Lost Innocence A Perspective On Child Labour:

The Lost Innocence Nadeem Mohsin, 2002 With reference to India Nanjunda, 2009 Study conducted in Bangalore City of Karnataka India **eliminate child labor**, 1994 Child Labour in Urban Informal Sector Helen R. Sekar, 2004 Child Labour Anaclaudia Gastal Fassa, David L. Parker, Thomas J. Scanlon, 2010-07 Child labour constitutes a major public health concern with estimates that world wide 110 million children aged 5 14 years are engaged in labour that can be described as hazardous or intolerable This book examines both the rights oriented and public health perspectives on child labour A rights approach ensures that exploitative and abusive work is considered not just in terms of a labour market or health rights approach but also in terms of human dignity and the solutions that preserve the rights of children and communities The public health approach is steeped in the relationship between individuals and their community seeking to identify how the presence or absence of government programmes and policies affects those involved The economics perspective is also presented early in the book to aid understanding of the causes and consequences of child labour before the alternate public health and sociological views are presented The editors examine factors such as poverty malnutrition social disadvantage gender globalisation and education and look at both physical and psychological threats This book will be of use to academics and students involved in health health policy social sciences and development disciplines Those actively involved public health initiatives such as policy makers and non governmental organisations will also find this an invaluable resource *Annotated Bibliography on Child Labour*, 2003 The aim of this bibliography on child labour was to assemble the best of the rapidly increasing literature and research material in recent years and make it accessible The focus is from 1995 to 2002 although a few authoritative earlier sources have been included Three basic selection criteria were applied the material had to be considered representative relevant and to present sources that had been previously overlooked **Lost Innocence, Stolen Childhoods** Thérèse Blanchet, 1996 With reference to Bangladesh Child labour: a textbook for university students, 2004

Constructing and Reconstructing Childhood Allison James, Alan Prout, 2015-05-08 When the first edition of this seminal work appeared in 1990 the sociology of childhood was only just beginning to emerge as a distinct sub discipline Drawing together strands of existing sociological writing about childhood and shaping them into a new paradigm the original edition of this Routledge Classic offered a potent blend of ideas that informed even inspired many empirical studies of children s lives because it provided a unique lens through which to think about childhood Featuring a collection of articles which summarised the developments in the study of childhood across the social sciences including history psychology sociology anthropology feminist and developmental studies scholars and professionals from developed and developing countries world wide shared their knowledge of having worked and of working with children Now with a new introduction from the editors to contextualise it into the 21st century this truly ground breaking text which helped establish childhood

studies as a distinctive field of enquiry is being republished *By the Sweat and Toil of Children*, 1994 *Inhabiting 'Childhood': Children, Labour and Schooling in Postcolonial India* S. Balagopalan, 2014-04-29 Through a rich ethnography of street and working children in Calcutta India this book offers the first sustained enquiry into postcolonial childhoods arguing that the lingering effects of colonialism are central to comprehending why these children struggle to inhabit the transition from labour to schooling **New Perspectives On British Authors** Rama Kundu, 2006 The irresistible and eternal attraction of an island has surfaced in literature as a varied range of tropes the domain of strange fantastic creatures flora and fauna an Other since the ancient times epitome of the charm of the distant in the romantic era real geographical spaces since the era of sea voyaging discovery and re mapping of islands with the emergence of imperialism new meanings arising from the new imperial discourse in the postcolonial era the islanders themselves writing back to the mainstream canon Today we have a great harvest of island literature arising out of various discourses including postcolonial postimperial feminist ecological cultural etc in addition to unique works on island arising from individual perceptions philosophical imaginative emotional nostalgic etc A study of island literature across ages and lands thus can introduce us not only to a vast spectrum of ideas approaches contemplation ideation discourses and counter discourses But also to a wide network of inter references in which authors across lands and ages from Homer to Shakespeare Defoe Swift Ballantyne to Golding Coetzee Virginia Woolf to Margaret Atwood Rhys Walcott to Eco Saramago seem to reach out to one another and shake hands A basic perceptual difference between the outsider and the insider as they behold their encircled space has contributed to great counterpoints compulsive confinement challenge of survival thrill of discovery satisfaction of possession love claustrophobia desire to escape desire to return and repossess etc which writers have brought to correspond to a wide range of contrapuntal discourses It has been envisioned as the exclusive space for the artist the woman as time's backwater as the magic realm of the surreal hyperreal fantasia etc Island has come to semiotize a wide range of tropes and significations It appears that if island is a signifier then the signified are endless Indeed the island paradigm seems to be like a magic crystal reflecting innumerable strands and shades of meanings depending on the way you looked at it The subject involves an area of oceanic vastness starting from the coast of the ancient ages right into the ports of the modern and postmodern times The area has been ever spreading and vibrant texts have been sprawling all the time sprouting newer branches accumulating newer layers of meaning and striking newer depths of perception and insight This book an outcome of the UGC Emeritus Fellowship has been an attempt to scoop up a few of these infinite infinities of islands as they are presented and projected in texts across ages and spaces starting from Valmiki and Homer and continuing into the postmodern islands of Jose Saramago and Umberto Eco *Child Exclusion Among Internally Displaced Populations in Rift Valley and Nyanza Provinces of Kenya* Kennedy Nyabuti Ondimu, 2010 Globally over 25 million people are displaced within their own countries by conflicts or human rights violations In Kenya thousands of families are increasingly being displaced by the effect of inter ethnic violence environmental

