J.R.R. Tolkien's The Lord of the Rings J. R. R. Tolkien, 1979 Fantasy Fiction into Film Leslie Stratyner, James R. Keller, 2015-01-21 This work examines the symbolism of fantasy fiction literal and figurative representation in fantastic film adaptations and the imaginative differences between page and screen Essays focus on movies adapted from various types of fantasy fiction novels short stories and graphic novels and study the transformation and literal translation from text to film in the Lord of the Rings The Chronicles of Narnia Charlie and the Chocolate Factory Howl s Moving Castle Finding Neverland The Wizard of Oz Wicked and Practical Magic The Fictional Arts Eli Rozik, 2011 This book is a comprehensive introduction to the analysis of fictional worlds in a set of fifteen arts including theatre opera figurative ballet mime audio drama figurative drawing painting figurative sculpture strip cartoon animation puppet theatre still photography photo novel silent movie cinema and TV drama Due to their extreme differences the combination of different arts in the description of a single fictional world and the translation from one medium to another are considered problematic While such differences do not concern fictional creativity which applies the same poetic and rhetoric rules whatever the medium it is widely accepted that the problem lies in the extreme differences between the mediums of description In contrast this study explores their common grounds These arts are iconic in nature and if iconicity is re defined in terms of imprinting images on matter and mediation of language and as reflecting the common roots of these mediums in a preverbal mode of imagistic thinking therein is an explanation of their possible combination and translation from one medium to another without impairing the receivers reading interpreting and experiencing capacities Eli Rozik analyses numerous fictional worlds in all these arts produced during the last 2 500 years of artistic creativity especially in theatre art and cinema This book presupposes that principles underlying the generation of descriptions of fictional worlds by the theatre medium as proposed in two earlier works Generating Theatre Meaning and Fictional Thinking also apply to all the iconic fictional arts The text book format of the volume has been purposefully designed to address the needs of undergraduate and postgraduate students suiting the structure of university courses and providing all necessary information to access the images artistic works discussed in the volume via the web and Google This inter art journey from theatre theory to the arts is compelling reading for all those involved and engaged in artistic creativity **Peter S.
