The Eyes of an Atheist M. A. Neeper, 2012-07-23 Religious people have been known to push their beliefs onto others in fact several religions require it This book utilizes reason logic some psychology and the experiences of someone who has been in several hundred religious debates with believers mainly those of the Judeo Christian faiths Throughout this book you will be presented with several of the most common arguments that believers utilize in order to attempt to convert people to followers then you will be given a response that not only stops them in their religion pushing tracks but will give you the upper hand and hopefully give them something to think about aside from simply what their preacher pastor reverend etc has told them to think This book will allow you to defend yourself from others religious preachings as well as teach you something about atheism and how informed you can be as a nonbeliever It pushes the limits of religious discussion with examples from the Bible logical arguments psychological reasoning and well researched opinions Do not get caught off guard again by any believer Be ready

and more informed

The Friendly Atheist: Thoughts on the Role of Religion in Politics and Media Hemant Mehta, 2013-01-21 Every semester in the weeks leading up to final exams I hand out a study guide to all of my high school math students and have them complete it so that they have a sense of what to expect on the big test Inevitably students ask If I just study this packet will I be prepared for the exam I sigh I stare at them I give them the response every teacher knows by heart No of course the packet isn't enough You should go through your notes your homework and the textbook You should redo the examples we did in class and try more practice problems from the book The study guide is only a summary of the big ideas from the semester If you really want to understand the subject you have to go much more in depth In a sense this book is a study guide for the things I've written about over the past several years My name is Hemant Mehta and I began FriendlyAtheist.com in 2006 before I began teaching high school in order to talk about a topic I was incredibly passionate about religion Not necessarily to convince people that God didn't exist but to talk about the issues that mattered now that we were Godless What you see in this book is a compilation of posts discussing the subjects I have written the most about They are reprinted here with minimal editing to offer a glimpse into my world and to show you the concerns I've had as an American atheist That means talking about atheists who fight for their and in many respects our rights responding to people who smear us just because we're not religious and making people aware of the way atheists are viewed by the majority of Americans hint we're not very popular That means talking about politics and social issues in particular the fight for equal rights for the LGBT community since those are the major issues in our country where rational thinking free from religious tradition is needed but seldom found That means talking about the obstacles that young atheists have to deal with on a regular basis Their challenges are so different than the ones we face in the real world yet their courage inspires all of us To be a vocal atheist is never easy and there are students promoting rational thinking on campus while keeping their administrators in check They do this despite risking their social capital At the same time when those students are not around to act as watchdogs we must do it for them and shine a spotlight on illegal intrusions of religion into our public schools Are these the only issues that matter to atheists No but they are the issues that have taken up the bulk of my writing in the years since I began covering atheism related news If you want to get a fuller picture of what atheists are talking about what our activism involves and what our future looks like no single writer can do that for you just as no single study guide will prepare you for a final exam

Life Driven Purpose Dan Barker, 2015-04-01 Every thinking person wants to lead a life of meaning and purpose For thousands of years holy books have told us that such a life is available only through obedience and submission to some higher power Today the faithful keep popular devotionals and tracts within easy reach on bedside tables and mobile devices all communicating this common message Life is meaningless without God In this volume former pastor Dan Barker eloquently powerfully and rationally upends this long held belief Offering words of enrichment emancipation and inspiration he reminds us how millions of atheists lead happy loving moral and purpose filled lives Practicing what he

preaches he also demonstrates through his own personal journey that life is valuable for its own sake that meaning and purpose come not from above but from within

How to Be a Good Atheist Nick Harding, 2008-04-28 For millennia priests and holy men have told countless conflicting tales about humanity's genesis and fate while also saying anyone devoid of faith is evil immoral and responsible for societal ills For those tired of these contradictions fed up with hearing about divine mysteries when there aren't any and offended by being told they're going to hell atheism is a popular and logical answer This book contains all you need to know about what to pack for your journey on the enlightening road to atheism including explanations of the five types of atheism and the difference between an atheist and an agnostic a term invented by T H Huxley famous for his defense of Darwin as well as how a deist differs from a theist Learn why Christians were originally called atheists read about Lucretius and his fellow materialists and revel alongside atheists who happily have nothing to defend
