The Invisible Pyramid Loren C. Eiseley, 1998-01-01 In 1910 young Loren Eiseley watched the passage of Halley's Comet with his father The boy who became a famous naturalist was never again to see the spectacle except in his imagination That childhood event contributed to the profound sense of time and space that marks *The Invisible Pyramid* This collection of essays first published shortly after Americans landed on the moon explores inner and outer space the vastness of the cosmos and the limits of what can be known Bringing poetic insight to scientific discipline Eiseley makes connections between civilizations past and present multiple universes humankind and nature True Notebooks Mark Salzman, 2007-12-18 In 1997 Mark Salzman bestselling author *Iron and Silk* and *Lying Awake* paid a reluctant visit to a writing class at L A's Central Juvenile Hall a lockup for violent teenage offenders many of them charged with murder What he found so moved and astonished him that he began to teach there regularly In voices of indelible emotional presence the boys write about what led them to crime and about the lives that stretch ahead of them behind bars We see them coming to terms with their crime ridden pasts and searching for a reason to believe in their future selves Insightful comic honest and tragic *True Notebooks* is an object lesson in the redemptive power of writing **Mumford, Tate, Eiseley** Gale H. Carrithers, Jr., 1992-01-01 Though of diverse backgrounds and training Mumford Tate and Eiseley shared remarkably concordant and convincing views of the state of twentieth century American society All three considered America to be benighted by a dominant myth the myth of the machine in Mumford's phrase that resulted in cultural degeneration Through an examination of selected works of each critic Carrithers explains how these writers both identified and fought against this myth Carrithers asserts that Mumford Tate and

Eisley in their essays revived prophecy as a mode of expression and as a means of appraising culture in a broad historical context. Like the biblical prophets, the three concerned themselves not so much with the future as with the present. They sought to unmask the falseness, the moral emptiness of a reductive, abstractive, mechanized model of the world. Carrithers considers Mumford as he moved from conflicted stances in the four volumes of *The Renewal of Life* to the more assured and comprehensive vision of society he portrayed in the two-volume *The Myth of the Machine*. He examines Tate's critique of American culture as it developed from his youthful involvement with the Fugitives and Agrarians to, in later years, an increasingly coherent but cumbersome construal of the world's plight. Finally, he describes Eisley's fully emergent rejection of reductive scientism and temporalism, a large part of all that is crushing us. Eisley wrote evident in *The Immense Journey* and other books. Mumford, Tate, and Eisley, these watchers in the night, all wrote against the grain of most of their contemporaries, posing questions about generally accepted current values and proffering alternatives that would make the world a more humane and transcendent place. Gale Carrithers' thoughtful challenging analysis of their efforts will be required reading for anyone who wishes a better understanding of our age.

Artifacts & Illuminations Tom Lynch, Susan Naramore
Maher, 2012-04-01 Loren Eiseley 1907-77 is one of the most important American nature writers of the twentieth century and an admired practitioner of creative nonfiction. A native of Lincoln, Nebraska, Eiseley was a professor of anthropology and a prolific writer and poet who worked to bring an understanding of science to the general public, incorporating religion, philosophy, and science into his explorations of the human mind and the passage of time. As a writer who bridged the sciences and the humanities, Eiseley is a challenge for scholars locked into rigid disciplinary boundaries. *Artifacts and Illuminations*, the first full-length collection of critical essays on the writing of Eiseley, situates his work in the genres of creative nonfiction and nature writing. The contributing scholars apply a variety of critical approaches, including ecocriticism and place-oriented studies ranging across prairie, urban, and international contexts. Contributors explore such diverse topics as Eiseley's use of anthropomorphism and Jungian concepts and examine how his work was informed by synecdoche. Long overdue, this collection demonstrates Eiseley's continuing relevance as both a skilled literary craftsman and a profound thinker about the human place in the natural world.

Emerson and Environmental Ethics Susan Dunston, 2018-09-15 At the core of Emerson's philosophy is his view as a naturalist that we are made of the same atoms as the world is. In counterpoint to this identity, he noted the fluid evolution and diversity of combinations and configurations of those atoms. Thus, he argued, our relation and connection to the world are not occasional or recreational but everywhere and always and also reciprocal, ongoing, and creative. He declared he would be a naturalist, which for him meant being a knowledgeable lover of nature. Emerson's famous insistence on an original relation to the universe centered on morally creative engagement with the environment. It took the form of a nature literacy that has become central to contemporary environmental ethics. The essential argument of this book is that Emerson's integrated philosophy of nature, ethics, and creativity is a powerful prototype for a diverse range of

contemporary environmental ethics After describing Emerson's own environmental literacy and ethical aesthetic and creative practices of relating to the natural world Dunston delineates a web of environmental ethics that connects Emerson to contemporary eco feminism living systems theory Native American science Asian philosophy and environmental activism

Christianson, 2000-10-01 Presents a biography of the naturalist and writer describing how his work stems from his loveless childhood with a mentally ill mother and traveling salesman father and his determination to succeed *Ecology and Literatures in English* Françoise Besson, 2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare s theatre to ecopoetics from travel writing to detective novels from children s books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts **Barns of the Midwest** Allen G. Noble, Hubert G. H. Wilhelm, 2018-09-11 Originally published in 1995 *Barns of the Midwest* is a masterful example of material cultural history It arrived at a critical moment for the agricultural landscape The 1980s were marked by farm foreclosures rural bank failures the continued rise of industrialized

agriculture and severe floods and droughts These waves of disaster hastened the erosion of the idea of a pastoral Heartland knit together with small farms and rural values And it wasn't just an idea that was eroded material artifacts such as the iconic Midwestern barn were also rapidly wearing away It was against this background that editors Noble and Wilhelm gathered noted experts in history and architecture to write on the nature and meaning of Midwestern barns explaining why certain barns were built as they were what types of barns appeared where and what their functions were Featuring a new introduction by Timothy G Anderson *Barns of the Midwest* is the definitive work on this ubiquitous but little studied architectural symbol of a region and its history
