Excerpt from *Rubber and Rubber Planting* During recent years interest in the Rubber planting industry has extended far beyond that comparatively large section of the community which is engaged in trades more or less directly connected with rubber In fact nowadays this material enters so intimately into the daily life of almost everyone that there will probably be few to whom the romance of rubber entirely fails to make an appeal In endeavouring to make this book suitable for the needs of as wide a circle of readers as possible it has been the aim of the author to combine an accurate account of the scientific side of rubber planting with a certain amount of practical information which may be of use to the prospective planter The space available in a book of this kind only admits of treating the subject in the form of an introductory outline but it is hoped that the information given will be found reliable as far as it goes About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **RRIM Training Manual**
