Royal Aspirations

Jonathan Boulton, Jan Veenstra

Royal Aspirations:

The Hellenistic Court Andrew Erskine, Lloyd Llewellyn-Jones, Shane Wallace, 2017-12-14 Hellenistic courts were centres of monarchic power social prestige and high culture in the kingdoms that emerged after the death of Alexander They were places of refinement learning and luxury and also of corruption rivalry and murder Surrounded by courtiers of varying loyalty Hellenistic royal families played roles in a theatre of spectacle and ceremony Architecture art ritual and scholarship were deployed to defend the existence of their dynasties The present volume from a team of international experts examines royal methods and ideologies It treats the courts of the Ptolemies Seleucids Attalids Antigonids and of lesser dynasties It also explores the influence on Greek speaking courts of non Greek culture of Achaemenid and other Near Eastern royal institutions It studies the careers of courtesans concubines and friends of royalty and the intellectual ceremonial and artistic world of the Greek monarchies The work demonstrates the complexity and motivations of Hellenistic royal civilisation of courts which governed the transmission of Greek culture to the wider Mediterranean world and to later ages **Genesis** ,

Literature and Political Intellection in Early Stuart England Todd Butler, 2019-07-24 Drawing upon a myriad of literary and political texts Literature and Political Intellection in Early Stuart England charts how some of the Stuart period s major challenges to governance the equivocation of recusant Catholics the parsing of one s civil and religious obligations the composition and distribution of subversive texts and the increasing assertiveness of Parliament evoked much greater disputes about the mental processes by which monarchs and subjects alike imagined understood and effected political action Rather than emphasizing particular forms of political thought such as republicanism or absolutism Todd Butler here investigates the more foundational question of political intellection or the various ways that early modern individuals thought through the often uncertain political and religious environment they occupied and how attention to such thinking in oneself or others could itself constitute a political position Focusing on this continuing immanence of cognitive processes in the literature of the Stuart era Butler examines how writers such as Francis Bacon John Donne Philip Massinger John Milton and other less familiar figures of the seventeenth century evidence a shared concern with the interrelationship between mental and political behavior These analyses are combined with similarly close readings of religious and political affairs that similarly return our attention to how early Stuart writers of all sorts understood the relationship between mental states and the forms of political engagement such as speech oaths debate and letter writing that expressed them What results is a revised framework for early modern political subjectivity one in which claims to liberty and sovereignty are tied not simply to what one can do but how or even if one can freely think *The Routledge Handbook of East Central and Eastern Europe in the Middle Ages, 500-1300* Florin Curta, 2021-11-29 The Routledge Handbook of East Central and Eastern Europe in the Middle Ages 500 1300 is the first of its kind to provide a point of reference for the history of the whole of Eastern Europe during the Middle Ages While historians have recognized the importance of integrating the eastern part of the European

continent into surveys of the Middle Ages few have actually paid attention to the region its specific features problems of chronology and historiography This vast region represents more than two thirds of the European continent but its history in general and its medieval history in particular is poorly known This book covers the history of the whole region from the Balkans to the Carpathian Basin and the Bohemian Forest to the Finnish Bay It provides an overview of the current state of research and a route map for navigating an abundant historiography available in more than ten different languages Chapters cover topics as diverse as religion architecture art state formation migration law trade and the experiences of women and children This book is an essential reference for scholars and students of medieval history as well as those interested in the history of Central and Eastern Europe

The Ideology of Burgundy Jonathan Boulton, Jan Veenstra, 2006-07-01 This book is a collection of eight essays on the ideology of Burgundy dealing with the body of ideas images institutions and narrative fictions produced at the behest of the Valois dukes to create and maintain their incipient domanian state in the period from roughly 1364 to the 1560s Nation building requires an ideological framework and the successive dukes their officers and their court intellectuals all contributed to a self determinative image of Burgundy which became visible in their literature in their quest for a regal title in the foundation of the Order of the Golden Fleece and in their propaganda The essays approach the themes of the collection from the perspective of several disciplines and together present a well rounded picture of Burgundian nation building Contributors include D A J D Boulton Jan Dumolyn Malte Prietzel Graeme Small Robert Stein Bernhard Sterchi Jan R Veenstra and David J Wrisley

