National Union Catalog ,1982 Includes entries for maps and atlases *National Union Catalog*, 1982 ,1983 The Expansion of Central Europe in the Middle Ages Nora Berend,2017-05-15 This volume brings together a set of key studies on the history of medieval Central Europe Bohemia Hungary Poland along with others specially commissioned for the book or translated and a new introduction This region was both an area of immigration and one of polities in expansion Such expansion included the settlement and exploitation of previously empty lands as well as rulers attempts to incorporate new territories under their rule although these attempts did not always succeed Often German immigration has been prioritized in scholarship and the medieval expansion of Central Europe has been equated with the expansion of Germans Debates then focused on the positive or negative contribution of Germans to local life and the consequences of their settlement This perspective however distorts our understanding of medieval processes On the one hand Central Europe was not a passive recipient of immigrants Local rulers and eventually nobles benefited from and encouraged immigration they played an active role On the other hand German immigration was not a unified movement and cannot be equated with a drang nach osten Finally not just Germans but also various Romance speaking and other immigrant groups settled in Central Europe This volume therefore seeks to present a more complex picture of medieval expansion in Central Europe The North-Eastern Frontiers of Medieval Europe Alan V.
