursues his characters in their quest for the eternal finishing on a note of horror This is Mr Huxley's Hollywood novel and you might expect it to be fantastic extravagant crazy and preposterous It is all that and heaven and hell too It is the kind of novel that he is particularly the master of where the most extraordinary and fortuitous events are followed by contemplative little essays on the meaning of life The story is outrageously good New York Times A highly sensational plot that will keep astonishing you to practically the final sentence The New Yorker Mr Huxley's elegant mockery his cruel aptness of phrase the revelations and the ingenious surprises he springs on the reader are those of a master craftsman Mr Huxley is at the top of his form London Times Literary Supplement **Ape and Essence** Aldous Huxley, 1992-08-01 When Aldous Huxley's *Brave New World* first appeared in 1932 it presented in terms of purest fantasy a society bent on self destruction Few of its outraged critics anticipated the onset of another world war with its Holocaust and atomic ruin In 1948 seeing that the probable shape of his anti utopia had been altered inevitably by the facts of history Huxley wrote *Ape and Essence* In this savage novel using the form of a film scenario he transports us to the year 2108 The setting is Los Angeles where a rediscovery expedition from New Zealand is trying to make sense of what is left From chief botanist Alfred Poole we learn to our dismay about the twenty second century way of life It was inevitable that Mr Huxley should have written this book one could almost have seen it since Hiroshima is the necessary sequel to *Brave New World* Alfred Kazin The book has a certain awesome impressiveness its sheer intractable bitterness cannot but affect the reader Time **Reading Motivation** Joy Dangora Erickson, 2022-12-14 *Reading Motivation A Guide to Understanding and Supporting Children's Willingness to Read* explains the importance of paying careful attention to children's developing motivation to read and offers a step by step guide for conducting rigorous and systematic case studies of children's motivation to read in specific contexts e.g. reading intervention programs The methods described in this book have been used successfully to elicit the perspectives of children as young as five years of age In addition to carefully

considering the views of children readers are encouraged to work with peers to carefully select collect and analyze multiple types of data from a variety of sources to answer questions about their students motivation in trustworthy ways Separate chapters explain how to formatively and summatively analyze and interpret qualitative and quantitative data and how to present findings and make changes to programming in response to findings A summary and a guided activity appear at the end of each chapter to support the reader in practicing the skills introduced in the chapter

Rousseau's Hand Angelica Goodden,2013-10-31 For all the fame he won as a writer during a brief but astonishingly fertile period in the 1750s and early 1760s Rousseau thought the making of books essentially foreign to his nature what mattered most to him was making things Descended as he was from a long line of watchmakers and raised in the artisanal heart of Geneva he helped the promotion of craft associated with his one time friend Diderot whose Encyclop die proclaimed the varied virtues of manual activity Taking as its point of departure the moral and monetary economy of craftsmanship in eighteenth century Switzerland this elegant and original study shows how family tradition and his own unfinished apprenticeship to an engraver led Rousseau to a radical questioning

of central issues of the day particularly in light of the moral utilitarianism of his age Rousseau's *Hand* highlights the vital place of handwork in the artistic and social writings of his middle years from novels and plays to treatises and other forms of discourse illuminating many matters traditionally seen as inconsistencies in his oeuvre as a whole Abandoning creative writing for music copying in middle life Rousseau celebrated *homo faber's* integrity along with the practicality and usefulness of handwork in the face of depersonalizing technological advance yet the writings in which he extolled these virtues won him persecution as well as European celebrity The paradox of craft's material essence in what he thought a world of abhorrent materialism and the problematic mechanization of ordinary existence exercised him throughout his life Rousseau's *Hand* explores these preoccupations [Yeast Cells](#) ,1975-12-17 Yeast Cells

The Human Soul: Essays in Honor of Nalin Ranasinghe Predrag Cicovacki,2022-02-01 This collection of essays is dedicated to a recently deceased philosopher and humanist Nalin Ranasinghe His central philosophical and humanistic preoccupation was with the human soul Not surprisingly his greatest inspiration was Socrates credo Care for your soul and the title of his first book was *The Soul of Socrates* In this and his later writings Ranasinghe expressed his growing concern over the idea that the human soul has been hijacked due to the way our civilization has developed the highest and noblest aspirations of our civilization have been replaced by our obsession with money pleasure and power We now live in a time where we do not know who we are nor who the people around us are Despite all of the technical gadgets connecting us virtually this is the age of disconnect and loneliness as well as of the degradations of humanity Ranasinghe insisted that the two keys for recovery are the self knowledge of the soul and a continuous dialogue with others We need to relearn how to relate to ourselves and others as unique individuals not as objects for the satisfaction of our needs Following his ideas the twenty essays presented here are divided into two parts the soul in reflection and the soul in dialogue The contributors come from various countries around the globe and work in different disciplines and their chapters aim to revive our interest in the soul and the obscured core of our humanity This book will appeal to undergraduate and graduate students of philosophy however the essays are written in a non technical language also making them accessible to the general audience **Cumulated Index Medicus** ,1994 *The Documentary Imagination in Twentieth-Century French Literature* Alison James,2020-09-03 *The Documentary Imagination in Twentieth Century French Literature* identifies a documentary impulse in French literature that emerges at the end of the nineteenth century and culminates in a proliferation of factual writings in the twenty first Focusing on the period bookended by these two moments it highlights the enduring concern with factual reference in texts that engage either with current events or the historical archive Specifically it considers a set of ideas and practices centered on the conceptualization and use of documents In doing so it contests the widespread narrative that twentieth century French literature abandons the realist enterprise and argues that writers instead renegotiate the realist legacy outside or at the margins of the fictional space of the novel Analyzing works by authors including Gide Breton Aragon Yourcenar Duras and Modiano the book defines

a specific documentary mode of literary representation that records assembles and investigates material traces of reality The document is a textual visual or material piece of evidence repurposed through its visual insertion textual transcription or description within a literary work It is a fact but it also becomes a figure standing for literature s confrontation with the real The documentary imagination involves a fantasy of direct access to a reality that speaks for itself At the same time it gives rise to concrete textual practices that open up new directions for literature by interrogating the construction and interpretation of facts