Talisman of the Winds JP Wagner, 2020-11-11 In the rugged land of Askos a rebellion brews against the ruthless King Narnash Skalsland who rules with an iron fist from his throne in Wennz Askos The fight for freedom is led by Lussommi H Askovoto known simply as Lusi the last living descendant of Askos old royal line But her people s hope for liberation hinges on a most unlikely hero Thotgol a wandering ox driver and reluctant gambler is drawn into the chaos after an encounter with three nomads and a dying magician in the city of Suraggos Forced to carry a mysterious pouch by a powerful spell Thotgol soon discovers that fate has far greater plans for him Bound to a Talisman that holds the power to command the winds themselves he finds himself thrust into a war he never intended to join Pursued by vengeful enemies shadowed by a treacherous magician and allied with a peculiar merchant who can traverse between worlds Thotgol must navigate the dangers of a war torn realm As Lusi rallies her forces and Wennzish lords plot rebellion against their own king Thotgol learns to wield the Talisman s deadly power turning the very winds against his foes But the Talisman s strength comes with a price and as the weather itself rebels Thotgol must decide how far he is willing to go to fight a war that was never his to begin with In a land where loyalties shift like sand and even magic has its limits Thotgol and Lusi must face enemies on all sides both within and without to secure freedom for Askos once and for all With betrayal lurking at every corner ancient magic awakening and a battle that will determine the fate of kingdoms will Thotgol become the hero Askos needs or the pawn in a game played by darker forces Enter a world of intrigue magic and war in this

epic tale of courage destiny and the relentless pursuit of freedom **At the Edge of Summer** Jessica Brockmole,2016 A story of a friendship born of proximity but boundless in the face of separation and war Reimagining the Past in the Borderlands of Medieval England and Wales Georgia Henley,2024-05-08 Challenging the standard view that England emerged as a dominant power and Wales faded into obscurity after Edward I's conquest in 1282 this book considers how Welsh and British history became an enduringly potent instrument of political power in the late Middle Ages Brought into the broader stream of political consciousness by major baronial families from the March the borderlands between England and Wales this inventive history generated a new brand of literature interested in succession land rights and the origins of imperial power as imagined by Geoffrey of Monmouth These marcher families leveraged their ancestral political and ideological ties to Wales in order to strengthen their political power both regionally and nationally through the patronage of historical and genealogical texts that reimagined the Welsh past on their terms In doing so they brought ideas of Welsh history to a wider audience than previously recognized and came to have a profound effect on late medieval thought about empire monarchy and succession **Essential Perennials** Ruth Rogers Clausen,Thomas Christopher,2015-01-07 Essential Perennials focuses on what every gardener needs to know to choose from the thousands of perennials available and care for the ones you already have This A to Z guide is packed with more than 2 700 plants with each entry listing flower color bloom time foliage characteristics size and light and temperature requirements Each profile is supported by stunning color photography that showcases the flower and foliage that make each plant unique **The House of the Mother** Cynthia R. Chapman,2016-01-01 This work reevaluates the biblical house of the father in light of the anthropological critique of the patrilineal model It uncovers and defines the contours of an underappreciated yet socially significant kinship unit in the Bible the house of the mother Alexander the Great Waldemar Heckel,Lawrence A. Tritle,2011-09-19 Alexander the Great A New History combines traditional scholarship with contemporary research to offer an innovative treatment of one of history's most famous figures Written by leading experts in the field Looks at a wide range of diverse topics including Alexander's religious views his entourage during his campaign East his sexuality the influence of his legacy and his representations in art and cinema Discusses Alexander's influence from his impact on his contemporaries to his portrayals in recent Hollywood films A highly informed and enjoyable resource for students and interested general readers *The Greek Slogan of Freedom and Early Roman Politics in Greece* Sviatoslav Dmitriev,2011-03-24 This book elucidates the many uses of the slogan of freedom by ancient Greeks beginning with the Peloponnesian war and continuing throughout the Hellenistic period and shows in detail how the Romans appropriated and adjusted Greek political vocabulary and practices to establish the pax Romana over the Mediterranean world *Following Osiris* Mark Smith,2017-02-15 Osiris god of the dead was one of ancient Egypt's most important deities The earliest secure evidence for belief in him dates back to the fifth dynasty c 2494 2345BC but he continued to be worshipped until the fifth century AD Following Osiris is concerned with ancient Egyptian conceptions

of the relationship between Osiris and the deceased or what might be called the Osirian afterlife asking what the nature of this relationship was and what the prerequisites were for enjoying its benefits It does not seek to provide a continuous or comprehensive account of Egyptian ideas on this subject but rather focuses on five distinct periods in their development spread over four millennia The periods in question are ones in which significant changes in Egyptian ideas about Osiris and the dead are known to have occurred or where it has been argued that they did as Egyptian aspirations for the Osirian afterlife took time to coalesce and reach their fullest form of expression An important aim of the book is to investigate when and why such changes happened treating religious belief as a dynamic rather than a static phenomenon and tracing the key stages in the development of these aspirations from their origin to their demise while illustrating how they are reflected in the textual and archaeological records In doing so it opens up broader issues for exploration and draws meaningful cross cultural comparisons to ask for instance how different societies regard death and the dead why people convert from one religion to another and why they abandon belief in a god or gods altogether **Sovereignty** Francis Harry