disasters and forced government eviction from forest reserves The majority of these displaced communities end up squatting in informal settlements in the nearby urban centres or at the fringes of the forest zone where they are exposed to extreme poverty and deprivation Since almost all the displaced families originate from the rural areas the act of displacement shatters the family based rural economy when they seek refuge in towns Internally displaced children face many risks due to the violence and uncertainty surrounding both their family's flight and their life in the place of refuge This report discusses the findings of the Child Exclusion Survey conducted among the internally displaced in Rift Valley and Nyanza provinces between January 2007 and August 2007 The main objective of the study was to examine the extent of child exclusion among IDPs in Kenya in relation to attaining the ideals of the 1989 Convention on the Rights of the Child and the Millennium Development Goals

The Greenwood Encyclopedia of Children's Issues Worldwide Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China from the violent street culture of Nigeria to the crippling poverty in Nicaragua from child trafficking in Thailand to child marriages in India this jam packed six volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century In recent years while many countries have enjoyed a higher standard of living and improved working conditions others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth Organized by region *The Greenwood Encyclopedia of Children's Issues Worldwide* is the first globally focused set of this magnitude offering extensive up to date coverage of these critical issues Original chapters accessibly synthesize current data on key topics including education play and recreation child labor family health laws and legal status religious life abuse and neglect and growing up in the 21st century

The World of Child Labor Hugh D Hindman, Hugh Hindman, 2014-12-18 *The World of Child Labor* details both the current and historical state of child labor in each region of the world focusing on its causes consequences and cures Child labor remains a problem of immense social and economic proportions throughout the developing world and there is a global movement underway to do away with it Volume editor Hugh D Hindman has assembled an international team of leading child labor scholars researchers policy makers and activists to provide a comprehensive reference with over 220 essays This volume first provides a current global snapshot with overview essays on the dimensions of the problem and those institutions and organizations combating child labor Thereafter the organization of the work is regional covering developed developing and less developed regions of the world The reference goes around the globe to document the contemporary and historical state of child labor within each major region Africa Latin and South America North America Europe Middle East Asia and Oceania including country level accounts for nearly half of

the world's nations Country level essays for more developed nations include historical material in addition to current issues in child labor All country level essays address specific facets of child labor problems such as industries and occupations in which children commonly work the national child welfare policy occupational safety regulations educational system and laws and often highlight significant initiatives against child labor Current statistical data accompany most country level essays that include ratifications to UN and ILO conventions the Human Development Index human capital indicators economic indicators and national child labor surveys conducted by the Statistical Information and Monitoring Program on Child Labor The World of Child Labor is designed to be a self contained comprehensive reference for high school college and professional researchers Maps photos figures tables references and index are included *Working to Be Someone* Beatrice Hungerland, Manfred Liebel, Anne Wihstutz, Brian Milne, 2007-02-15 This book presents an overview of worldwide research on working children that considers children's own views of employment in favour of adult constructed arguments about child work This is a key text for social work practitioners that encourages re evaluation of the notion of childhood and understands the complex phenomenon of working children **Children in the Global Sex Trade** Julia O'Connell Davidson, 2005 An account of the many and varied ways in which children become involved in the sex trade this work presents the global political and economic inequalities that underpin children's exploitation *Discourse on Applied Sociology: Practising perspective* Samir Dasgupta, Robyn Bateman Driskell, 2007 This engaging and wide ranging two volume study urges a balance between theoretical and practical sociology *Child Labour Opponents and Their Campaigns in the Americas* Nina Schneider, 2025-11-03 This book delves into the past and examines the origins of activism against child labour It addresses a hitherto under examined question how and why did child labour develop into a key concern between the 1880s and 1930s Who were the protagonists who first raised the issue of child labour as a global concern The study aims to provide the first account of the history of diverse and locally grounded but nationally and frequently globally connected child labour opponents in the Americas their motivations and campaigns at the turn of the 20th century I argue that for the period between 1888 and 1938 one can identify similar protagonists a joint goal a broadly similar timing common platforms comparable campaigning mechanisms and many types of connections or entanglements across regions Nevertheless in contrast to the global anti slavery movement child labour opponents formed a loosely institutionalised network which lacked an international organisation that focused specifically on child labour A global history approach to child labour opponents helps reveal large scale patterns across societies and highlight similarities and differences between cases **Children, Youth, and Development** Nicola Ansell, 2005 Children constitute a large part of the population of developing countries This text considers issues such as education child labour street children child soldiers refugees child slaves and the impact of environmental change and hazards on children