Hinsley,1986-11-20 Professor Hinsley s book first published in 1966 offers a general survey of the history of the theory of sovereignty which seeks to illuminate the theory s character and function by stressing the changing social political and economic frameworks within and between the political societies in which it has developed It also spans and connects the different intellectual aspects of the concept of sovereignty philosophical legal historical and political For this new edition Professor Hinsley has wholly rewritten the last chapter to bring the history up to date and to make some new concluding remarks *The Anointed and His People* Gerbern S. Oegema,1998-08-01 In this systematic and radical work Oegema

studies the origins and development of expectations of a messiah royal priestly or prophetic In five parts all the Jewish and Christian literature from 200 BCE to 200 CE is analysed for its messianic interests Special attention is devoted to the Pseudepigrapha the Qumran literature Philo Josephus the writings of the Early Church the Jewish Apocalypses and the early Rabbinic writings In this important work Oegema contends that we cannot speak of a messianic idea in Judaism but that we can trace a historical trajectory of messianic expectations Earth Story in Genesis Norman C. Habel,Shirley

Wurst,2000-08-01 A series of articles by scholars from around the world reading the story of Earth in Genesis in the light of the ecojustice principles enunciated in Volume One Readings from the Perspective of Earth These readings uncover how Earth may be valued or de valued given a voice or denied a voice dominated or served depending on the orientation of the text In Genesis 1 for example the intrinsic worth of Earth is highlighted in the revealing of Earth s presence but negated when humans are given the right to subdue it In Genesis 9 the text begins with the Earth community terrified by and alienated from humans but ends with all the Earth Community and Earth itself bound together equally in a covenant **Who**

Do My Opponents Say That I Am? Scot McKnight,Joseph B. Modica,2008-03-23 This volume will unpack the seven allegations proposed by Scot McKnight in his article Calling Jesus Mamzer in the inaugural volume of The Journal for the

Historical Jesus Volume 1 1 2003 73 103 Each essay will explore the historicity of each accusation and what they tell us about Jesus McKnight and Modica propose that by examining these specific allegations one can begin to comprehend a neglected dimension of historical Jesus studies namely that Jesus can be understood by what his opponents critics say of him They contend that such an approach offers as Malina and Neyrey have previously examined in Calling Jesus Names a Christology from the side There will be an introductory and concluding essay from the editors **Patronage, Patrimonialism, and Governors' Careers in the Dutch Chartered Companies, 1630-1681** Erik Odegard, 2022-06-08 How did individuals advance to the highest ranks in the Dutch colonial administrations And how once appointed was this rank retained To answer these questions this book explores the careers of Dutch colonial governors in the 17th century with a focus on two case studies Johan Maurits van Nassau Siegen governor of Dutch Brazil 1636 1644 and Rijckloff Volckertsz van Goens Governor General in Batavia in the 1670s By comparing a Western Atlantic WIC and an Eastern Asian VOC example this book shows how networks sustaining career making differed in the various parts of the empire the West India Company was much more involved in domestic political debates and this led to a closer integration of political patronage networks while the East India Company was better able to follow an independent course The book shows that to understand the inner workings of the Dutch India companies we need to understand the lives of those who turned the empire into their career Law, Governance, and Justice Richard Kaeuper, Paul Dingman, Peter Sposato, 2013-01-11 How law and governance operated in medieval England and whether contemporaries saw justice in its operations have long generated scholarly discussions 13 scholars established and younger figures historians and literary analysts offer their new views in this volume *Scotland* Jenny Wormald, 2005

Yeah, reviewing a ebook **Royal Aspirations** could build up your close links listings. This is just one of the solutions for you to be successful. As understood, success does not suggest that you have astonishing points.

Comprehending as capably as concord even more than extra will find the money for each success. bordering to, the statement as skillfully as perspicacity of this Royal Aspirations can be taken as competently as picked to act.
